

DAVE POOLS SANITARY WARE TR. Co. LLC headquartered in Dubai – United Arab Emirates, Supplying and Service to the market with our wide range of Pool Equipment Accessories, Landscaping, Plumbing & Sanitaryware Products. We are acknowledging for our excellence of service and conformance to the highest quality standards. This basic philosophy entails a combination of uncompromising quality, under passed value and strict adherence to the committed delivery schedule. Our greatest asset comprises of a team of qualified, experienced and global oriented professionals who are continually trained to operate in all states of U.A.E as well as in the international environment. Our Long-term alliance with globally renowned brands enables us to serve our customers with the finest products at the most reasonable price. Over the years, we have bridged the gaps, defied all the barriers and served as a trustworthy link between the manufacturers and buyers in different parts of the world.

Other key factors in the success of Dave Pools include competitive pricing, efficient logistics and delivery systems, effective marketing and advertising, and excellent customer service. By focusing on these areas, We Dave Pools builds a strong reputation and attract loyal customers over the time.

Our Field of Expertise's

- Pool / Wellness Equipments and accessories.
- Water Treatment Solutions in domestic and industrial applications.
- Irrigation Systems for Agricultural and Landscaping applications.
- Fluid Handling Solution for Residential, Commercial, Agricultural and Industrial applications.
 - PVC Pipe, Fittings & Valves
 - PPR Pipe & Fittings.
 - HDPE Pipe & Fittings (Butt Fusion & Electrofusion)
 - CPVC Pipe, Fittings & Valves.
- Complete Range of Aluminum Access System.
 - Aluminum Ladders, Scaffolding Towers, Specialized / Customised Access Systems & Manhole Covers

AstralPool offers a wide range of products for residential and commercial pools, water parks, spas, and wellness centers. The brand provides products for water control and conduction, pumps, filters, cleaning accessories, air conditioning equipment, and chemical products for disinfection and water maintenance. AstralPool is a leading international generalist brand for swimming pool systems and components

Hunter Industries is a manufacturer of best-in-class solutions for the landscape irrigation, outdoor lighting, dispensing technology, and custom manufacturing sectors. Hunter Industries offers thousands of products in over 120 countries, including a complete spectrum of water- and energy-efficient solutions for residential, commercial, and golf course irrigation systems. We also offer industry-leading landscape, architectural, horticultural, and industrial applications.

Rain Bird Corporation is a global leader in irrigation products and services, providing a broad range of solutions for farms, golf courses, sports arenas, commercial developments, and homes. They offer over 4,000 water-saving irrigation products, including sprinklers, dripline, pumps, and timers/controllers, and have offices and manufacturing facilities worldwide.

Eurodrip is a 40-year veteran in the micro irrigation industry providing agriculture and landscaping solutions. Established and headquartered in Greece, Eurodrip one of the largest manufacturers of drip irrigation products.

Cepex is the brand for the fluid handling market belonging to the Fluidra group. One of the leading European manufacturer of valves and fittings in thermoplastic materials. Dedicated to the swimming pool, irrigation and industrial markets, we distribute our products worldwide with the Fluidra commercial network and presence in 46 countries with 136 sales branches.

DIG is a distributor of battery and solar irrigation controllers and valves, as well as a manufacturer of low-volume irrigation products, including drip tubing, dripline, fittings, and accessories. The company began in the 1980s with a limited assortment of drip irrigation accessories and has since expanded to offer a comprehensive line of products for the commercial turf and retail markets.

AZUD is an international manufacturer of micro irrigation, fertigation, and irrigation water filtration systems. They offer a range of pressure-compensating on-line drippers and microirrigation tubes for multiple applications.

irritec manufactures and distributes irrigation products for various sectors including residential, sports, agricultural, and municipal. Their range of plastic filters offers practical and robust solutions for modern irrigation systems, ensuring system protection with reliable filtering elements. Their manual plastic filters are widely used in various applications, and they continue to invest in research for irrigation innovation and sustainability.

"H2O Flow offers compression fittings for fast and secure connection of polyethylene tubing in various applications, such as irrigation, plumbing, and water supply networks. Their products are well accepted in industrial use, mining, air application, and more. The range of compression fittings provides high-pressure resistance, UV and temperature resistance, perfect water tightness, and a clinching system with a locking nut for durability and safety."

"MPI manufactures a wide range of UPVC pressure pipe fittings, including SWR drainage, high pressure UPVC, CPVC, and PP compression fittings and pipes. Their products have been widely used in irrigation, construction, plumbing, and landscaping industries in the Gulf region and Middle East. They have received the ISO 9001-2000 standard certification and the Kitemark certification of BSI, UK for their products."

RAKtherm is a leading manufacturer of piping systems, specializing in PPR, PEX, anti-UV, multi-layer reinforced PVC-U, and DVW systems. As the first and largest PPR and PEX systems manufacturer in the Middle East, RAKtherm is committed to delivering effective and efficient piping systems. Their products are known for their world-class quality and technological innovation, making a real difference in the industry.

