ABOUT US

Synol Fuel Distribution LLC is an integrated and independent oil, lubricant, and bunker supplier company located and headquartered in the UAE. We have a global presence, where we operate in regions such as Africa, The Mediterranean as well as the Indian subcontinent. We possess long term experience in the fuel and oil distribution market segment where we have successfully developed strong ties and relationships with a global clientele. Synol houses a team of skilled and knowledgeable workforce that helps us deliver bespoke services as per client requirements with excellence and professionalism.

Our key strength and differentiator is the consistency in providing high quality and reliable services as well

as the timeliness of our delivery combined with a completely transparent pricing structure, administration and expert advisory that we provide to our clients as a value-added service.

Synol believes in offering and delivering strong and reliable support to the clientele where our flexible business structure allows us to adapt to market changes and needs. Furthermore, we have a rigorous and systematic risk management system in place to deal with uncertainty and help the company recuperate through difficulties, this has always been Synol's strategy that has helped us acquire substantial growth.

Mission

At Synol, our key mission is to provide reliable, efficient, and high-quality fuel distribution services to clients across a diverse and wide region. Synol with its humble beginning has now emerged as a reliable name in fuel distribution in the UAE and other international regions, we will always strive toward excellence and improving our offering and service delivery that exceeds client expectations.

Vision

At Synol, our key vision is to emerge as an international brand in fuel distribution around the globe, where we successfully create value for our clients, partners as well as ourselves as a corporation and an entity that multiple businesses rely upon. We always aim to integrate the latest in fuel distribution technology as well as digital technology to deliver excellence in service that is unmatched in the current market.

