sparkmachineryrental.com

SPARK Machinery Rental is a leading Generator rental and maintenance company in the UAE. We have been focussing on providing total power solution systems and services to our clients.

We deliver uninterrupted power supplies and ensure secure power systems and solutions. Being the best, we cater to various sectors that need continuous power supply including large-scale construction projects and other manufacturing units.

Our fleet consists of sound proof diesel generators range from 30KVA to 1250KVA, powered by Cummins and Perkins engines. Our skilled and experienced workforce ensures that the quality of our products and services is maintained.

We ascertain timely delivery at accepted standards and prices. Ideal for medium-to large-scale Contracting, Engineering, Civil Industrial building, and it can also be of use to retail stores. Our ready-to-use generators can solve major power issues.

Our Services

Generator Rental

- ⚡ We have a wide range of generators to suit various power requirements.
- ⚡ Our generators are capable of handling complete power distribution.
- ⚡ Our fleet consists of sound proof diesel generators ranging from 30KVA to 1250KVA, powered by Cummins and Perkins engines.
- ⚡ We provide 24/7 delivery, installation, and maintenance service. Our equipment is optimized with best industrial parts to make it fuel efficient. With the 24/7 Onsite support at affordable rates, the generators are durable and reliable, thereby reducing your production downtime.

Repairs and Maintenance

Generators must be regularly maintained for enhanced efficiency and uptime. Spark Machinery Rental deals with Generator Maintenance of all makes and models. We have a team of qualified, dedicated technicians taking care of servicing and maintenance for smooth functioning of all our products.

Annual Maintenance Contract (AMC)

Spark Machinery provides Generators' Annual Maintenance Contract (AMC) to our clients, as well as supply of Parts and Filters on demand. Our proficient team is well equipped to handle unpredicted hurdles in an all demanding environment with the support assistance round the clock.