Cosmoplast is a plastics manufacturer supplying building materials, infrastructure products, and consumer goods in the Middle East. Their Pipeline Systems Division produces pipes and fittings to international standards such as EN, ISO, BS, DIN, and ASTM. They offer a wide range of products, including uPVC Drainage Pipes & Fittings, uPVC High Pressure Pipes & Fittings, HDPE Drainage Pipes & Fittings, PPR Pipes & Fittings, PE-X Pipes & Fittings, Fabricated Plumbing Products, uPVC Ball Valves, CPVC Pipes & Fittings, Pipes Clamps & Supports, and Plumbing Accessories.

BR-Bänninger is a German manufacturer that offers a comprehensive range of moulded parts made from PE, PVC-U, PP-R, and PP-RCT materials in dimensions ranging from d 8-1000 mm.

Ostendorf Kunststoffe GmbH - Ostendorf HT-Safe Low Noise pipes and fittings are meeting the requirements according to DIN EN1451, DIN19560-10 and DIN8078. n-house pipe system with flame retarder and highly heat stabilized, soundproof 26dB acc. EN14366, meeting the applications of installations and dimensioning according to DIN EN12056 and 1986-100. Also suitable for Soil, Waste and Vent piping application.

Ostendorf Kunststoffe produces Ostendorf HT-Safe Low Noise pipes and fittings meeting various international standards.

Jain Irrigation Systems Ltd is the largest Micro-Irrigation company globally, specializing in precision-irrigation products such as drip and sprinkler irrigation systems and their components, integrated irrigation automation systems, dosing systems, PVC and PE piping systems, plastic sheets, greenhouses, bio-fertilizers, solar power, solar water-heating systems, and solar water pumps.

KARIBA produces Concealed and External flushing systems and accessories since 1960, with a focus on quality, expertise, and tradition. All their products are made in Italy and manufactured using high-quality machinery and raw materials. They have a valuable technical and project team that allows them to manufacture thousands of products every day. The products are controlled, handled, and certified through the managing quality system ISO 9001:2015.

DURAFLOW manufactures pipes and fittings in various materials including UPVC, CPVC, HD-PE, PP, ABS, PVDF, HP-PVDF and HI-PVC. Their products are certified by BSI9001, CNS, and NSF, and comply with industry standards such as ASTM and NSF International. DFP offers Sch 80 PVC & CPVC pipes and fittings in sizes ranging from 1/2" to 24"

Aquasystem is a reputable company that produces high-quality expansion vessels and pressure tanks. They have received certification from the European body TUV Cert for their adherence to the ISO 9001:2008 standard in their production process. Additionally, all of their tanks are marked with CE in accordance with EU directive 97/23/EC (PED) and have received prestigious international certifications such as ACS and WRAS.

Pegler is a manufacturer of plumbing, heating, and engineering products. They have a strong focus on quality, innovation, and customer service since their establishment. Pegler has achieved BS EN ISO 9001:2015 certification and their products meet and exceed product specification and performance standards.

HakaGerodur is a well-established German manufacturer specializing in pipes for floor heating and drinking water. They offer a comprehensive range of pipes including solid plastic and plastic metal composite pipes (PE-RT/PE-X C & PE-X A).

Since 1981, we have been manufacturing and designing efficient plumbing and heating solutions. We supply fittings, manifolds, mixing units, and radiant panels for multilayer, PE-X, copper, PE, stainless steel, and iron pipes.

Tangit provides professional solutions for bonding and mounting plastic pipe systems. They offer a solution for sealing house lead-ins and metal and plastic pipe connections, high-performance joint sealants, and tools. Their PVC pipe adhesives are designed for connecting thermoplastic pressure pipe systems.

EMC is a manufacturer of aluminium access systems and scaffolding towers, providing both standard and customized solutions for various industries and applications. Their product range includes Ladder Access Systems, Special Solutions for Industry, Air, Rail, and Road, Scaffolding Towers, Manhole Covers, and Drain Test Plugs

SAB is a part of System Group, a European holdings in the supply of piping systems in PE and PP. They specialize in plastic materials for the production of compression and electrofusion fittings, drainage channels, and products for drip irrigation. They are active in irrigation, water and gas, and drainage sectors. Their PP clamp saddles create quick single or double outlets with a nominal pressure of 16 bars and are available in various sizes with different threaded outlets.

We produce high-quality PVC products such as fabricated fittings, puddle flanges, velocity breakers, headers, interceptors, catch basins, gully traps, slotted pipes, sand traps, grease traps, vent cowls, long radius bends, threaded fittings, and fabricated end caps. We use only the highest-grade plastic raw materials in sheet, tube, and solid bar form and comply with international standards.

Engineered for Plastic Piping Systems | Cements / Primers / Cleaners For PVC / CPVC / ABSA specially formulated heavy bodied, medium setting, high strength PVC solvent cement designed for joining larger pipe sizes. For use on schedule 40 and schedule 80 pressure pipes and fittings through 12" diameter. Applications include potable water, conduit, sewer, drain, waste and vent (DWV) systems.
