www.hydrocaretrading.com

Rexflow hydraulic filtration product line features the complete hydraulic range of filter elements with a high dirt-holding capacity to ensure consistent filter efficiency and long element life.

These elements are available with various filter materials, different construction types and micron ratings to help protect critical system components. Rexflow's wide range of filter elements provide trouble-free operation when filtering abrasive fluids, cooling lubricants or water-based fluids and are designed to achieve absolute filtration

OUR PRODUCT CATEGORIES:

1. Inline filters | 2. Return line filters | 3. Suction filters

The filter elements are tested according to several ISO Standards:

ISO 3723 Method for end load test | ISO 2942 Verification of fabrication integrity

ISO 2941 Verification of collapse/burst pressure rating

ISO 2943 Verification of material compatibility with fluids

ISO 3968 Evaluation of pressure drop versus flow characteristics

ISO 16889 Multi-pass method for evaluating filtration performance

ISO 3724 Determination of resistance to flow fatigue using particulate contaminant

COMPREHENSIVE FILTER RANGE

ALCO produces filters for cars, trucks, earth moving equipment and stationary engines. The range covers more than 3500 different types of filters with more than 100 new types added yearly. ALCO Filters is a trusted name in more than 66 countries throughout Europe, Africa and the Middle East and has four large distribution facilities in the UK, Germany, Greece and Cyprus ensuring fast and efficient delivery. The company basic philosophy remains always the same to provide our customers with quality goods and services that will enable them to create wealth and prosperity for themselves.

AIR FILTER, OIL FILTER, FUEL FILTER, HYDRAULIC FILTER

Filton Filters is a Malaysian Aftermarket filter manufacturing company. Established in 1978, Filton stands out proudly as one of the leading ASEAN filter manufacturers. Filton manufactures approximately 12 (twelve) millions filters per year and supplied to both OES as well as replacement market. As a trustworthy global industry player, FILTON prides itself in the products which equals or exceeds most OEM/OES specification

HYDRAULIC HOSES AND FITTINGS

REXFLOW braided hydraulic hoses are fundamental fluid conveyance solutions for various equipment and applications with wide operating pressure ranges, optimal levels of abrasion resistance, long-lasting durability and high-performance transfer capabilities.

Common applications include:

Hydraulic system service with petroleum and water-based fluids, for general industrial service. Petroleum and fire-resistant hydraulic fluids, fuel and lubricating oils, gasoline, water and other industrial fluids Logging, construction, mining and other off highway applications

TOYOFIL

AIR FILTER, OIL FILTER, FUEL FILTER, HYDRAULIC FILTER

Established in 1994, Toyofil is a high-tech enterprises, integrating with a R&D, production and sales of filtration system products. Specialized in producing oil, fuel, air, cabin and hydraulic filters and air dryers. it have more than 5000 items which are widely applicable for cars, trucks, motorcycles, air compressors, agricultural vehicle ,rail vehicles track and construction machinery. Toyofil products have been exported to the United States, Germany, Japan and Australia etc. about 100 countries and territories.