Values

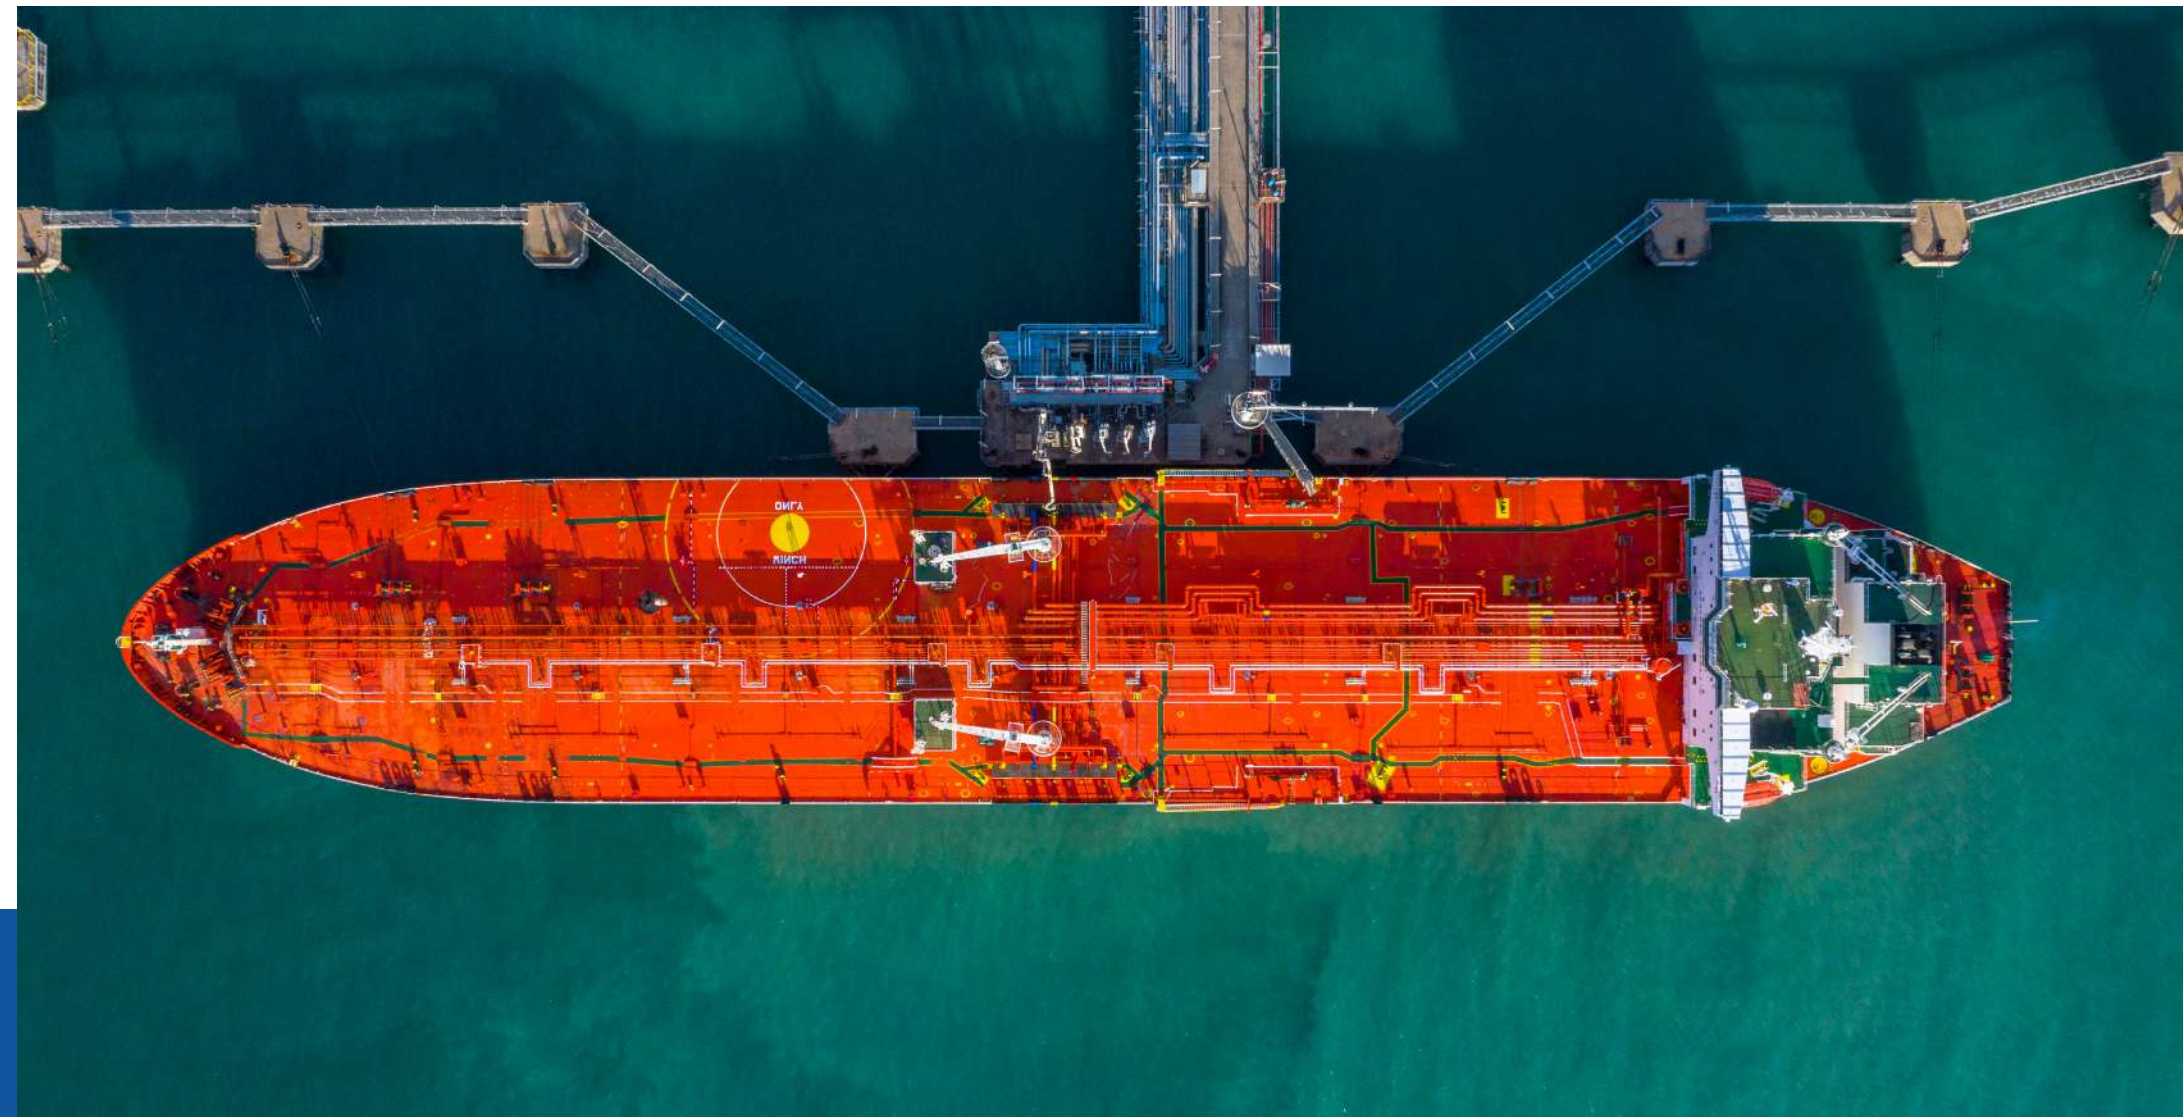

We are committed continuously to make a difference within our local communities. We consider our clients and the trust they endow us with, as an asset that helps us to grow. To ensure timeliness and quality while we are sufficing for the petroleum needs of our customers, we always coordinate with our logistics team to ensure that everything is right on track!

To help our customers have an experience they can be proud of, the following are the core values that we abide by:

- Commitment to excellence
- Integrity in terms of our approach
- Consistent Teamwork
- Executing as per client's expectations

SERVICES

SYNOL L.L.C. is all about keeping our commercial and industrial clientele up and running.

Transportation

