Partners in Movement Solutions

About Us

New Tech Factories Equipment Trading is professional company

which looks to provide different kinds of products to the customers with the best quality and best service along with a very competitive price you can ever get.

We provide the best technical solutions and support to all customers by a high qualified Mastering team.

Our commitment to quality , innovation and to utilize the most advanced technologies in order to provide best of the breed.

We specialize in the fabrication and distribution of conveyor belting and industrial conveyor products.

We offer innovative products and solutions for demanding requirements in various industries.

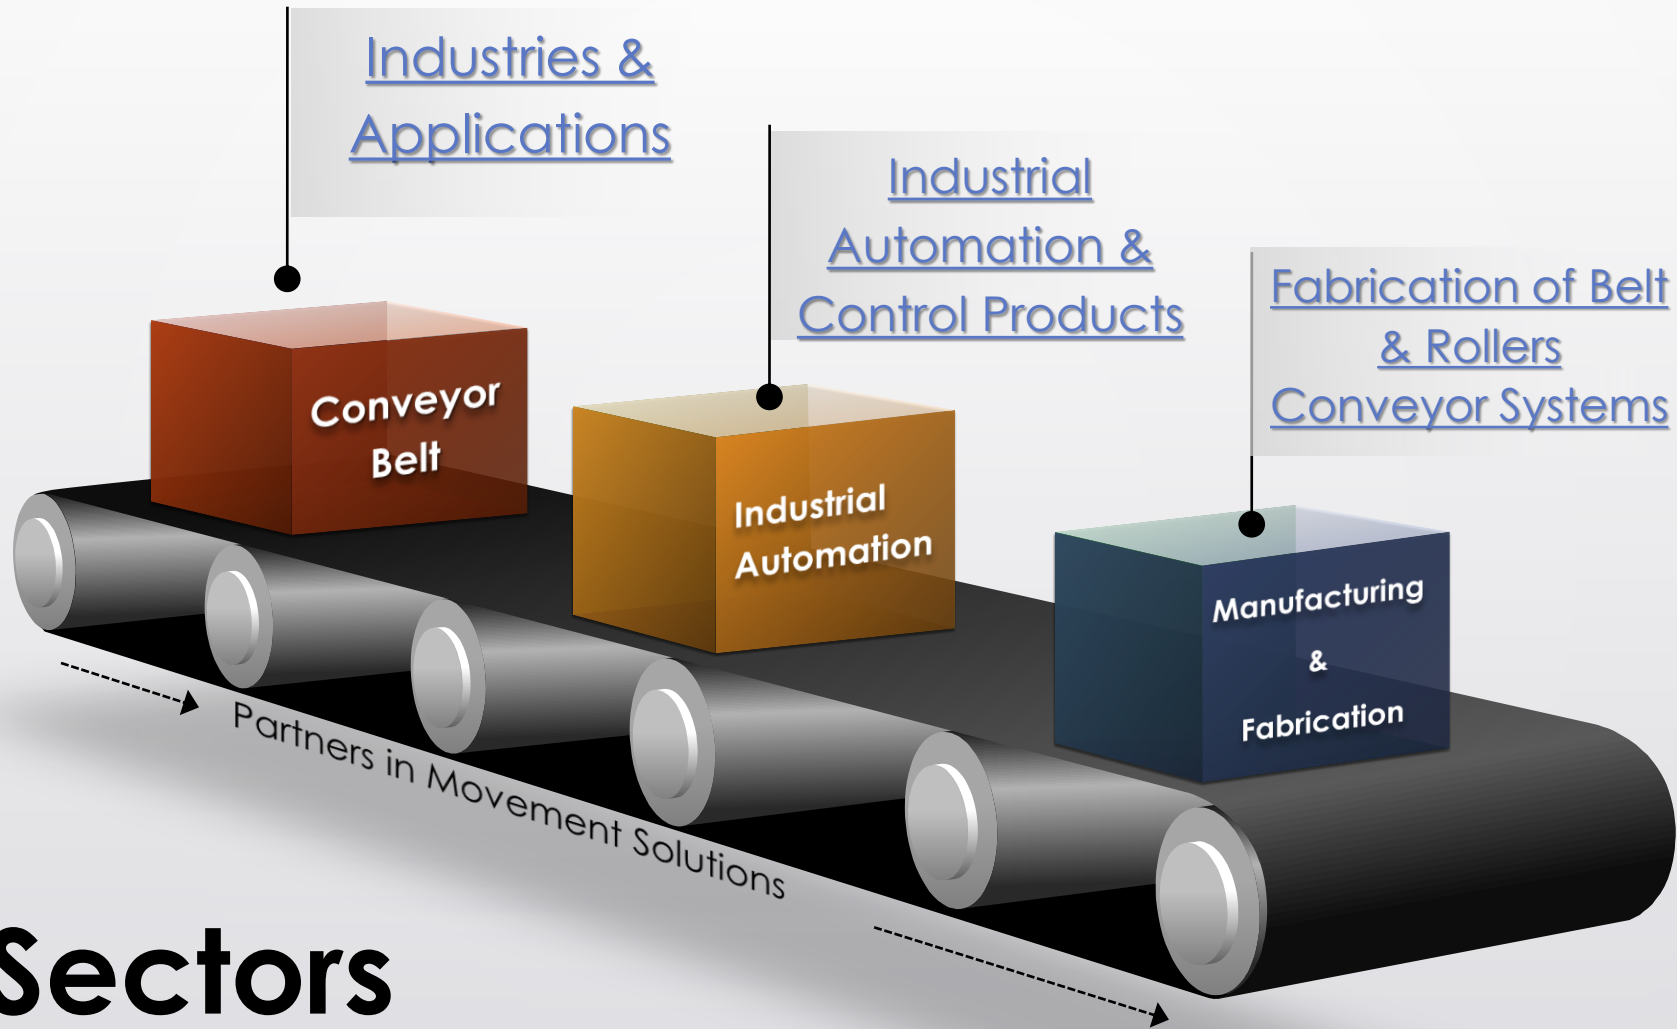

Mission Statement

Value Proposition

- We proudly bring together custom belting solutions with unparalleled expertise, creating a true partnership with our customers and our global supply base.
- To serve our customers with Honesty and integrity as per international code of conduct and ethics standards.
- To be recognized by customers as their most preferred business partner by providing them with the best of solutions and service.
- To be the preferred industrial automation solutions provider with our existing and potential customers and markets by delivering optimal solutions and maintain pre-sale and after-sale customer support and customer satisfaction as per the standards and requirements set by the company aiming to annually increase our market niche in the GCC region.
- Through our commitment and dedication to superior service, product expertise and continuous improvement, we provide conveying solutions that drive efficiencies and streamline operations.

Brand Promise

- We provide belting and automotive solutions customized for each application to maximize uptime across your conveying operation, allowing you to focus on other key areas of your business.

Our Sectors

Conveyor Belt

New Tech Factories Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts

All our food straps are provided with necessary and internationally recognized certificates and meet the highest hygienic standards.

Conveyor belts are available with different surface structures for the various fields of application and are assembled according to customer requirements with corresponding profiles

Our food belts, tailor-made for this industry, are the result of close co-operation with manufacturers of machinery and food producers.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor belts.

Industries & Applications

- [Conveyor accessories](#)

And many more

Conveyor Belt

Food and Bakery Industry & Chocolate ,Confectionery

In the bakery industry, dough sheeters are used to make croissants for example and roll out the dough to the thickness required. And the sheeters are often still fitted with felt or cotton belts. The belts neither comply with statutory EU and FDA standards, nor with hygiene standards in companies.

Ideal release properties, combined with FDA compliance, make this belt the perfect solution for dough conveying and dough processing machinery. The Z-splice is virtually invisible, so even the splices in endless belts guarantee good release properties too.

Confectionery production needs vary from one product to the next. For example, sweets and dough-based product may have characteristics that require very different release properties.

About the only thing they have in common, besides cleanability, is the need for resistance to oils and fats.

We stock polyurethane covered belts, modular belts and profile covered belts to keep products moving from extrusion and cutting through cooling and packaging.

