

SPROCKET & CHAIN

With our comprehensive range of sprockets, you will easily find the correct sprocket size for your application. All our sprockets are made from high-quality steels and can be further adapted for high performance with coatings such as black oxide or zinc plating. Sprockets are available in a variety of configurations, which must be matched accurately to a machine's design.

We also offer solid roller chains which are heavy duty, designed with heat-treated side plates and pins to withstand heavy shock load and severe conditions. All roller chains are pre-stretched. The roller chain sprockets offered are in inch dimensions, with standard keyways and two set screws, with or without hardened teeth, and also are offered in stainless steel.

GREASE

We offer a full line of high-performance industrial greases including technologically advanced, highly versatile, general purpose, multifunctional, and extreme pressure (EP) varieties, all of which outperform conventional greases. We stock various range of greases of brands such as SKF, FAG, ADNOC etc.

MOTORS

Our stock of Induction motors ranges from different applications. Ranging from Single phase to 3 capacity differs from 3 HP, 5HP, 10HP and more. Our stock includes brands such as Siemens, ABB, Elix and other international brands.

OMEGA LATHE WORKS

We, popularly known as Omega Engineering was initiated under the Omega Group, which is established in the UAE since 1976. Started as a food processing and packaging machine supplier in the region, today manufactures and resells machineries and parts varying from Bearings, Belts etc and all kinds of machinery spare parts. Since the inception, the company has been engaged in providing high quality products for various industries in the region.

We are a valued partner to re-sellers & manufacturing industries in the Middle East and Africa. We are focused on supporting industries by providing high-quality genuine bearings, belts, seals, pulleys, sprockets, gears, motors etc. from the best global manufacturers. Our activities are driven by strong supplier partnerships, an unmatched logistics network and technically skilled sales personnel.

As an international supplier, wholesaler, importer and exporter of bearings, we offer unbeatable prices and huge stock for bearings from all major brands in the industry such as FAG, SKF, NSK, TEK0 , NACHI, KOYO, TIMKEN, SNR, NTN, FYH, KK and many more. Conveniently located in the emirate of Ajman, our warehouse and retail outlets are always in the hand reach for all kind of products and support.

INDUSTRIAL BEARINGS

The application demands and operating conditions of rotating machinery are extremely diverse. To achieve the best performance fit for your application, there are many different parameters to consider – dimensions, weight, rotational speeds, load ratings, sealing and lubrication, to name a few. At Omega, we consider these parameters and can provide the right bearings for the right application. We keep the following varieties of bearings in different well reputed brands.

Deep Groove
Ball Bearings

Miniature
Bearings

Self-aligning
Ball Bearings

Angular Contact
Ball Bearings

Cylindrical

BELTS

We provide a variety of Belts for various industries and purposes in the region. Our products are sourced from various top brands that are focused on industry specific beltings. Your industrial requirements are fulfilled with our Just in time policy and vast stocking systems that enables us to deliver the products to you in time. Belts are integral part of any machinery and the right Belt will ensure production efficiency, energy conservation and better profits. We help you to choose the right belts for your application.

PULLEYS

A pulley is a wheel with a groove around it for belt placement. The groove allows for a belt to turn around the circumference of the pulley. In pulley systems, the most common components include the wheel (pulley), axle, hooks and flexible belt (chain, cable, rope, etc.). At Omega, we stock wide range of pulleys like V belt Pulley sizes of A B and C sizes. We also stock ranges of Aluminum Pulleys, Tapper Pulleys and Flat Pulleys.