At Synol, the primary mode of delivery is employing road tankers. With our network throughout the region, we consistently transport and distribute high-quality petroleum products and services to our valued customers. With the mode of transportation that we work with, the economic benefits are limitless. Other than being a cheap alternative to transporting petroleum goods, they are also a very convenient option when considering emergency deliveries. This is the main reason why our customers trust us with their emergency petroleum needs.

Trading

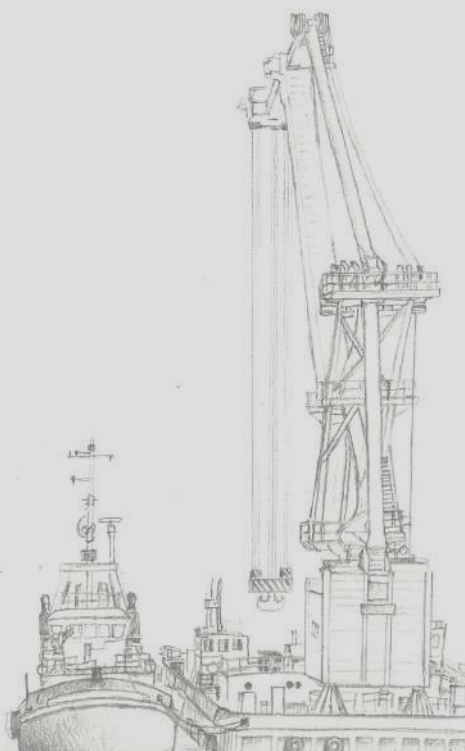

With plenty of years of experience that we have under our belt, Synol is proud of the international presence that we have made in a relatively short period of time. A highly motivated trading team and a thoroughly dedicated in-house technical support staff, we are gratified to supply within the region and across international borders.