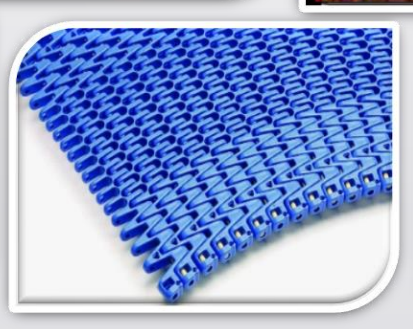

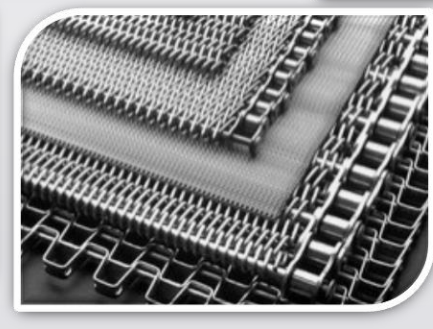

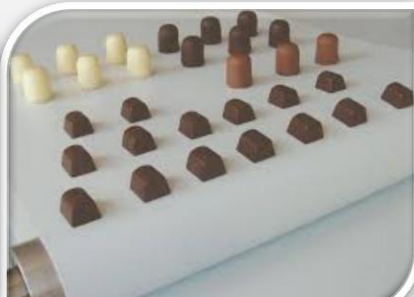

We offer:

- Fabric and modular belting design and fabrication
- High release belt covers for sugar, caramel and chocolate
- Vacuum punching, v-guiding and cleats.
- Conveyor chain (often called "tabletop chain") and chocolate
- Finger splice, skive splice, step splice and mechanical belt fastening
- 24/7 Breakdown services and field installation
- Teflon and silicone open-mesh belting for heat seal belt fastening and drying applications

Conveyor Belt

Food and Bakery Industry & Chocolate ,Confectionery

Conveyor Belt

These food processing equipment suppliers supply a range of Conveyor Belts & Paper Processing Belts. They can be used in processing with materials such as plastic, recycled cardboard and most of the lightest food materials.

Conveyor Belts are available with different surface textures like the smooth drive or open-top one and are available with many different equipment with corresponding guides.

Let us know your requirements for the industry and we will be happy to assist you with the most suitable and reliable equipment for your needs.

We are always ready to assist you with the most suitable and reliable equipment for your needs.

- Available in different materials:**
- Smooth drive belts
 - Open-top belts
 - Paper processing belts
 - Conveying belts
 - Clean room belts
 - Food grade belts
 - Heavy duty belts
 - High speed belts
 - Low speed belts
 - High temperature belts
 - Low temperature belts
 - High speed belts
 - Low speed belts

