

DATABOX
TECHNOLOGIES LLC

"No matter how many buildings, foundations, schools and hospitals we build, or how many bridges we raise, all these are material entities. The real spirit behind the progress is the human spirit, the able man with his intellect and capabilities.

Sheikh Zayed bin Sultan Al Nahyan

ABOUT US

Our extensive knowledge of the ICT industry enables DATABOX TECHNOLOGIES to provide end-to-end innovative technology and professional solutions to our reseller and integrator channel base.

As a national broad line distributor, we provide our customers [reseller and retail channels] a wide range of products. Our distribution portfolio comprises of CCTV Surveillance Systems, Networking Products, PA & BGM Systems, Audio Video Lighting and so on.

An organization which believes in being a true partner of its customer, understanding the

customers' requirements analyse them and find turnkey solution. And this carefully

treats supply of quality products, experts and effective solutions.

OUR STRENGTH

Strong, Innovative Company Culture
 Unique Product or Knowledge
 Excellent Efficiency and Productivity
 Customer Service that creates Raving fan Customers
 Ability to Scale Sustainably
 Speed to Market
 High Adaptability
 Diversification of Products or Services
 Strong, Decisive Leadership

MISSION

Provide service of such excellence that customers prefer DATABOX TECHNOLOGIES to be their supplier regardless of the brand or product they select. Support manufacturers who actively assist in satisfying our customers' needs to the benefit of all.

VISION

Create a safe, satisfying and rewarding environment for our employees by encouraging initiative, teamwork and pride in the achievement of our business objectives. Consistently achieve financial performance above both industry average and the minimum expectations of our shareholders.

WHAT WE DO?

We have made significant investments in Digital platforms and products spanning Technology Products, Horizontal Platforms and Products, Vertical Platforms and Products.

We function as a full stakeholder to business, offering a consulting-led approach with an integrated portfolio of technology led products that encompass the entire Enterprise value chain.

WHY YOU CHOOSE US?

Our customer-centric Engagement Model defines how we do engage with you, offering specialized services and solutions that meet the distinct needs of your business.

Ruijie  **Reyee**
Networks by Ruijie

Authorised National Distributor

Ruijie Networks, as one of the earliest switch suppliers in China, has orchestrated multiple full-featured switch series for data centre network and campus network. Currently, Ruijie switches have been widely adopted across various sectors including Internet, finance, network operator, government, education, enterprises, healthcare, etc.

Given the rapid development and intense evolution of the Internet world, simplicity, high efficiency and high scalability are key to the optimal user experience of network infrastructure

"Innovation Beyond Networks"

Ruijie has been building in-depth scenario-oriented application experience through solution design and innovation in the industry, thus assisting the upgrade into the digitalization of all industries. Ruijie has researched and self-developed 8 product lines, including switches, routers, wireless, cloud class, security, gateways, IT management and authentication & accounting.

Analog & IP Public Address System:

ITC INTELLIGENT PUBLIC ADDRESS SYSTEM FOR PUBLIC BROADCAST AND INFORMATION, MORE WIDELY SPREAD, MORE FAST AND STABLE..

There are three application functions of public address system are Public Announce System, Background Music and Voice Evacuation Systems

Analog PA System

Centralized systems ranging from public address systems for a small number of high-power zones, to large numbers of low-power zones, not to mention small facilities for commercial, entertainment or hospitality premises

IP PA System

IP PA system encodes analog audio signal to digital signal, then transmit digital signal via network and decode by terminal. It can utilize existing non-dedicated LAN or WAN network to transmit by using standard TCP/IP protocol which supports router-across, gateway-across and firewall across

VOICE EVACUATION SYSTEM

Voice alarm evacuation system is with pre-configured multiple alarm schemes, voice reminding message, evacuate the crowd; remote guidance and evacuation can be conducted through the software, controller and fireman microphone

CONFERENCE SYSTEM

ITC - CONFERENCE SYSTEM MAKE COMMUNICATION MORE CONVENIENT, CLEAR AND IGNORING CONVERSATION DISTANCE FROM NETWORK.

AUDIO CONFERENCE SYSTEM

It provide customers with complete and efficient conference solutions and satisfy the needs of various conference venues

PAPPERLESS CONFERENCE SYSTEM

Adopt the latest network communication technology, ITC paperless conference system exchange and share various material by paperless, audio and video documents, pictures.

VIDEO CONFERENCE SYSTEM

Adopt the latest network communication technology, ITC paperless conference system exchange and share various material by paperless, audio and video documents, pictures, etc.

