At Nexa General Trading, we go beyond just supplying products—we partner with you to ensure your projects area success. Here's why you should choose us:

- › Expertise Across Industries
- › Access to Leading Global Brands
- › Innovative Solutions
- › Customized Offerings
- › Competitive Pricing
- › Dedicated Customer Support

Working with Property Owners

At Nexa General Trading, our goal is to create a distinctive image for your property, transforming it into a landmark for you and a referral property for us. With our 8 product families and over 10,000 products, we deliver cutting-edge functionality, efficient lighting, climate control, and home automation solutions. We take responsibility at every stage, offering:

- › Clear understanding and transparency on product warranties, guarantees, and claim procedures.
- › Comprehensive insights in to product life cycles, helping you avoid costly obsolescence.
- › Seamless upgrades of products and technology overtime to keep your property up-to- date.
- › Smooth hand over of electrical systems to your facility management team.
- › Detailed records of products and projects through our in-house software for future traceability.

Working with Consultants & Architects

Bringing a building to life requires expertise in electrical engineering, from creating project specifications to elaborating detailed drawings. At Nexa, we collaborate closely with architects and consultants to align vision with technical precision. We provide:

- › Complete product specifications with a comprehensive 360° view.
- › Mandatory test reports for assurance and compliance.
- › Access to previous approvals for streamlined processes.
- › Comparative analysis for informed decision-making.
- › CAD drawings and a specification build-up tool to support your project.

Working with Interior Designers

We understand the importance of creating interiors that are both comfortable and aesthetically pleasing. At Nexa, we are attuned to the latest design trends and adapt quickly to changes. We add value by offering:

- › Products that align with your color schemes.
- › Solutions that meet functional requirements.
- › The latest trends in the market to keep your designs fresh.
- › Products that stand out and showcase your creative vision.
- › Seamless integration of products with the overall design concept.

Working with Contractors

We recognize the vital role of electrical contractors and the pressures they face in meeting deadlines, adhering to project specifications, and managing tight budgets. Nexa supports contractors at every level, from project directors to storekeepers, by providing:

- › Project-specified products tailored to your needs.
- › Quick access to samples for immediate review.
- › Pre-qualification and technical submittals for compliance.
- › Project compliance to meet all regulatory standards.
- › Value engineering to optimize project outcomes.

Working with Retailers

Retailers operate in a fast-paced environment, dealing with demanding customers, pricing pressures, and the need for immediate stock availability. Nexa's experience in this area is invaluable, offering:

- › A wide range of product options, complete with pictures and data sheets.
- › Quick and competitive pricing to meet your needs.
- › Readily available stock to ensure fast fulfillment.
- › Rapid delivery services to keep your shelves stocked.
- › Marketing tools to help you promote products effectively.

Working with Electricians

Nexa General Trading values electricians as the true 'Product Managers' in the field. We provide full support by offering:

- › Simple, practical solutions tailored to your electrical requirements.
- › Close and constant interaction, using straight forward language without unnecessary jargon.
- › Solutions to common-site challenges, based on real-world experience.
- › Introductions to the latest products and installation processes.
- › New project leads to help grow your business.
