We control your intricate logistics issues so you can focus on making a stronger business, faster.

About Us

A I W A Logistics is a freight and cargo company across every major industry with full focus on Freight Transportation. We have expertise in global supply chain solutions shippers manage their supply chains most efficiently, using our advanced technology for the movement of goods.

OUR SERVICES

Our Customs Brokers ease the regulations and paperwork of Import and Export quickly and speedily for all of your shipments. We help clear and handle all trade compliance and procedures, consignments by Sea, Air & Land more efficiently.

Customs Clearing & Related Services

Along with our network agents of customs brokers we file several customs entries every year and combine our expertise of worldwide customs regulations with local knowledge to ensure the smooth flow of all international shipments. We offer a complete menu of brokerage services including:

- Import/export clearance
- Customs brokerage management
- Cargo security

We aim to simplify the complexities of customs control for our customers using the latest direct electronic connections to customs agencies.

Providing our customers with specialist advice on all aspects of the customs and regulatory processes we ensure that compliance is achieved in the most efficient way.

Established procedures, effective technology and solid relationships with customs authorities worldwide help ensure goods are delivered when expected. All documentation is managed and clearance processes can be initiated before goods are in transit to expedite clearance. Valuable expertise is also available to our customers on logistics solutions for free trade zones, as well as managing the complexities of duty payments, bonded warehouses and inventories - often in countries where suppliers have no fiscal representation. Key capabilities include:

- Document preparation
- Regulatory compliance and reporting
- Customs warehousing
- Duty management
- Customs clearance
- Advice on tariff quotas and classifications
