Who we are ?

M/s. G&G International Trading LLC has the most flexible manufacturing facilities producing diversified stainless steel products in the steel fabrication facilities in 6th Industrial, Sharjah, UAE with sales outlets in Dubai, Ajman and Ras Al Khaimah. We have a total production area of 12,000 Sq. ft. We have a strong core of highly skilled management, technical, and sales people who have contributed to the consistent quality and reliability that we offer to our valued customers over the past years.

Our company maintains a high quality in fabrication of steel products, precision CNC machining, sheet working and moulding jobs. We follow quality control procedures to maintain our quality standards and to ensure the job has been completed according to the client specifications. We also provide with any kind of certification and approvals as requested by our clients.

We believe quality and time are the life line of any business and does not come accidentally, it required preistent efforts, willingness to change, a will to succeed and above all a positive attitude towards achieving it. The key to our sucecess has undoubtedly been our team work. We have successfully completed several projects to the utter satisfaction of our clients, right across the U.A.E.