For more information, please contact us at info@conveyorbelts.com

Conveyor Belt

Beverage Industry

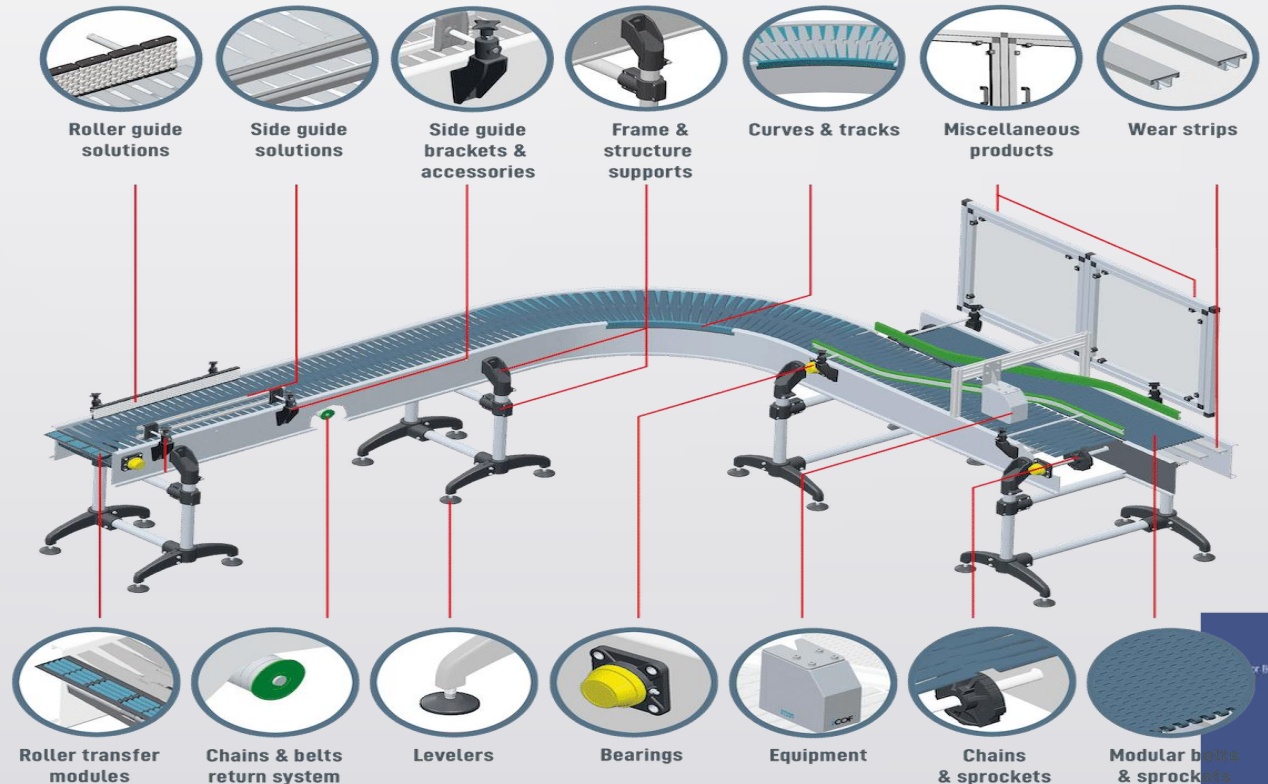

Our range of products are FDA/EC-approved, complied with HACCP requirements.

We offer a range of hygiene standards

Range of Products:

- Modular belts
- Plastic chain

Provides all types of Conveyor accessories side support brackets , curve tracks, music rails water-proof bearings and many other conveyor belt accessories by reputed European brands .

Our main products include:

- Conveyors
- Roller guides
- Side guides
- Side guide brackets
- Frame & structure supports
- Curves & tracks
- Miscellaneous products
- Wear strips
- Roller transfer modules
- Chains & belts return system
- Levelers
- Bearings
- Equipment
- Chains & sprockets
- Modular belts & sprockets

Conveyor Belt

Conveyor Belt

Wire Belt

Manufacturer of stainless-steel conveyor belts for product handling and processing.

We offer many styles, and specifications, of open mesh conveyor belt to suit any application

Wire Belt has the product to offer improved efficiency in conveying, cooking, cooling, covering, drainage, heating and drying applications.

Experts in Product Movement

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts. All our food traps are provided with necessary and internationally recognised certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface finishes for the various levels of application and are assembled according to customer requirements with corresponding profiles.

Our food belts, tailor made for this industry, are the result of close co-operation with manufacturers of machinery and food products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor belts.

