

Great designs choose from  
**VeLaFee**  
curtains & blinds

## Introduction

Velafée is one of the biggest companies in Italy, which produces and sells high quality sun protection and shading solutions for home and business. We are over 15 years old company based on Bergamo Italy, and from 2019 branch based in Dubai uae. That has made its mission to revolutionize the shopping experience for tailor- made roller blinds, pleated blinds, and great collection of fabrics for indoor and outdoor and venetian blinds

We specialize in making unique blinds and curtains. Our team of designers has worked with a variety of clients all of whom were highly impressed by the bespoke designs and the professionalism of our staff. Our staff work as a team from start to finish, ensuring that we meet your expectations in terms of designs and timeliness. Apart from making curtains and blinds, we also provide various soft furnishing services such as sofa, headboard re-upholstery and bedspread supply

### PROJECTS

OUR PARTNERS

OUR CLIENTS

## Internal Shades

We design and manufacture every major style of blinds which include Roller Blinds, Venetian Blinds, Wooden Blinds, Venetian Blinds, Vertical Blinds, Roman Blinds, and Zebra Blinds. These are available in both motorised and manual versions.

Over the years we have seen a rising demand for blinds not only for commercial purposes but for residential use as well. With beautiful designs, quality fabric and reliable technologies, our products elevate every interior and serve to enhance your comfort.

## Roller Blinds

One of the most preferred blinds for both commercial and residential spaces. Our manufacturing process does not involve the use of adhesives or sewing to produce clean and professionally finished blinds.

## Venetian Blinds

Window blinds made from horizontal slats were developed as we know them in 1794. They received the name venetian blinds because they originally came from Venice, Italy. These venetian blinds replaced or were used instead of fabric curtains or shutters

Natural Harmony

## Wooden Blinds

Wooden blinds feature a number of horizontal slats that are linked together by a cord pulley system. ...  
When lowered and rotated, wooden blinds obscure the views from outside and block all sunlight.  
Wooden blinds can also be arranged in various positions, depending on the amount of privacy and natural light you require

## Vertical Blinds

Vertical blinds are vertical lengths of fabric that are clipped to a sliding track at the top and operated with a plastic wand or chain. ... While the construction of these blinds seems straightforward, they're designed to allow ultimate control over privacy and light in any environment

Beautiful Windows

## Roman Blinds

Roman blinds are a classic choice while choosing the blinds. These blinds are best known for their properties of acting as a blind and curtain

Roman shades do not usually come in different sizes and shapes, so you need to customize them to fit your window openings.

## Zebra Roller Blinds

Beautifully diffused light and the room darkening effect keep your private space protected. With various colours and sizes, our sheer Zebra shades are the perfect choice for your living room, bedroom, and study.

Modern Elegance

## Curtains

Like all aspects of interior design, the curtains play their part in the overall aesthetics of a given room and the underlying composition of your home in general.

**VELAFEE** curtains are tailor-made and available in manual and motorised options for various projects such as hotels, hospitals, corporate, and residential. The curtains have extruded aluminium tracks and unique featured fabrics of high quality.

# Cubicle Curtains

Antibacterial Cubical Curtains, or privacy curtains, are ideal for hospital patient rooms, clinics, nursing homes, educational and other facility environments.

## Smart Solutions

Unique solutions, blending technology, innovation, quality, and design. Automation and control systems for awnings, blinds, curtains and skylight now with integrated management through smart intuitive interfaces: practical, functional and elegant solutions for the ideal way to live in every space.

Architects, Designers and Engineers find their ideal partner in **VELAFEE**, always ready to provide complete support during project design, installation and implementation.

