DASCO International LLC is a multifarious organization accorded with a title for firm stance and unrivalled mastery endowed with a voice of Manufacturing & Engineering in the Middle East.

We are bestowed on Transport & Logistics, Manufacturing & Engineering, Construction, Oil & Gas, Aviation, Fire & Safety, Petro-Chemical Industries, Mechanical Engineering, Industrial Engineering, etc. for our miscellaneous and multitudinous products that we design and supply.

DASCO has ample elements to perform innovation enabled by transformation to provide legion products like *ABOVE GROUNDED FUEL TANKS UL-142, UNDER GROUND FUEL TANKS UL-58, LUBE OIL TANKS, AVIATION FUEL TANKS, PETROL STORAGE TANKS, FIRE WATER STORAGE TANKS, STAINLESS STEEL CHEMICAL TANKS, BREAK TANKS, ISO TANKS AND SKID MOUNTED STORAGE TANKS* that sheds light on high quality, productivity and sustainability.

We are obliged to 'bringing a raw impulse' in the market owing to DASCO's mastered craftsmanship ergo dubbed as the 'voice of exporting & importing and distribution of manufacturing & engineering allied equipment' over GCC.

FUEL STORAGE SYSTEMS

❖ ABOVE GROUND FUEL TANKS UL-142

DASCO furnishes Carbon steel, Stainless steel Fuel Tanks with either single wall or double wall in accordance with the necessity of the customer, based on whether the liquid fuel is “combustible” or “flammable” as assessed by the Fuel flash Point. It can be vertical or horizontal else square tanks and it ranges in size and complexity. All tanks are manufactured in compliance with ASME VIII. Div. 1 and additional special certifications like UL-142 can be carried out against customer’s demand.

❖ UNDER GROUND FUEL TANKS UL-58

Underwriter Laboratories (UL) - 58 covers Single wall or double wall and carbon steel tanks provided with greater structural strength and product compatibility. We have designed them to withstand the complications of the underground environs and they are used for storage application of Petroleum products or other dangerous liquids. These tanks are mainly used for Fire-fighting systems, Irrigation systems, Service stations, fuel stations, storage of Aircraft and ship fuels, etc. with the help of leakage monitoring systems.

❖ LUBE OIL TANKS

We have a solution for Lube oil storage issues with the efficient and structured Lube Oil Tanks for both commercial and domestic applications. As we give prior importance to quality, productivity and sustainability, DASCO has developed advanced processing tanks and oil storage tanks for the better ecological balance. Our Lube Oil tanks are economical with high grade and competitive design.

❖ AVIATION FUEL TANKS

DASCO International supplies safe, dependable and innovative fuel storage option with the advent of aviation fuel tanks. Though each tank has been made with keen attention into detail, when it comes to the case of Aviation Fuel Tanks, we cannot take the chances. Each tank has been made out of finding advanced solutions to the customer requirements and it plays a vital role in the storage of Aviation Fuel Tanks.

❖ PETROL STORAGE TANKS

We have a wide variety of Petrol storage tanks that are efficient and reliable in the industry according to the application. Though Petrol is a combustible substance and it has fatal power, DASCO takes the risk of supplying Storage Tanks in keeping with the customer requisites with utmost care and importance. Manufacturing and distribution of Petroleum products' storage options may require diverse types and sizes of tanks. But DASCO covers your needs by getting right option of storage tanks for Petrochemical industry.

❖ FIRE WATER STORAGE TANKS

Our expertise represents the answer to the risks encounter at safety measures, to put out some fatal fire needs a master plan to act simultaneously. We cover the deadly situation with the help of our masterwork- Fire water storage tanks and ensures the safety of its application in good order.

❖ STAINLESS STEEL CHEMICAL TANKS

DASCO's stainless steel chemical tanks are engineered to meet the customer demand according to the industries. These tanks are made out of keen attention to withstand high pressure, temperature variations and other oxidizing contents. We stood out in quality and assurance for these specially equipped tanks in the chemical industry.

❖ BREAK TANKS

At fire protection application, our manifold range of Break Tanks are capable of providing protection even at domestic and irrigation application. Break tanks are non- pressurized, closed water tanks used commercially to interrupt the back flow of dirty water into the system. They are space saving water storage options featuring in DASCO.

❖ ISO TANKS

ISO tank containers are made of stainless steel and has multi- levels of protective layers. It has a manhole on the top with at least one valve and another valve at the bottom level. DASCO's ISO tanks are capable of carrying different types of liquids including acids. They are cylindrical in shape and proposed for reliable, cost-effective and much safer way of transportation.

❖ SKID MOUNTED STORAGE TANKS

We are able to manufacture and design skid mounted storage tanks to comply with the standards. They are effortless to transport from one place to another. The skids are designed to endure the load of the tank with fuel and guarantee safety on a strong base. Our manifold range includes Acid/ Water storage tank which is skid mounted.
