- Cove Lights

BRANDS

INDUSTRIAL LIGHTS

BAY LIGHTS

MAJOR BENEFITS

Flicker Free High-quality light with minimal loss and no glare

- LM80 Certified LEDs
- 30/60/90 Deg Optics to suit different mounting heights
- Installation Height : > 5 mtr - 30 Mtr (14 ft – 90 ft)
- Coverage Area : (1.5 x Mounting Height) x (1.5 x Mounting Height)
- Reduces CO2 emissions and maintenance costs

BAY LIGHTS ECO

MAJOR BENEFITS

Flicker Free High-quality light with minimal loss and no glare

- LM80 Certified LEDs
- 30/60/90 Deg Optics to suit different mounting heights
- Installation Height : > 5 mtr - 30 Mtr (14 ft – 90 ft)
- Coverage Area : (1.5 x Mounting Height) x(1.5 x Mounting Height)
- Reduces CO2 emissions and maintenance costs

BATTEN LIGHTS

MAJOR BENEFITS

Reduces CO2 emissions and maintenance costs

- High-quality light with minimal loss and no glare

STREET LIGHT IP 140 20W

MAJOR BENEFITS

- Long lifetime due to excellent thermal management
- Multiple types of optics for various street and road configurations
- Visual comfort for all street users
- Ideal for all kind of streets and outdoor areas, parking lots, and city centres
- LM80 Certified LEDs
- Connectivity with lighting management and control systems
- Installation Height 4 – 5 Mtrs for Good Coverage
- Spacing Between Poles : (3 - 4 times)x Mtg Height

SWITCHES & SOCKETS

BRANDS

CABLES, NETWORK CABLES, RUBBER CABLES, BUILDING & PANEL WIRES

BRANDS

ISOLATORS, FLOOR BOX & INDUSTRIAL SOCKETS

BRANDS

SWITCHGEAR SUPPLIES

PRODUCTS:

- ALL TYPES OF CONTROL PANELS
- STARTER PANELS
- ROW TYPE DB'S

- Duty Standby

ELECTRIC MOTOR

- Single Phase
- Three Phase – MTFM/MTFL/MTFA

ACCESSORIES

- Controller – ACH/ACV

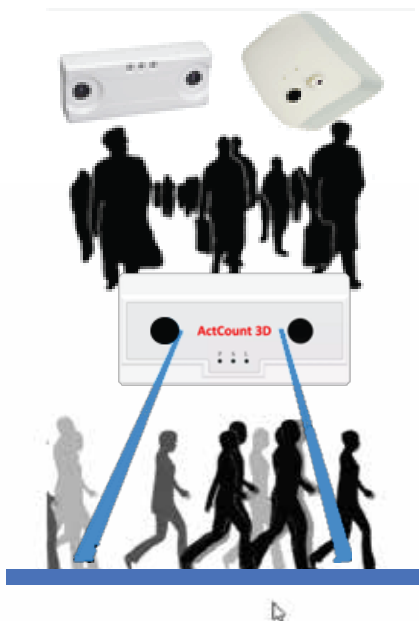

ACTRON PRODUCTS

- QR Way finding System
- People Counting System
- Car Parking Guidance System
- Que Management System

QR Way finding System

Actron has recently introduced a unique system so visitors can find their way in malls, exhibitions, outlet centres etc in a very comfortable way. It lets them find the shops, restaurants, products etc. they are looking for. By return it will guide them to the car. It is based on QR code scanning which takes them to a web sight which graphically guides them. It does not need any hardware. Therefore, it is a low cost to install and maintain. It does NOT need any download of apps or maps like other wayfinding systems.

People Counting System

Actron has successfully been counting visitors since 1995 as one of the earliest companies on the market.. This means that Actron has a long experience and knows that this is more than just counting People. It is a question of visitor analytics and how to present the information to the decision makers so that right decisions can be taken and turned into economy. This means that accurate Occupancy and Dwell time, as well as Visitor Capital, are equally important as the number of visitors coming and going. Actron has been focused on the reporting tools and the comfort.

Car Parking Guidance System

Actron has brought this concept to a higher level than other systems. This is not only a benefit for the visitors. It is also important Management information. The system does not only guide the visitor to a free parking slot. It also Guides the car to the best parking slot for each visitor. There are many useful functions integrated in the system, such as Emergency guidance, Reserved slot and VIP guidance etc. It allows quick installation and signage, which can be modified even remotely and brings an optimal understanding for the visitor. By return the visitor can be guided to the car by the smartphone in a very unique way.

Que Management System

It is a great need to reduce the waiting time in queues and satisfy visitors so they will return. Most systems in the market do not work well in unorganized queues with trolleys etc. We have based our systems on a new very accurate technology (TOF) to get good accuracy also in these cases combined with statistics and alert to the personnel

PLUMBING MATERIALS

BRANDS

AIRCONDITIONING MATERIALS

- COPPER COIL
- GAS
- THERMOSTAT
- CAPACITORS
- FOAM INSULATIONS
- COMPRESSORS
- TAPES
