

**WELCOME TO**

**Company  
Profile**

**SRN MECHANICAL SERVICES LLC**

AL QUOZ INDUSTRIAL AREA 3 - DUBAI, UAE

## WELCOME TO SRN MECHANICAL SERVICES LLC

*We are your trusted partner. We pride ourselves on our ability to collaborate closely with our customers, providing tailored solutions that meet their unique requirements and exceed their expectations.*

*Our unwavering commitment to quality, innovation, and customer satisfaction has earned us a reputation as a reliable and trusted supplier in the industry.*

*we are committed to delivering exceptional quality and unparalleled service to our valued customers.*

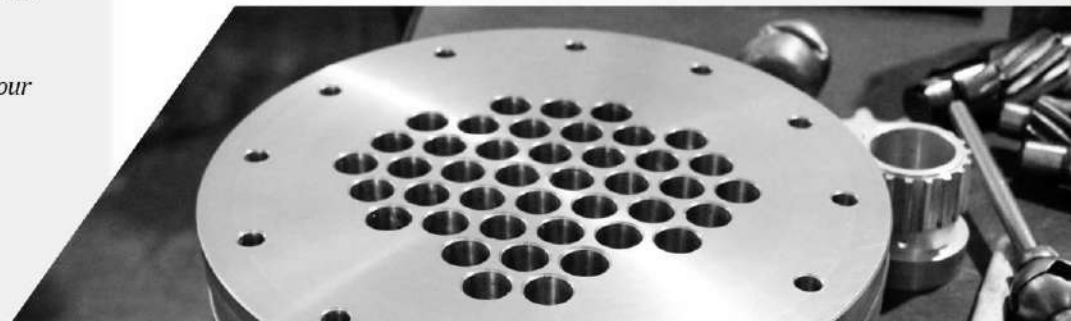

## SRN ABOUT US

*SRN Mechanical Services L.L.C is a renowned company in the United Arab Emirates, established in 2015 by Mr. S.Rajan our respective founder of the company.*

*We have gained a strong reputation for our commitment to manufacturing excellence. With a focus on delivering high-quality Products, we have become one of the most trusted names in the industry.*

*Our factory located in Dubai. We dedicated to the manufacturing and supply of high-quality precision parts, assemblies, and equipment. We pride ourselves on utilizing the latest machinery and technology to ensure the production of top-notch products.*

*We focus on heavy engineering products, sheet metal fabrication, machine shop services, and precision products, we cater to diverse industries.*

## SRN COMPANY INFORMATION

**Address** : Plot No. 368 - 364 Street No 19 20-B, behind Al Quoz mall  
Al Quoz Industrial Area 3 - Dubai

**Reg.No** : 1669106

**Email** : [info@SRNmech.com](mailto:info@SRNmech.com)

**Phone** : 04 0225 6712, +971 50 595 1400

**Fax** : 04 0225 6711

**Website** : [www.SRNmech.com](http://www.SRNmech.com)

# SRN VISION & MISSION

*SRN Mechanical Services LLC is committed to provide high quality products and services, which fully meet the specification or even exceed expectations of the customers.*

*We fabricate / manufacture top quality products and never compromise on the same. It is our endeavor & responsibility to achieve customer satisfaction by maintaining the required quality standards, timely delivery of products and services through planning, teamwork and continuous improvement.*

*In addition also we have facility to analyze the discontinuity or cracks or the component using Dye Penetration (DP), Magnetic Particle Inspection (MPA) and Ultrasonic Inspection (UT). This will be carry out depend on the customer demand.*

# SRN OUR SERVICES

## SRN WHY CHOOSE US ?

*Offer Affordable Price*

*Create Innovative Design*

*Present Informative Design Review*

*Do Ultimate Quality Inspection*

*Made Sensible Product*

*Perpetual Customer Support*

## CUSTOMIZED MACHINES MANUFACTURING

- Customized machine manufacturing process based on client's preferences
- Expert team works closely with clients to understand specific requirements
- Final product ensures exact needs met
- Design to production process with precision and attention to detail
- Optimal performance and efficiency guaranteed

## STEEL FABRICATION

- Transforms raw steel into functional structures.
- We use state-of-the-art equipment and industry standards.
- Delivers exceptional results.
- Specializes in structural steel frames, staircases, railings, and industrial equipment.
- Possesses expertise and resources for project execution.

## CNC LASER CUTTING

- Provides precision and efficiency in cutting pipes and sheets.
- Equipped with a powerful laser source for precise cuts.
- Ideal for structural applications and signage, fabrication, or prototyping.
- Advanced software and controls optimize cutting parameters for different materials.

## **HYDRAULICS**

Our company possesses exceptional capabilities in the manufacturing of high-performance hydraulic systems that cater to diverse industrial applications. With state-of-the-art facilities and a team of experienced engineers, we meticulously design, engineer, and assemble hydraulic systems tailored to specific customer requirements. Our expertise encompasses custom hydraulic power units, cylinders, valves, pumps, and other components, ensuring optimal performance and reliability in demanding operating environments. We utilize advanced manufacturing techniques and stringent quality control measures to guarantee the precision and durability of our products.

## **MOTOR REWINDING**

We possess unparalleled expertise in motor rewinding, meticulously restoring faulty motors to their optimal performance. Our highly skilled technicians employ advanced techniques and utilize premium materials to ensure the highest quality results. We specialize in rewinding various types of motors, including AC induction motors, DC motors, and servo motors, catering to a wide range of industries. Our comprehensive services encompass stator rewinding, rotor rewinding, coil replacement, and insulation upgrades.

## **CNC MACHINING CENTER**

Our state-of-the-art CNC machine center is a cutting-edge manufacturing hub that combines precision, speed, and versatility to produce exceptional parts and components. Our highly skilled technicians meticulously operate the CNC machines, ensuring optimal performance and adherence to the most stringent quality standards. This advanced technology allows us to produce a wide range of parts with intricate geometries, tight tolerances, and superior surface finishes. From aerospace components to medical devices, our CNC machine center enables us to cater to diverse industries, delivering high-quality products that meet the demanding

## GEAR & SPARE PARTS

- Leading manufacturer of gears and spare parts
- Expertise and capabilities to meet diverse needs of industries worldwide
- State-of-the-art facilities equipped with advanced machinery and skilled engineers
- High-quality gears and spare parts produced with precision and efficiency
- Specializing in a wide range of gear types including spur gears, helical gears, bevel gears, and worm gears
- Catering to various applications in sectors such as automotive

## TOOLS & DIES

- Leading manufacturer of high-quality tools and dies
- Provide precision-engineered solutions for a wide range of industries
- State-of-the-art facilities and skilled workforce
- Custom tools and dies produced to meet exact client specifications
- Specialize in design and fabrication of stamping dies, progressive dies, forming dies, and other tooling components
- Tools known for durability, accuracy, and efficiency
- Ensure optimal performance for clients

## REPAIRING & REFURBISHMENT

- Specialize in comprehensive repair and refurbishment of industrial and commercial machines
- Highly skilled technicians with extensive knowledge and experience
- Diagnose and resolve mechanical, electrical, and hydraulic issues
- Utilize advanced diagnostic tools and specialized equipment for accurate repairs
- Meticulous attention to detail and commitment to quality workmanship