Industries & Applications

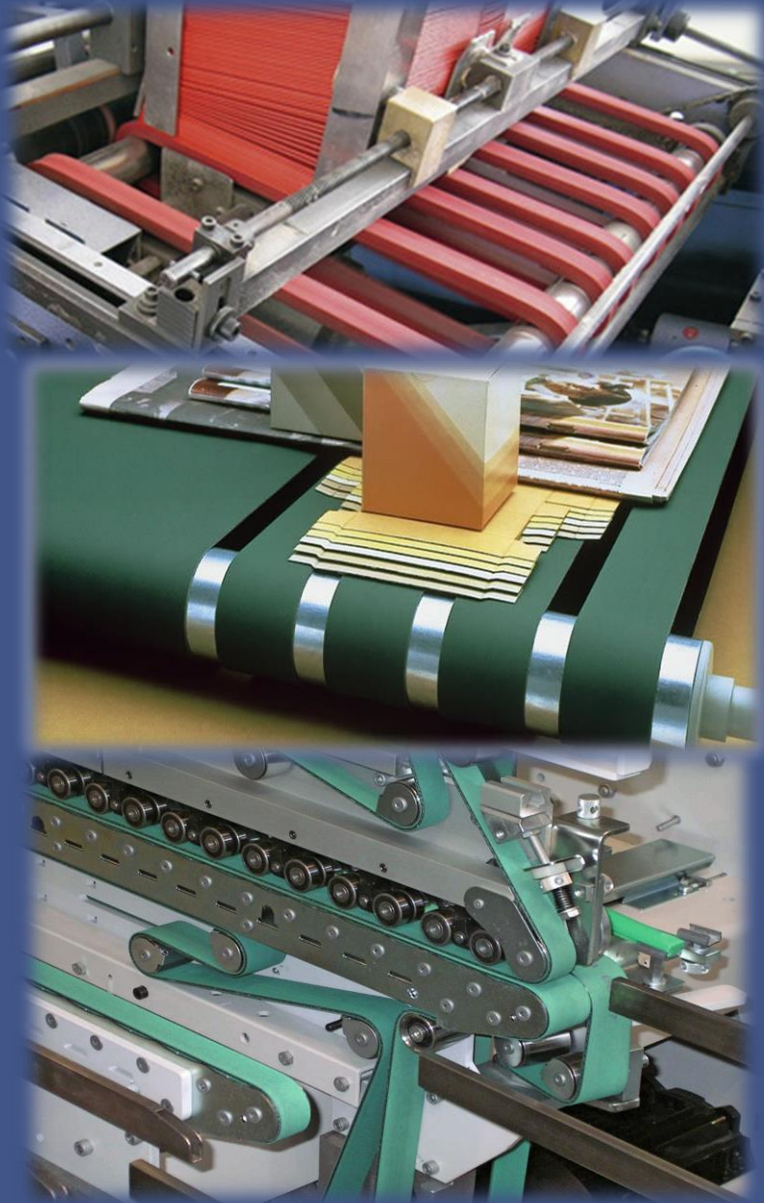

- Food and Beverage Industry & Confectionery Confectionery
- Beverage Industry
- Wine and
- Textile and Paper Industry
- Meat and Logistics Industry
- Chemical Industry
- Ceramic Industry
- Industrial Power Separation Belts
- Tobacco Industry
- Textile Industry
- Pharmaceutical Industry
- Conveyors accessories

And many more ...

Our Belts

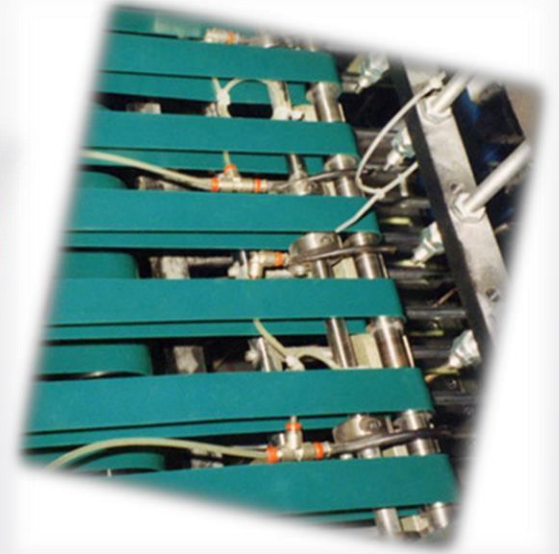

Conveyor Belt

Printing and Paper Industry

We offer product and services for all types of application, our product ranges for the printing and packaging includes.

- Driving and converting belts
- Folder gluer belts
- Seamless grabber and feeder belts

Process/Application

Cross cutter/ sheet folding machine

Gatherer/binder

Gluing and binding line-Envelope machine

Newspaper production

Liquid and solid packaging

Cardboard manufacturing

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts. All our Stock items are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be selected according to customer requirements with corresponding rollers.

Our local Belts, tailored for the industry, are the result of close co-operation with manufacturers of machinery and final products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor Belts.

