

**Bringing
intelligence
to industrial
market.**

Company Profile 2023

We power business decisions with an impeccable solution portfolio and a passion for industrial solutions. Our comprehensive solutions and turnkey services meet countless market demands, providing industrial companies the tools to forge the future of industrial components and management in a digitalized world.

From IoT expertise to sensors, **LOVOSIS** makes it easy to use industrials requirements in various sectors of the market.

www.lovosis.com

About us.

LOVOSYS Technology employees have been transforming their invaluable experience, innovation, and thorough understanding of our customers' needs into comprehensive Industrial components solutions.

LOVOSYS Technology is recognized Distributor with its solutions found in almost all markers in middle east. LOVOSYS Technology has been delivering quality products, solutions and services that make efficient industrial components. Our robust portfolio of Industrial Components solutions let us predict future needs for efficient distribution. we provide a large variety of components that fulfil the requirements in Electrical, Mechanical, Electronics, Automations and Sensors.

INDUSTRIAL COMPONENTS

Our **Vision** is to bring intelligence to industrial market •

Mission •

LOVOSYS Technology employees have been transforming their invaluable experience, innovation, and thorough understanding of our customers' needs into comprehensive Industrial components solutions.

Values •

TEAMWORK

We value and respect each other. We communicate openly and honestly. We work together to achieve our goals. We include our customers, suppliers and other stakeholders in our team.

RESULTS AND RESPONSIBILITY

We are driven by continuous improvement, teamwork, and keeping our promises.

SERVICE

We care about our customers. We respect, listen, understand and serve their needs. With our knowledge and expertise we support them to reach their goals.

EXCELLENCE

We are accountable for quality in everything we do. By delivering quality, we secure our future.

**International
presence and
recognition**

**A source of
insight on the
digital change**

**Pioneer in
electronic
innovations**

**Business
expansion with
IoT**

Partner of choice

**Provider and
integrator of
smart energy
solutions**

Specialist in Industrial Business •

Lovosys has a bright future. As the world becomes more connected and interdependent, our innovative solutions respond to the digital change of our industry and we strive to create lasting bonds with our customers and partners worldwide.

Team with a ‘can do’ mind-set •

A world-class talent pool fuels a successful company. With innovation, flexibility, agility, ownership and empowerment, we create unique competitive edges and reinforce our leading role in the industry. High-quality professionals with a ‘can do’ mindset, integrity and learning drive are a vital part of growth-focused corporate culture. Our employees always go above and beyond to meet customer expectations. We concentrate on long-term relationships with customers, partners, associates, suppliers and other stakeholders to achieve sustainable business development. Effective teamwork boosts our productivity every day and makes it easier to turn ideas into reality. Teamwork, expertise and partnership are the building blocks that will help us reach common goals and create the success of company – together we can accomplish anything!

Incredible Journey

Lovosys evolution throughout the years has been distinguished by a flourishing portfolio of products and services and by the constant expansion of our global influence. Today our network of partners production facilities is strong and responsive, ready and able to provide reliable and efficient support services to our entire client base.

TODAY AND BEYOND

Eyes to the future

Lovosys became a pioneer of the industrial electronics supply and services, which promotes the company's aspirations to deliver premium solutions and contributes to solve global supply chain challenges.

Lovosys digital expertise makes it the UAE's most reliable provider of these services.

2019

Into the new Market Segment

The 2019 we saw Lovosys innovating on a global scale, turning revolutionary distribution with industrial materials to overseas market. We also digitalized the quality parameters and expansion to overseas was a lead to globalization.

2008

Forging ground

Along the markets of Dubai UAE, Lovosys begins distribution of electronics equipments and accessories. The industry immediately recognizes the quality of Lovosys supply and resulting in a service of demand. Later, Lovosys expanded to other emirates in UAE.

2022

Strengthening market position

Decades of hard work led to Lovosys entry into the prominent brands in Electronic industry. In 2022, Lovosys unveiled its fast pace logistic services within META regions.

2015

Experienced players

During the 2015 efforts were centered on expanding distribution capacities and entering new markets.