Bunkering

At Synol, it is not just our extensive experience and thorough understanding of petroleum distribution services that allow dealing with extraordinarily complex bunkering operations. Instead, it is our widespread presence and state-of-the-art technical support combined with an international presence that helps us in exceeding our customers' expectations.

Not only do we offer logistical and organizational flexibility, but we also excel in providing bespoke financial solutions when it comes to the distribution of petroleum goods. With our dedicated and experienced team of experts in bunkering and petroleum transportation, we stay committed to continually meeting and exceeding regulatory obligations. This allows us to suffice our customers with tailored service that are specifically designed to suit their needs.

PRODUCTS

Gas Oil

Being an experienced distributor and supplier across UAE, we, at Synol, are always aimed at providing our customers with round-the-clock, personalized service that they can count on. The experts that we have onboard are readily available to cater to your queries. Not only that, but they are also rigorously

trained to certify the fact that the product reaches its destination on time and without an issue. With the quality services that we have been providing to our customers, it comes to us as no surprise that our clientele includes a multitude of companies that are spread across diverse industries.

Synol Fuel (10ppm diesel) meets all requirements of the Emirates Conformity Assessment System (ECAS) based on compliance of Emirates Authority for Standards & Metrology (ESMA) UAE.S 477 :2013 diesel (Gas Oil) specifications.