Industries & Applications

- Food and Beverage Industry & Chemicals / Laboratories
- Beverage Industry
- Wine, Beer
- Printing and Paper Industry
- Aircraft and Airfield Industry
- Cement Industry
- Car Wash Industry
- Textile and Garment Industry
- Chemical Industry
- Medical Industry
- Pharmaceutical Industry
- Conveying Systems

And many more ...

Conveyor Belt

Airport and Logistics Industry

We offer a wide range of products which is suitable for any type application in airport sector.

Flame Retardant conveyor belts according to ISO 340 / DIN 22103 available

- Nonwoven conveyor and processing belts
- X-ray scanning
- checking-in & weighing
- Standard PVC conveyor belts
- High duty conveyor and processing belts
- Extra line conveyor and processing belts

Related products.

- Conveyor belts
- Low noise belt & Flame retardant belt
- Conveyor rollers
- Conveyor steel chains
- Slat top plastic chains
- Curved conveyors

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts. All our products are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be used according to customer requirements with corresponding rollers.

Our local staff, together with the products, are the result of close co-operation with manufacturers of machinery and final products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor belts.

Industries & Applications

- Food and Beverage Industry & Chemicals / Laboratories
- Textile Industry
- Printing and Paper Industry
- Aircraft and Airports Industry
- General Industry
- Car Wash Plants
- Industrial Conveyors / Transmission Belts
- Logistics Industry
- Health Industry
- Pharmaceutical Industry
- Customer Services

And many more ...

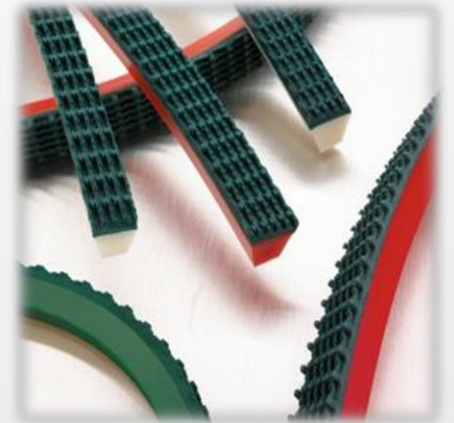

Conveyor Belt

Cement Industry & Ceramic Industry

We supply a wide range of cover grades enabling most existing standards to be met.

- General conveyor belts
- Power transmission
- Heat resistant conveyor belts
- Oil resistant conveyor belts
- Flame resistant belt
- Abrasion resistant belt
- Conveyor chains
- Lifting chains
- Transmission chains

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts. All our products are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be adapted according to customer requirements with corresponding systems.

Our local belts, tailor-made for the industry, are the result of close co-operation with manufacturers of machinery and final products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor belts.

Industries & Applications

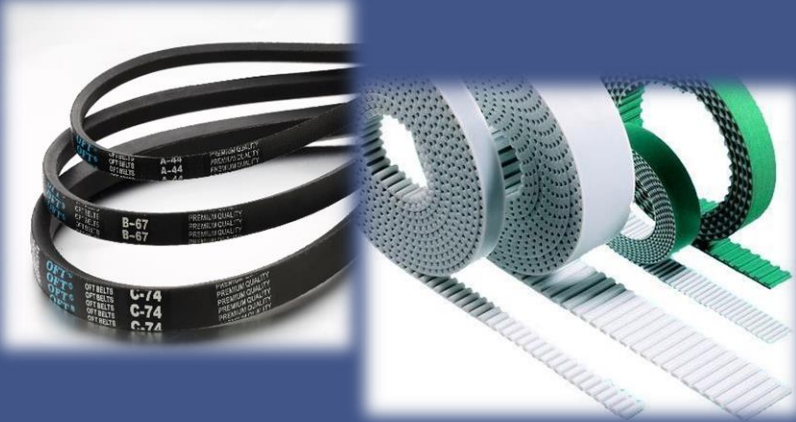

- Food and Beverage Industry & Chemicals / Laboratories
- Beverage Industry
- Textile Industry
- Printing and Paper Industry
- Aircraft and Airports Industry
- Car Industry
- Chemical Industry
- Industrial and Transmission Belts
- Machine Industry
- Metal Industry
- Mechanical Industry
- Conveying Systems

And many more ...