The next decade was marked by the company's first step into supply of sensors and electrical ICs

A full-page background image showing a climber in a red jacket and blue pants standing on a dark, jagged rock peak. The climber is holding a climbing tool up towards a bright sun that creates a lens flare effect. The mountain slopes are covered in snow, and in the distance, other climbers can be seen on a lower slope.

Innovative .
Leading-edge .
Excellence .

Our Products.

In an ever-changing world, exciting new possibilities are always just around the corner. Synchronising our actions with our customers and partners brings us one step closer to an active distribution where devices make decisions and take actions in real time. We offer variety of products and Solution to meet the clients requirements

ELECTRO MECHANICAL COMPONENTS

A wide array of advanced products
Electromechanical components distribution and marketing of devices including but not limited to switches, relays, solenoids, speakers, microphones, and connectors. our diversified portfolio was built to last.

ELECTRONICS & SENSORS

Distribution of Acoustic, sound, vibration sensors, Automotive sensors, Chemical sensors, Electric current or potential sensors, Environmental sensors, Magnetic or radio sensors, Optical sensors, Position sensors, Pressure sensors, Proximity sensors, Radiation sensors

SOFTWARE SOLUTIONS

Lovosys also excels in the distribution of customer made software products or services that are designed for industrial applications, such as manufacturing, engineering, automation, logistics, and quality management.

AUTOMATION

We deliver automation components at various level of requirement such as devices, such as robots, sensors, controllers, actuators, switches, relays, valves, and motors, as well as software, such as programmable logic controllers (PLCs), human-machine interfaces (HMIs), supervisory control and data acquisition (SCADA), and industrial internet of things (IIoT).

ELECTRONICS & SENSORS .

We provide a comprehensive selection of electronic components and sensors that can meet the diverse and specific needs of our clients for any kind of industrial applications. Our clients can find a wide range of electronic components and sensors that suit their various and particular needs for any type of industrial purposes.

Components

- Acoustic, sound, vibration sensors
- Automotive sensors
- Chemical sensors
- Electric current or potential sensors
- Environmental sensors
- Magnetic or radio sensors
- Optical sensors
- Position sensors
- Pressure sensors
- Proximity sensors
- Radiation sensors

Acoustic, sound, vibration sensors

BUILDING MATERIALS.

Cement

- White & Grey Portland
- Structural Steel
- Bitumen

Plywood

- Commercial
- Marine
- MDF (All Size)
- White Wood
- Red Wood

Paints

- Enamel Oil Based
- Emulsion Water Based
- Fire Resistant Paints
- Paint Roller
- Brushes

Plumbing & Sanitary Items

- PVC & Upvc Pipes
- GI
- Elbow
- Sockets
- Connectors
- Adaptors
- Bathroom and Wash Basin Mixers
- Showers
- Water Heaters
- Thermostat
- Bathroom Mirrors
- Bottle Traps (PVC & Chrome Plated)

Electrical Items

- Lamps & Bulbs Daylight
- Energy Saver
- Halogen
- Metal Halide
- Wires Insulated & Heavy Duty Cables
- Sockets, Fitting & Fixtures
- Industrial Fans & Hooters
- Isolators
- Contactors
- MCCB
- Transformers
- Cable Ties
- Mist Water Fans
- Outdoor Electric Patio Heater

Fasteners

- Nut Bolt
- Washers All Size
- Fischer Plugs
- Rawl Plugs
- Screws Self Tapping

Tools

- | | |
|----------------------|-----------------------|
| • Drill Machines | • Routers |

- Lift Station Pumps
- Magnetic Drive Pumps
- Metering Pumps
- Multistage Pumps
- Peristaltic Pumps
- Piston Pumps
- Plastic Pumps
- Plunger Pumps
- Positive Displacement
- Pumps Progressive Cavity Pumps
- Reciprocating Pumps
- Regenerative Turbine Pumps
- Rotary Pumps

Industrial Motors •

- Electromechanical - Geared Motors
- Brake Induction Motors
- Single phase Induction Motors
- Three - phase Induction Motors
- Geared Motors
- Gearless Motors Servo Motors
- General Purpose Motors
- Harsh environment motors
- Vector control variable speed motors
- Synchronous Motors
- Permanent Magnet Synchronous Motors
- AC Motors
- DC Motors Low
- Voltage Motors