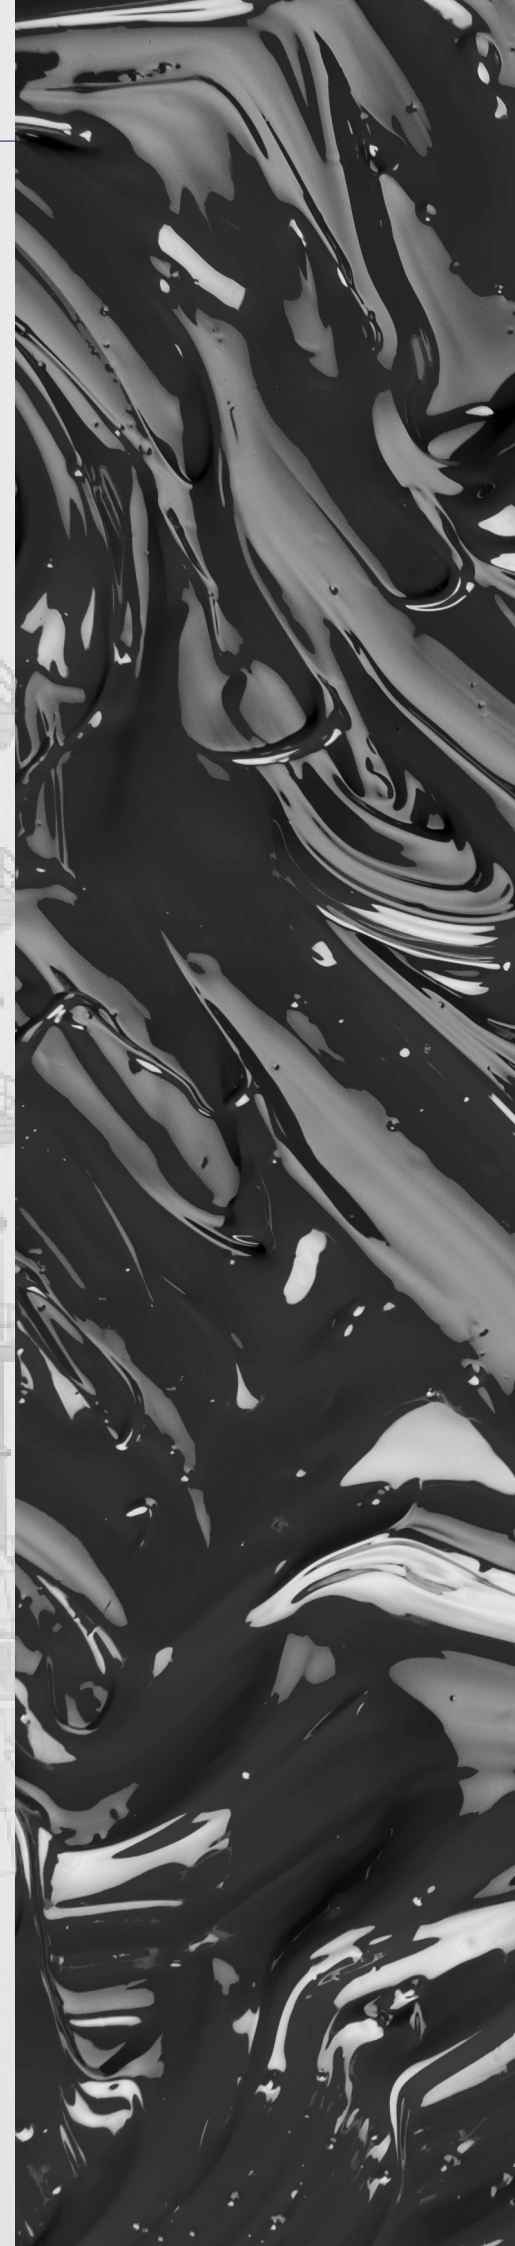

Base Oil

We are home to distributing industrial lubricants and greases of all kinds. We take great pride in distributing to our prevalent, industrial clientele, 24 hours a day - 7 days a week. Being a renowned lubricant distributor, Synol transports lubrication products like Base Oils at the most competitive prices.

Fuel Oil

Being one of the most prevalent petroleum distributors across the region, Synol takes great pride in meeting substantial market demands. We offer the premium quality of Furnace Oil available in the market. Our Furnace Oil is readily

used for various industrial processes like combustion and burning of industrial materials. We procure premium Furnace Oil from trusted allies to ensure optimal quality and compliance with the industrial criteria.

WHY CHOOSE US?

Specialized Experience

Synol Fuel Distribution LLC is a specialized firm that has a diverse experience in fuel distribution, trading, bunkering, etc. that has satisfied a wide array of clients over the globe. We have perfected the art of distribution and service that exceeds client expectations and helps the company provide tailor made solutions that suits individual client requirements. No other company offers the customizability that Synol offers to its clients.

Strong Value Chain

For any company in distribution and trade, a strong value chain presence is paramount that Synol has under its belt. From procurement to transportation to delivery, you name it, we do it, and we do it with perfection. Synol leaves no stone unturned when it comes to perfect the value chain to meet efficiency, timeliness and high quality of service that satisfies clients like no other company does.

Skilled and Dedicated Team

The backbone of any successful corporation are its employees and workforce, the more dedicated and skilled they are, the more desirable results they deliver. Synol has excellence in HR as our cornerstone, where we hire only the most skilled, experienced and dedicated individuals to perform a diverse set of tasks with one common goal in mind that is to make the company an illustrious name in fuel distribution.

Global Clientele

For any company, the presence of a global clientele is a testimonial to its success and reliability. Synol has clients all over Africa, the Mediterranean as well as Asia Pacific that do not just see us as a service provider but as a business partner that remains instrumental in providing the much-needed impetus toward success and fulfillment.

Technology Integration

Last but not the least, technology in fuel distribution and other functionalities is what makes Synol a strong contender in our market segment. We have a strong focus on integrating latest in fuel distribution and digital technology that helps us stand out in the competition and deliver the most efficient and result-oriented solutions to our clients all over the globe.

Certifications and Accreditations

At Synol, we are duly certified and accredited by illustrious bodies around the world such as UKAS and ESMA. The United Kingdom Accreditation Service (UKAS) is the sole national accreditation body recognized by the British government to assess the competence of organizations that provide certification, testing, inspection, and calibration services. Similarly, ESMA is

a Federal UAE Authority, established by UAE Federal Law (28), 2001. As the only reference in the UAE in terms of quality standards, ESMA's strategy aims at supporting the national economy by establishing a new era of excellence and quality. These certifications are a testament to Synol's high quality of service, unmatched business capabilities and reliability.