Our Services

Conveyor Belt

Industrial Power Transmission Belts (V-Belt , Timing Belt)

We offer a wide range of products which is suitable for any type application in automotive and industrial

belts.

Application:

- Cars
- Light Trucks
- Fans

The product range includes all common timing belt pitches for standard conveying and handling operations.

- T Pitch
- AT Pitch
- XL, L, H, XH-Pitch
- HTD Pitch
- Wide belts
- Power belt

We can offer you a variety of customized products that ensure smooth material flow • Transmission chains

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts.

All our products are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be adapted according to customer requirements with corresponding systems.

Our local belts, tailor-made for the industry, are the result of close co-operation with manufacturers of machinery and food products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor Belts.

Industries & Applications

- Beverage Industry
- Wine and Fruit Industry
- Fruit and Vegetable Industry
- Confectionery
- Confectionery Industry
- Industrial Power Transmission Belts
- Textile Industry
- Machine Industry
- Machine Industry
- Conveying Systems

And many more ...

Our Services

Conveyor Belt

Tobacco Industrial

The tobacco industry must meet approval standards which become stricter every year. So, to help the industry conform to FDA, EU and Pyrolysis regulations, our committed to supplying halogen and nitrogen-free tobacco belts. Our belts improve the process performance, lead to greater process reliability and increase throughput.

In addition, we offer solutions which incorporate a complete range of process and conveyor belts for green leaf, as well as for primary processing through to secondary manufacturing.

Tobacco industry product features:

- Highly resistant to chemicals
- Free of halogen, nitrogen and sculpture compound
- Low noise and easy to clean
- Less maintenance, guaranteeing long service life
- High and low friction or profiled surfaces

All in all, the experience and knowledge we've gained along with valuable support from all the major equipment manufacturers, has enabled us to develop one of the most concentrated product ranges for the tobacco industry.

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts. All our Belts are produced with necessary and rigorously enforced certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be adapted according to customer requirements with corresponding rollers.

Our Belts, tailored for the industry, are the result of close co-operation with manufacturers of machinery and food products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor Belts.

Industries & Applications

- Food and Beverage Industry & Chemicals / Laboratories
- Beverage Industry
- Textile and Paper Industry
- Aircraft and Airports Industry
- Car Industry
- Chemical Industry
- Industrial Power Transmission Belts
- Logistics Industry
- Healthcare
- Pharmaceutical Industry
- Conveying Systems

And many more ...

Our Services

Conveyor Belt

Textile Industrial

- In close cooperation with textile producers and manufacturers of the machinery, power transmission and conveyor belts for yarn and textile production.
- As a leading manufacturer, our products and services help make machinery and processes more flexible and productive worldwide.
- Advanced power transmission solutions to increase performance and quality with and flat belt.
- Flexible solutions conveyor and processing belts for efficient material flow from the bales to the packaging of cross wound bobbins.

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts.

All our products are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be delivered according to customer requirements with corresponding systems.

Our best belts, tailored to the industry, are the result of close co-operation with manufacturers of machinery and final products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor Belts.

Industries & Applications

- Food and Beverage Industry & Chemicals / Laboratories
- Beverage Industry
- Wine, Beer
- Printing and Paper Industry
- Aircraft and Airports Industry
- Car Industry
- Car Wash Industry
- Industrial Power Transmission Belts
- Logistics Industry
- Textile Industry
- Mechanical Industry
- Conveyors / Conveyors

And many more ...