SIMULTANEOUS INTERPRETATION

It adopts digital audio compression coding full digital DQPSK modulation technology, and can transmit 15 translated voice and 1 original voice at the same time

PROFESSIONAL AUDIO

SUPERIOR PROFESSIONAL SOUND SYSTEM LET YOU TO IMMERSE YOURSELF IN THE MELODY, FEEL THE POWER FROM MUSIC

ITC professional sound system ensures every audience member enjoys the same great experience with clarity and powerful of sound in an acoustically attuned environment. The superior audio performance of high-quality sound systems offers everything you need for every occasion.

ITC high-quality audio, video, lighting and control solutions to meet the needs around the world. We offers decades of technical excellence and experience designing and manufacturing premium products that are easy to setup and operate and function seamlessly together

SURVEILLANCE SYSTEM

UniView is the pioneer and leader of IP video surveillance. Firstly, introduced IP video surveillance to China, UniView now is the third largest player in video surveillance in China. In 2018, UniView has the 4th largest global market share.

With 16 years of unlimited exploration, Uniview evolves from video surveillance to AIOT: The VS product lines include IP cameras, NVR, Encoder, Decoder, Storage, Client Software and app, the AIoT ranges from display, intelligent access control to smart office and smart home.

Uniview provides professional solutions covering all industries, delivered more than 7000 cases in smart city, transportation, industrial park, commercial, bank, residential, school, healthcare etc.

Better Security, Better World

Authorised Genuine Partner

PRO & PRIME SERIES

As a leading security camera service provider, Uniview can meet your security needs in different scenarios. Our IP cameras render high-quality images even in low illumination environment while featuring smart functions based on video content analytics, and minimizing bandwidth and storage. The most important business value of them is to provide excellent performance at an affordable price.

NETWORK STORAGE

With 15-year experience in research and development of storage, Uniview has integrated a wide range of options from 16 bays to 60 bays, and also from single controller to dual controller. Uniview' professional storage forms a comprehensive solution for video surveillance storage and meets different scenarios of video data storage requirements.

Unified Network Storage

Network Storage/NAS Series

Unified Network Storage/NAS Series

Ultra-low Power CPU Server

Uniview provides three different specifications of VMS products for overseas users, namely VMS-B180-A, Unicorn, and VMS-B800-A. They offer a comprehensive solution by connecting other UNV products, such as IPC, NVR, decoder, network keyboard, access control host, alarm host, etc. The software deployment is simple, stable and reliable. They can not only be widely used in LAN-based application scenarios such as residential area, building, campus, hotel and shopping mall, but also in WAN-based application scenarios such as chain store and bank. UNV VMS devices can easily solve the problems caused by decentralized management.

VMS-B180-A is an integrated video surveillance platform for small and medium sized applications. It can connect and manage devices such as IPC, NVR, face recognition terminal, decoder, network keyboard, access controller, alarm controller. VMS-B180-A is easy to deploy, stable and scalable, and it is widely applicable in LAN-based applications such as residential areas, buildings, campuses, hotels, retail stores, and WAN-based applications such as networked chain stores.

VMS-B800-A is a powerful and highly reliable video surveillance management platform that offers a comprehensive solution with other Uniview products including IPC, NVR, decoder, network keyboard, IP SAN, etc. It is compatible with Onvif-compliant IP cameras and open to integration with other systems. VMS-B800-A is one of the ideal video management servers specialized for large-scale surveillance, and it has been widely used in various scenarios such as public security, finance, transportation, electric power, energy, education, and healthcare, and in diverse scenarios including large parks and buildings.

SWP-IASP-IS3.0-IN (Industry Application Software Package for Integrated Security) is an integrated IMOS-based security platform that provides video surveillance, alarm management, map application, emergency plan management, configuration management, and other services.

AI BOX

AI BOX-Intelligent edge computing server is independently developed by Uniview. The built-in deep learning algorithm enables intelligent applications such as accurate face recognition and multiple behavior analysis.

Uniview provides an API interface that allows customers to connect to third-party platforms to meet the needs of various usage scenarios and intelligent upgrade of existing video surveillance systems. It can be applied to projects such as smart retail, smart bank, smart petrol station and smart construction site/factory.

UNISNUG

Unisnug specializes in health and personal care products which tries to cop up with the daily health requirements of people.

Reliable, efficient, convenient, we are taking your healthy working and living space to the next level.

Unisnug is protecting the health of you and the people around you at the nearest distance

Liberty
WIRE & CABLE

Authorised Regional Distributor

In 1991, Gary Michelson founded Liberty Wire & Cable with a plan, only one employee and a dream. He began by selling bulk cable and within a year was growing his team as well as his reputation for quality products.

Early on in this venture, a home remodeling project presented Gary with his first idea for a revolutionary product innovation. In every room of the home he observed many cables, each with a different purpose but all of them were the same color.

Gary identified a need to differentiate cable function by color and soon an industry standard was born. At the very next CEDIA Expo, Liberty presented colored cable with a durable, flexible and easy-to-pull jacket that became a game-changer for the industry.