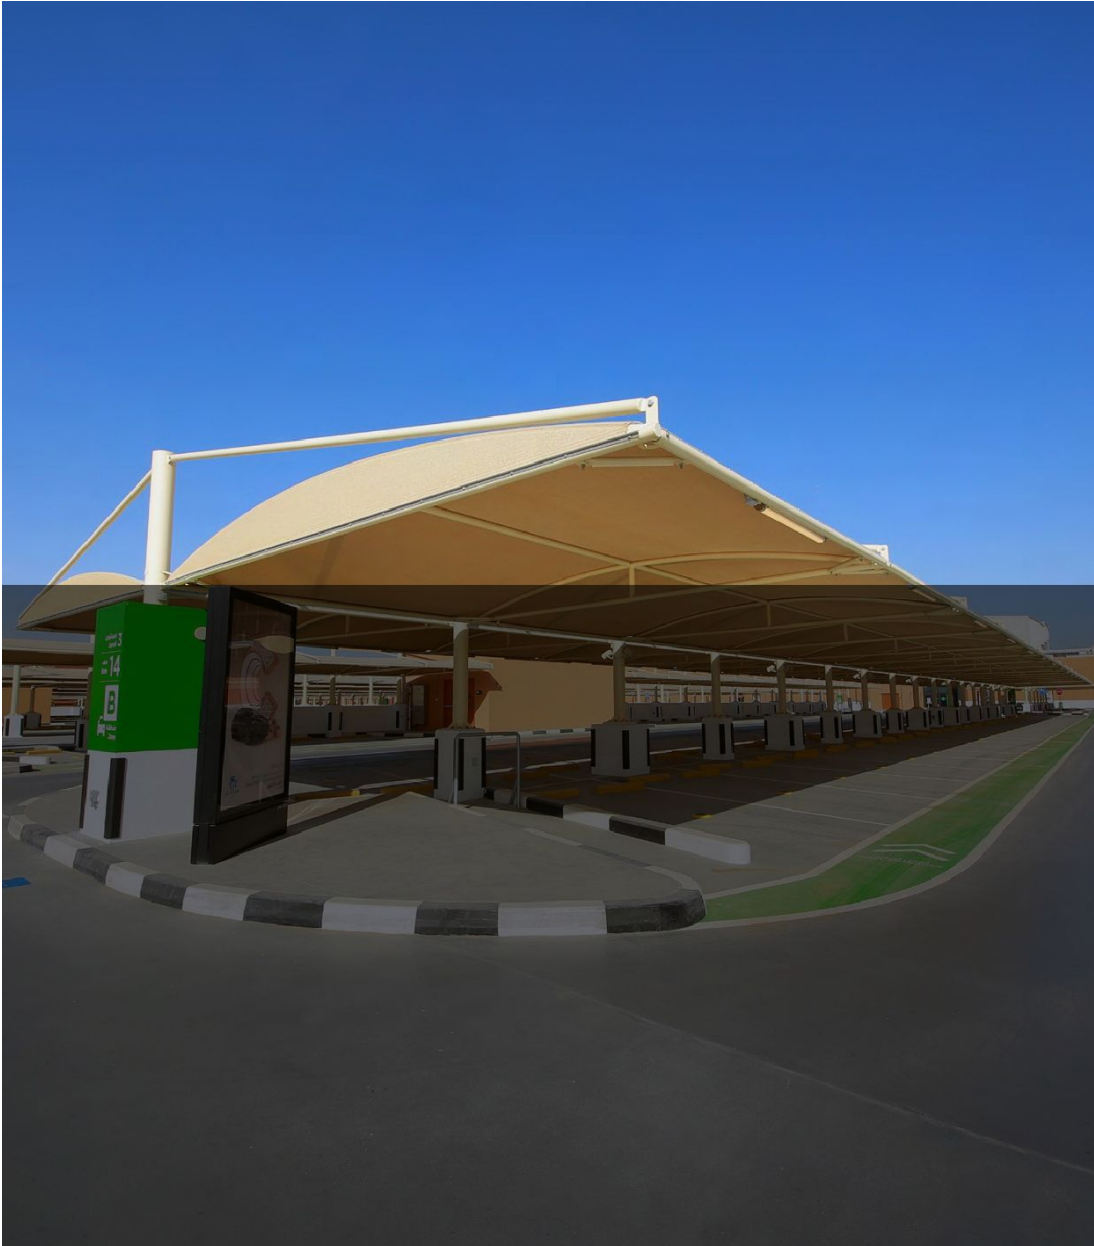

## External Shades

VELAFEE have a wide variety of shade solutions that have been designed to protect from the elements, utilizing the versatile medium of structural fabrics. Our diverse range provides not just an aesthetically pleasing product but also safety and functionality. With our expertise in planning, design, engineering,

