Services

Civil Contracting

Sparklean contracting is the first call for many of the world's leading resource corporations when seeking open-cut mining and civil construction contracting services in Dubai. The company specializes in both civil construction contracting and contract mining (open cut) delivering a broad range of construction, earthmoving, and equipment hire services throughout the United Arab Emirates. Key reasons alliance contracting should be your first choice for civil construction and United Arab Emirates mining jobs, open-cut mining and civil construction services drilling and blasting, and bulk earthworks. Our position and strength enable the company to provide additional value to our clients and opportunities for our employees. We committed to continuous improvement of the quality of the service provided to customers by complying with contract specifications and customers' requirements, the ultimate objective of our team is to satisfy both customers and consultants is not only to complete projects on time and within budget but also with achieving very high quality for all activities. We are dedicated to elevating the standard for safety in the construction industry through a wide variety of methods, we also provide our employees and sub-contractors with the tools, knowledge, and resources they need to increase safety, reduce risk and improve loss control

on every project. Our mission is to Commit ourselves to construct with adopting right technology, ensuring high quality and adhering to safety standards in all our jobs, and to establish reliability and certainty of in time completion on us among all our esteemed customers

MEP Solutions

Our firm providing end to end solutions for Mechanical, Electrical & Plumbing works MEP Solutions designs and manufactures a range of mechanical and electrical modules which support mechanical services pipework, fire protection pipework, drainage pipework, ventilation ductwork, and electrical containment services for the building services and construction industries. The modules are engineered from fully coordinated drawings by our team of engineers and produced and tested under factory-controlled conditions using the latest systems and materials. The modules are then delivered to the construction site using purpose-built transport stillages which significantly reduces logistics and traditional on-site build time. We promise to meet the changing needs of our customers by providing products and services to the highest possible standards to meet and exceed the customer's expectations. We utilize a stringent quality control and inspection procedure to ensure all joints are sound. The mechanical pipework is tested to ensure no leaks are found at factory-made joints. We commit to conducting our business in a way that ensures the protection of our employees, customers, suppliers, contractors, and other stakeholders.

Services

Facility Management

The facilities we manage on behalf of our clients are ultimately about the people that use them. From offices and residences to schools, hospitals, and airports, we ensure that vital equipment and infrastructure operates safely, efficiently, and reliably. Our mission is to deliver excellence in total facilities management services focusing on sustainable best practices while being led by innovative technology, which satisfies the needs and exceeds the expectations of our customers, business partners, and other stakeholders. Our focus is on delivering solutions and services 'with a soul', as part of a company helping to create a better world by making built environments better for the people who live and work in them. We can achieve this by pulling together in the same direction and keeping sight of the constantly changing needs of our customers. We are bold, active, and intelligent, living in the present with optimism and building for the future with creativity. We have the confidence to explore new ideas and develop mound-breaking services and solutions. By making good connections with colleagues, we generate a strong spirit of teamwork, exchanging knowledge and skills so we can unite towards sustainable progress and development. We are always there for each other, working together

as one team. We have a culture of openness that runs through all our organizations. This transparency combined with our passion for excellence gives us the power to deliver superior products and services to our customers.