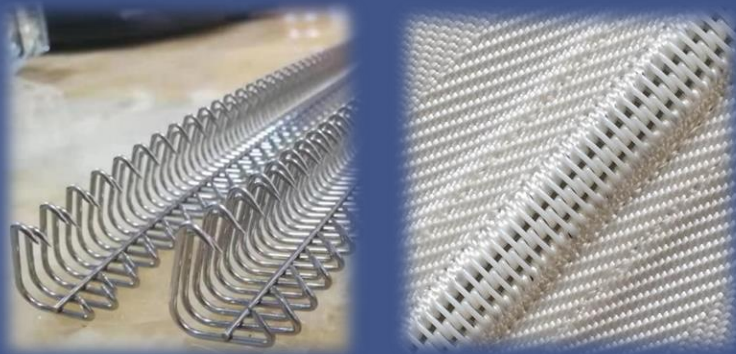

Our Services

Conveyor Belt

Mechanical Fasteners

- Mechanical Fastener are used for:-
- High – stretch belt when take-up capacity is exhausted.
- Application requiring frequent belt removal for cleaning.
- Application that cannot afford extended downtime.
- Belts requiring frequent length alterations
- Conveyor not easily disassembled for belt installation.

Conveyor Belt

New Tech Facilities Equipment Trading supplies a range of Conveyor Belts & Power Transmission Belts.

All our products are produced with necessary and internationally recognized certificates and meet the highest hygiene standards.

Conveyor Belts are available with different surface structures for the various fields of application and can be adapted according to customer requirements with corresponding rollers.

Our broad belts, tailor-made for big industries, are the result of close co-operation with manufacturers of machinery and food products.

As a leading manufacturer of conveyor processing belts, we know all about the Conveyor belts.

Industries & Applications

- Food and Beverage Industry & Chemicals / Laboratories
- Beverage Industry
- VPE, BPE
- Printing and Paper Industry
- Aircraft and Airports Industry
- Car Industry
- Car Wash Industry
- Industrial Conveyors / Transmission Belts
- Textile Industry
- Machine Industry
- Metal Industry
- Mechanical Conveyors
- Conveyors / Drives

And many more ...

Industrial Automation & Control Products

Industrial Automation & Control Products accessories

The industry is right on the threshold of the fourth industrial revolution. Automation is being followed by the digitalization of production.

The goal an increase of productivity, efficiency, speed, and quality, resulting in higher competitiveness for companies on their way to the future of industry.

- Control Boxes, Cabling & Interfaces.
- Contractors and Protection Relays.
- Enclosures & Accessories.
- HMI (Terminals and Industrial PC).
- Industrial Communication.
- Interface, Measurement and Control Relays
- Motion Control & Robotics
- Power Supplies, Power Protection and Transformers.
- Motor Starters and Protection Components.
- PLC, PAC and Dedicated Controllers.
- Push Buttons, Switches, Pilot Lights & Joy Sticks.
- Sensors and RFID System.
- Signalling Units & Software.
- Telemetry and Remote SCADA Systems.
- Variable Speed Drive and Soft Starters.

Our Services

Fabrication of Belt & Rollers Conveyor Systems

Fabrication of Belt & Rollers Conveyor Systems

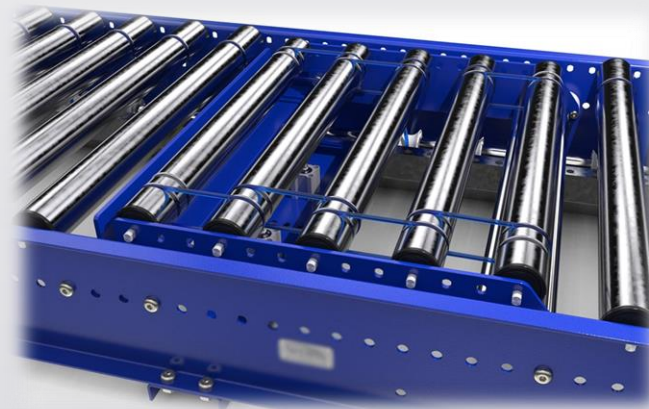

we provide maximum service life for your Heavy Duty or Lightweight conveyor belting saving you money and reducing downtime.

We have a full line of conveyor belting products along with a full menu of fabrication services. Our belting products include flat belts, custom conveyor belting, modular plastic belting, timing conveyor belts, and more that meet industry standards for even the most challenging requirements.

Conveyor Belt Systems Special Services

- Custom conveyor belts and fabrications
- Conveyor belt tracking and alignment services
- Conveyor belt troubleshooting
- Evaluations
- Installation assistance
- Modifications and retrofits