With our latest structural and finite element analysis software, specialized high-quality fabrics and hardware, modern patenting systems and outstanding staff, we deliver high-end, bespoke shading solutions. Our products are architecturally designed, technologically advanced, simple to use, and entirely authentic with international certifications of quality.

Our works include commercial and residential applications such as schools, playgrounds, swimming pools, sporting venues, shop facades, shopping centres, car parking, clubs, hotels, walkways, villas, patios, etc. We lead the way by constantly researching and developing to suit our clients' needs and design.

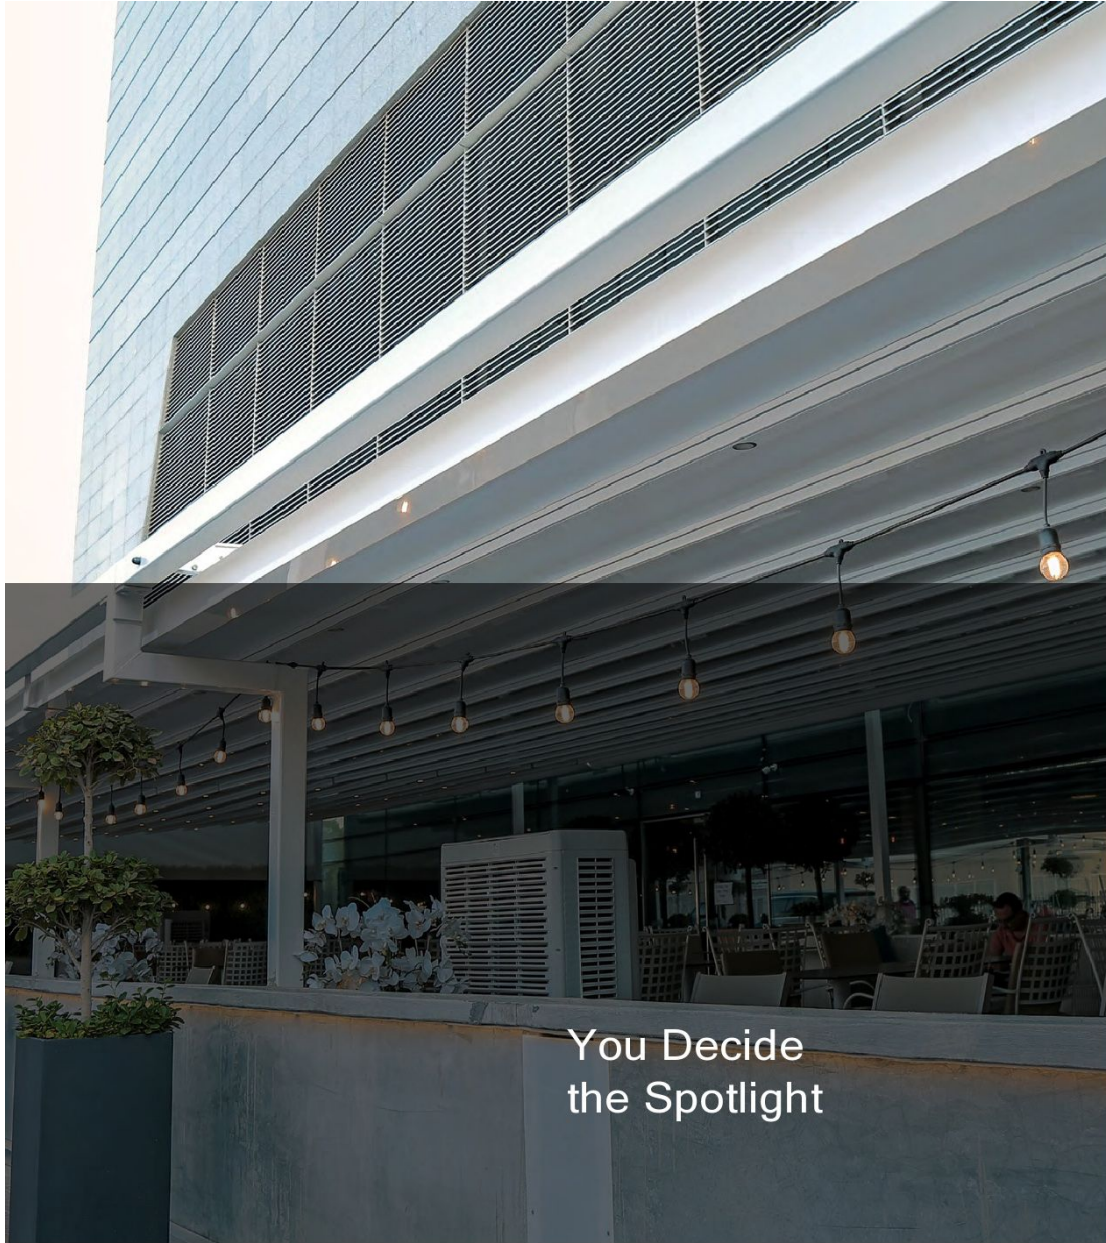

## Car Parking Shades

**VeLaFee** provide complete solutions of fixed shades for residential and commercial places and are known for quality and high durability. Our car parking shades come in different shapes, sizes and colours. They are made of materials that are long-lasting and can withstand all types of weather and these protect cars from sun, rain, hail, snow, and wind.

