G3i, came into existence with an investment of experience in the field of commercial refrigeration industry spanning for a period of more than four decades.

G3i, specialize in manufacturing of sandwich panels, cold storages, fruit ripening units, logistic centers, food factories, ice cream parlors, beverage storages, sea food & meat freezing and storages facilities etc. We keep international quality standards and provide our customer needs with utmost perfection and comprehensive service.

G3i insulated panel systems are just perfect to use in cold stores, ambient rooms, neutral rooms and food processing facilities. Our products have outstanding performance in keeping the industry standards.

G3i, have a well-trained team of experts comprising engineers, designers, fabricators, technicians etc, which serves us to keep our clients supported 24x7.

PROJECT LIFE CYCLE

MESSAGE FROM CEO

Our mission at G3i is to provide our clients with comprehensive support for their requirements. We deliver this by focusing on the global refrigeration industry, training our people constantly to be experts in their fields, who are capable of serving our clients to cater their needs in the best way.

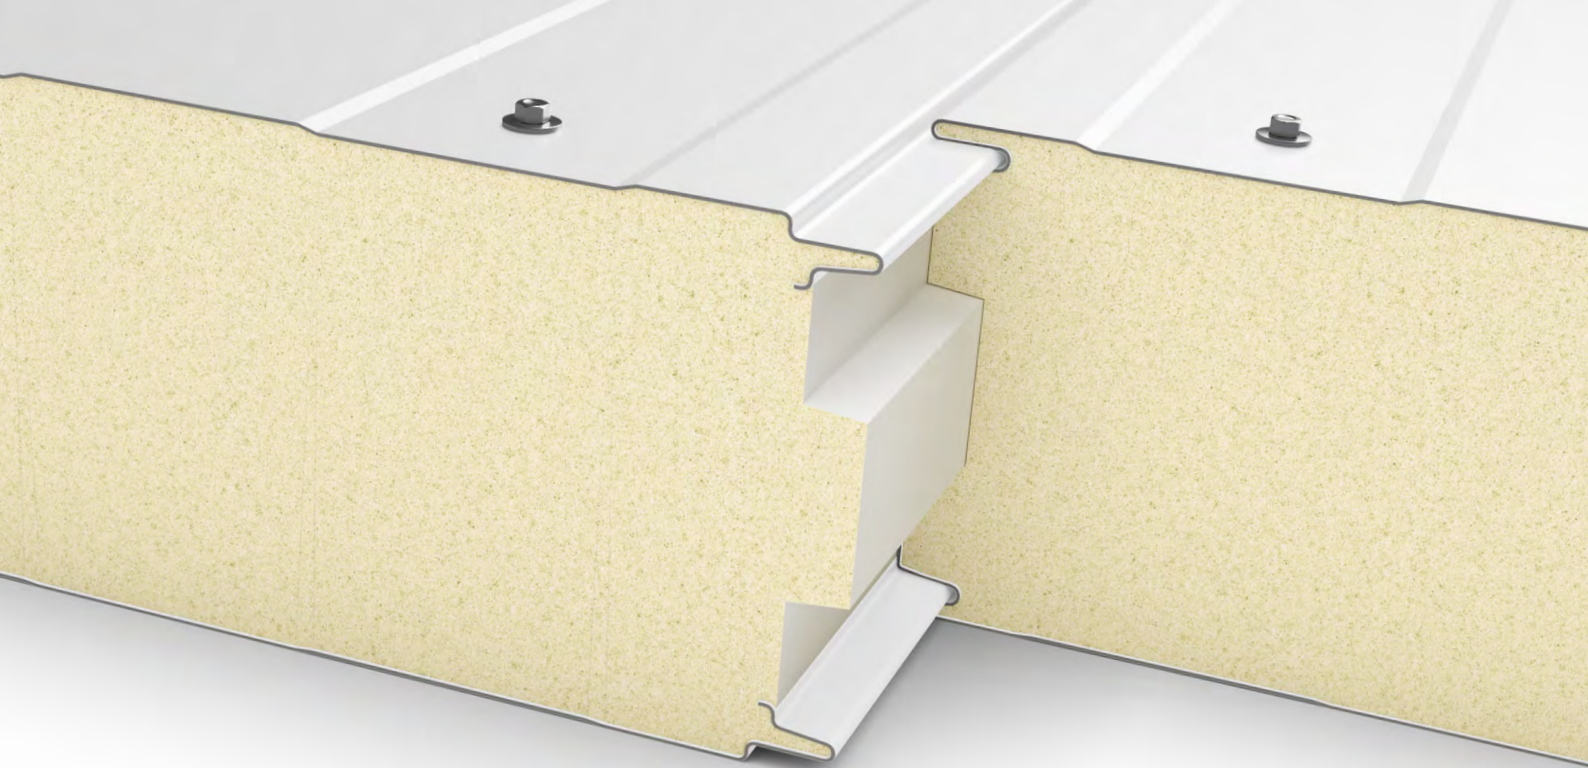

At the core of our company's success is a genuine interest in the global refrigeration industry and a desire to provide ample solutions to fulfill our client needs. We highly value our multi-cultural professional work force and encourage innovation, flexibility and above all, teamwork.

In our search for excellence we have learnt that only by truly listening to our clients we can satisfy their requirements and we always welcome your feedback.

James Joseph

Founder & CEO
