CHEMICAL **EXCELLENCE**
FOR A DYNAMIC WORLD

About Us

Hazchem is an up-and-coming UAE based chemical company. We pride ourselves on delivering chemical excellence and exceeding customer expectations. Our commitment is to build lasting relationships with customers, making their success our top priority. Our goal is to become a **trusted partner** for industries seeking exceptional chemical solutions.

Our Strengths

We have a highly enthusiastic team of young professionals who provide the highest **quality** products and services to our clients.

Our team is led by **experts** in the chemical industry with a wealth of knowledge and experience that they bring to every project.

Our partnerships, well positioned branches, and agencies with chemical companies across the globe gives us an edge to serve our customers better.

Products

We specialize in importing and exporting **hazardous** chemicals. Our product line is composed of a wide range of chemicals that cater to various industries.

- Alcohols
- Hydrocarbons
- Esters
- Ethers
- Ketones
- Reagents
- Special Solvents
- Medical and Industrial Chemicals
- Water Treatment Chemicals
- Oil Field Chemicals

Services

We also offer customized solutions for our clients' specific needs such as **repackaging** and providing origin **certificates**. One of our key services is custom formulation. We work closely with our clients to develop unique **blends** that meet their specific requirements.

HAZMAT LOGISTICS LLC

Partnership

Hazmat Logistics is a professional logistics company specialized in the transportation of chemicals, hazardous materials, and odd-dimensional cargo. With their expertise, we ensure secure and efficient transportation of dangerous goods, reinforcing our commitment to excellence in delivering chemical solutions. They offer different packing solutions - including single and combination packaging, in strict compliance with regulations and provide total freight management worldwide for the transportation of dangerous goods.

Partnership

Our collaboration with **Hazmat Solutions** ensures our ability to address complex challenges, prioritize safety, and maintain regulatory compliance, further strengthening our commitment to chemical excellence. They are experts in hazardous spill response, chemical waste integration and disposal, cross stuffing, cross and offer a range of critical services. Hazmat Solutions also assists us in conducting risk assessments, reviewing and preparing SOPs for safe handling and storage of chemicals.

Partnership

This collaboration enables us to provide customized shipping services that support efficient global trade with our clients. **Trisys Lines** specializes in seamless and transparent end-to-end shipping solutions for global customers, including all classes of IMDG cargo and Chemicals. With their expertise in ocean cargo logistics and strong industry connections, we ensure timely delivery through efficient coordination with shipping lines, port agents, and local carriers. This partnership allows us to meet specific client requirements by utilizing a wide range of container options, including Standard Dry, HD, HCOT, FR, and Reefer units.