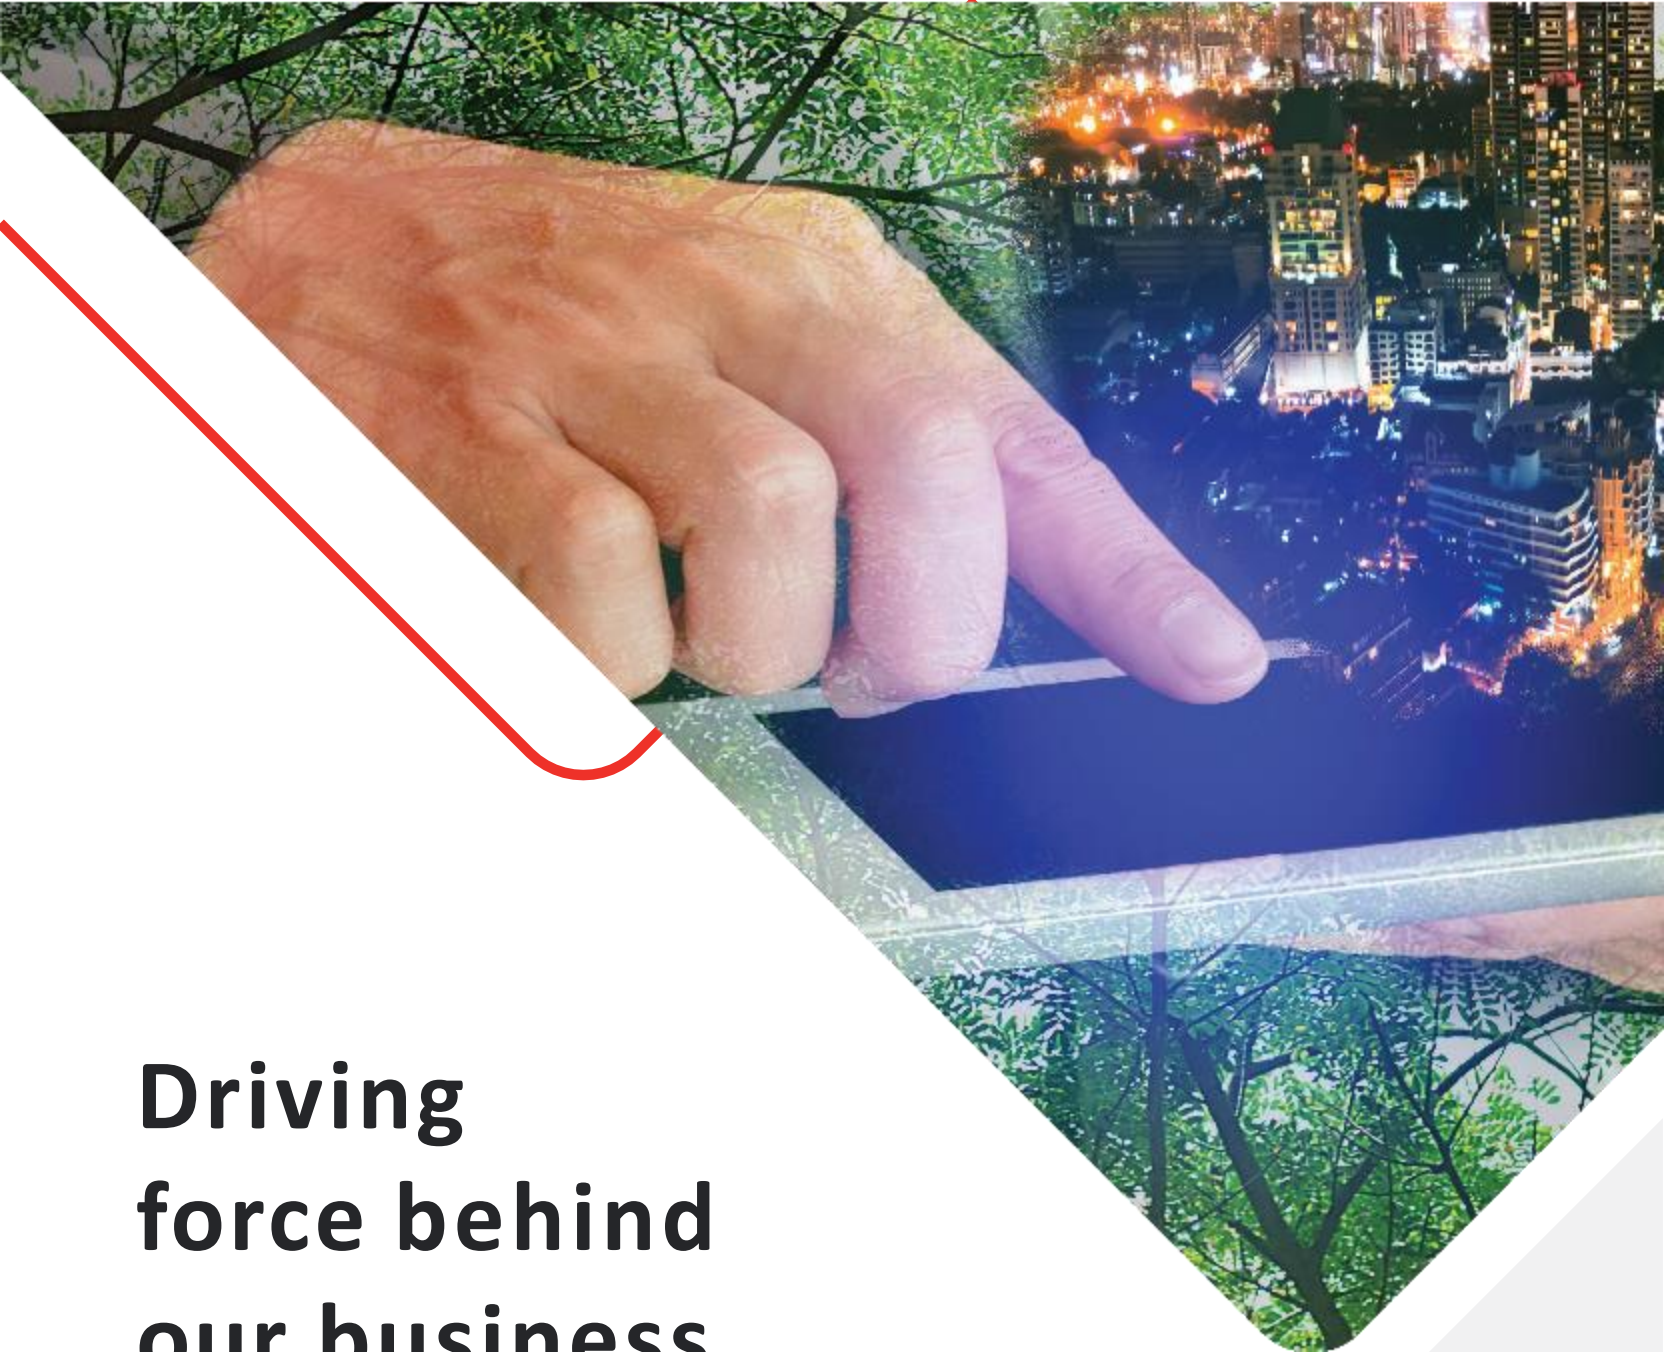

Sensing & Inspection Technologies .

- Sensing & Inspection Technologies
- Ultrasonic Testing (UT) Radiography (X-ray)
- Remote Visual Inspection (RVI)
- Electromagnetic / Eddy Current Testing (EC)
- NDT Software
- Hardness Testing
- Metrology
- Handheld XRF (PMI)
- CO2
- Flow Gas
- Moisture & Humidity
- Pressure & Level
- Pressure MEMS
- Temperature
- Turbidity
- Validation & Environmental Monitoring

Driving force behind our business decisions.

The driving force behind our business decisions is our vision to be the leading provider of industrial automation components in the region. We believe that industrial automation is the key to enhancing the productivity, quality, and profitability of our clients' businesses. We also believe that we have the expertise, experience, and resources to deliver the best solutions for their needs. Therefore, we make our business decisions based on these principles, and we always aim to achieve the highest standards of performance and customer satisfaction.