By 1998, Liberty began exporting and continued to expand its range of products to include pre-mades, connectors, custom or stock plates and panels, tools, racks and power management solutions.

Staying true to its origins, Liberty continues to develop and broaden its line of cable in order to provide installers with the products they need to get the job done right and on time. Liberty offers a steady stream of innovation and a number of value-added services with customer-focused solutions which make it your best choice as a full-service business partner

- Bulk Cable
- Custom Assembled cables
- Pre-Made cables
- HDMI cable solutions
- Connectors & Adapters
- Installation Accessories

High-Performance EZ-Strip Broadcast Audio 22 AWG 1-Pair Shielded Cable

- 7-strand annealed tinned copper conductors
- Cellular polyethylene dielectric insulation
- Tightly twisted and shielded

High-Performance EZ-Strip Broadcast Audio 22 AWG 2-Pair Shielded Cable

- 7-strand annealed tinned copper conductors
- Cellular polyethylene dielectric insulation
- Tightly twisted and shielded

EXTRAFLEX Audio and Control 22 AWG 2-Pair Individually Shielded Cable

- 16-strand annealed bare copper conductors
- Semi-rigid PVC insulation
- Each pair twisted, shielded, isolated

Liberty X-Cross Microphone 24 AWG 2-Pair Braid Shielded Tactical Microphone Audio Cable

- 41-strand tinned copper conductors
- Polyethylene dielectric insulation
- Pairs laid across a cotton core polar opposite each other

Liberty Premium High Speed HDMI Cables with Ethernet - 18 Gig 4K@60Hz

- Premium High Speed HDMI Cables with Ethernet
- Full 18 Gig HDMI 2.0 4K@60Hz and HDR Certified by HDMI ATC
- Supports Ethernet, ARC, CEC, and all HDMI Audio formats

Liberty Commercial Grade High Retention High Speed HDMI with Ethernet cable

- High retention gold plated HDMI "A" plugs
- Fully shielded from connector shroud to shroud
- 18Gbps up to 20m, 10.2G 23 and 30m

Liberty InterGalactic Ultra High Speed HDMI™ Cable Series

- 48 Gbps bandwidth, ultra high speed HDMI cable
- Maximum Resolution: 4K120/8K60/10K
- Color Depth: 8-16 bit

Liberty Premium Molded HDMI to DVI Digital cable

- HDMI "A" Male to DVI-D Male Single Link Connectivity
- Gold Plated Contact Surfaces
- 28 AWG Tinned Annealed Copper Conductors

Liberty HDMI to 19-pin DIN digital media lead cable

- Modular Extension cable system for HDMI/DVI Signals
- DIN19 Male to HDMI "A" Male Connectivity
- This is the detachable 1/2 meter lead for the system

Celerity Technologies Universal HDMI AOC Cable Assembly HDMI 2.0 18G

- Detachable TX and RX Heads 3" long with MPO plugs
- Plenum rated Umbilical cable for all installations
- two MPO Couplers included to couple leads to umbilica

CONNECTORS & ACCESSORIES:

Hosa Technology 1/4 TRS female to 3.5mm TRS male adapter

- Interseries Adapter
- 1/4 TRS Female to 3.5mm TRS Male Connectivity
- In-line format

Hosa Technology 3.5 TRS female to 1/4" TRS male adapter

- Interseries Adapter
- 3.5mm TRS Female to 1/4 TS Male Connectivity
- Applies mono equally to left and right channels

Hosa Technology 1/4" TRS female in-line coupler

- In-Line Coupler format
- 1/4 TRS Female to 1/4 TRS Female Connectivity
- Nickel plated contact surfaces black body

Hosa Technology RCA Female to 1/4" TS Male Adapter Pair (2)

- This is a pair of adapters
- In-Line format
- RCA Female to 1/4 TS male Connectivity

Premium RCA Male for 7.5mm and Smaller Video Cable

- RCA Male Plug Connector
- All Gold Plated contact surfaces
- Solder Style termination with cable strain clamp

Premium RCA Male for 7.5mm and Smaller Video Cable

- NL4FC SpeakON for both 2 and 4 Pole connections
- 1/4" TS wired +1 to TIP and -1 to SLEEVE
- Locks with a double lock system for Security

XLR Jack Mini 3-PIN Nickel

Hosa Technology XLR 3-Pin male in-line coupler

- In-Line Interseries Adapter
- XLR 3-pin male to XLR 3-pin male connectivity
- Nickel Plated contact surfaces and body

Hosa Technology XLR 3-Pin female in-line coupler

- In-Line Interseries Adapter
- XLR 3-pin female to XLR 3-pin female connectivity
- Nickel Plated contact surfaces and body