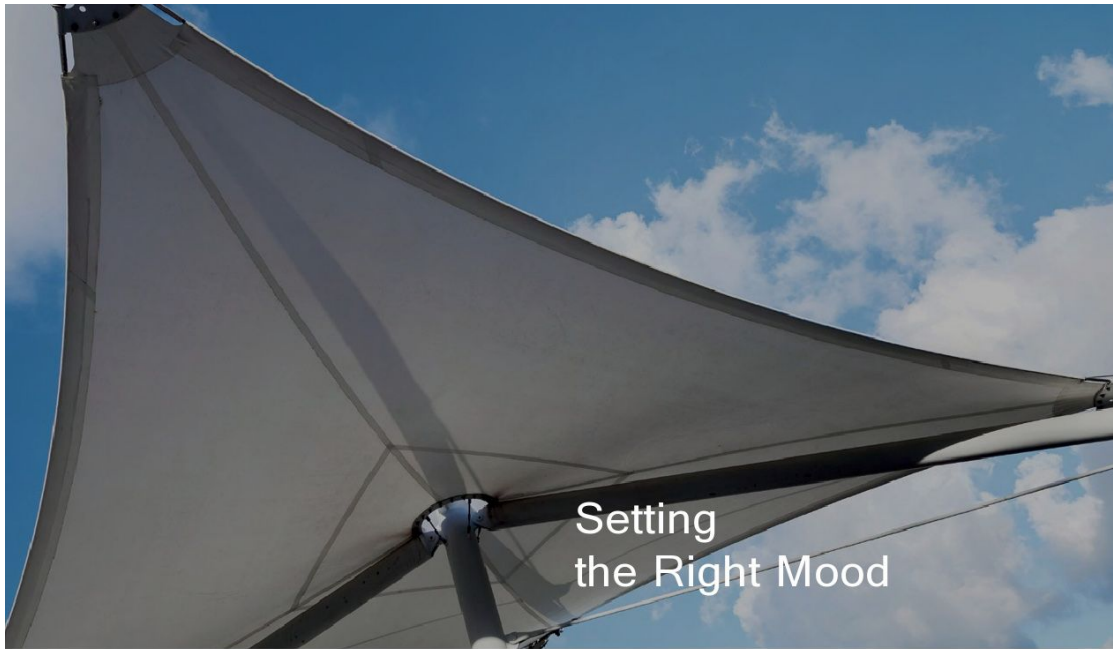

You Decide  
the Spotlight

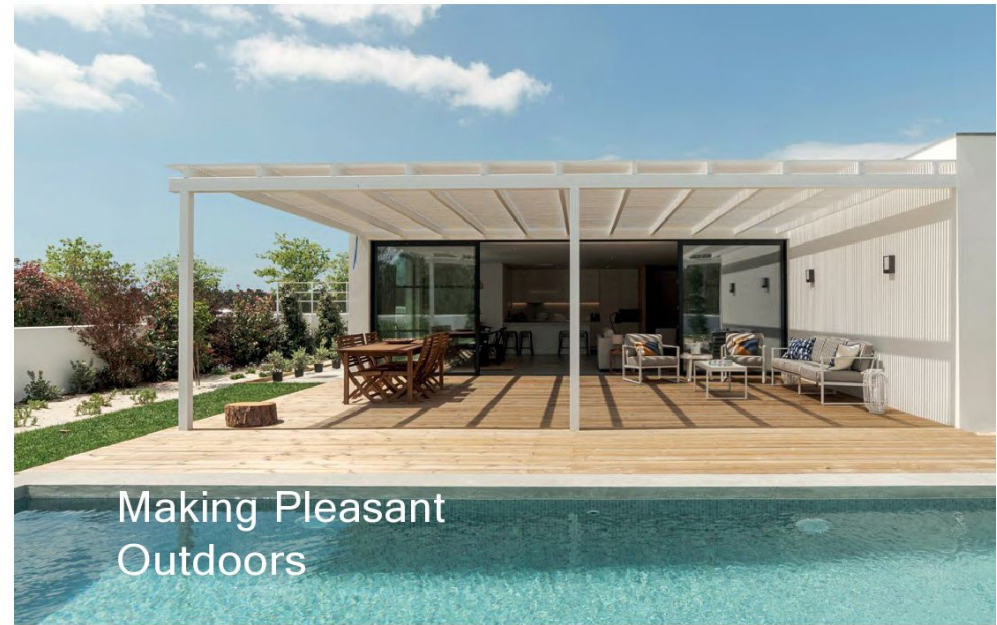

## Retractable Shades

Retractable shade is the ideal structure for terraces, patios and gardens and can shade the leisure areas of hotels, resorts, cafes and restaurants  
Motorized retractable shades eliminate the need to operate shades manually.  
Consumers can choose from an interior wall mount switch or a portable remote control

Setting  
the Right Mood

Making Pleasant  
Outdoors

## Sail Shades

Our sail shades are authentic tensioned fabric structures that are both functionally practical and aesthetically attractive. They can be installed vertically or horizontally for shade. Using 2 or more different colour sails is very popular. We provide sail shade structures at the playground, residential backyards, municipal facilities and commercial properties outdoor meeting areas and communities.

## Bioclimatic Pergolas

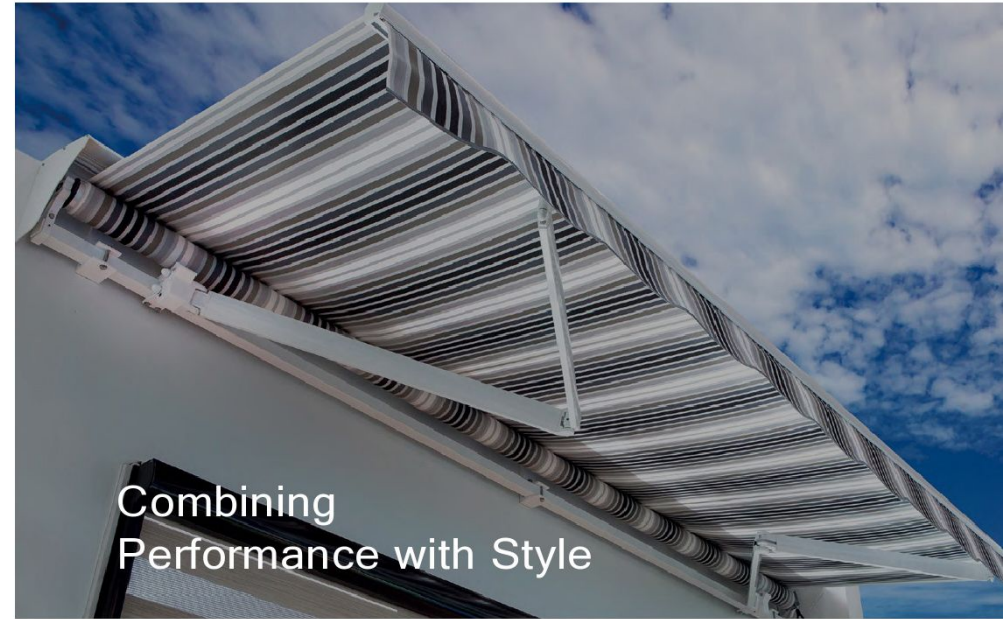

Bioclimatic pergolas structure with Louvre blades roof: a perimeter gutter profile allows blade rotation and drainage of water. The system is moved by linear motors. Wind resistance is guaranteed up to class 6 as per UNI PR EN13561.

Creating the Perfect  
Ambiance

Combining  
Performance with Style

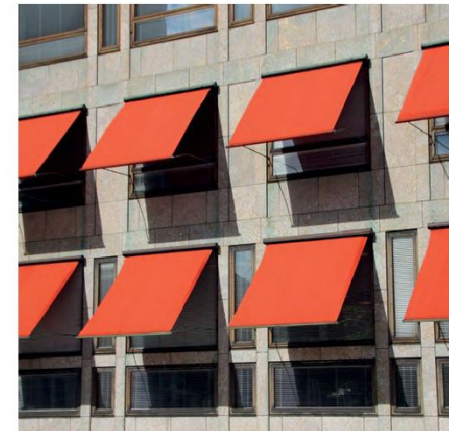

## Tensile Shade Structures

Our tensile shades are authentic tensioned fabric membrane structures, shade sails with PVC and HDPE fabrics, that are both functionally practical and aesthetically attractive. Our ready-to-install range of weatherproof or waterproof shade sails and tensile fabric structures provide a wide variety of outdoor shelter and shade solutions for schools, colleges, hotels, playground, residential backyards, and other commercial and residential applications. All of our structures are highly engineered and expertly crafted to provide years of outdoor protection from the elements.

## Awnings

Awnings are a popular shading solution in the UAE. We supply a range of Retractable Awnings for gardens and terraces. All our awnings can be operated manually, or supplied with a motor for the ease of use. We also offer a choice of different colours, sizes, and projection depending on the requirement.

Installing  
Relaxation

Creating Ease

## Outdoor Furniture

We are the producers of high-end furniture for hospitality, with a presence in Europe, Asia and the Middle East. Our main clients are upscale hotel operators, developers, procurement companies, as well as top architects and interior designers. We select only the top quality and highest grades of raw materials, like A-grade hardwood, A-grade powder-coated aluminium, fabrics from the best global producers etc.

## Umbrellas

Our umbrella structure creates cool and dry ground coverage up to large areas. It is with permanent onsite installation with cast-in underground footing. Its major features are that it can be kept unfolded and tensioned all year-round since it is capable of withstanding extremely high wind velocities at all times.
