## About us

OGT Lighting is a one stop shop brand of Oculus General Trading L.L.C. that designs, develops, supplies and manufactures its products in China under the brand OGT Lighting. LED lighting is a cost-saving alternative to the old conventional incandescent and CFL light bulbs. Decrease in energy consumption reduces the demand from power plants and decreases greenhouse gas emissions.

OGT Lighting supplies LED lights which are approximately up to 80% more efficient than traditional lighting such as fluorescent and incandescent lights; 95% of the energy in LEDs is converted into light and only 5% is lost as heat. We provide export services to Saudi Arabia, Kuwait, Bahrain, Qatar, Oman and the rest of the Middle East.

OGT Lighting offers LED decorative lighting products for indoor and outdoor use that caters to commercial, residential, industrial, hospitality and retail sectors. Our range consists of spot lights, track lights, down lights, linear lighting, street lights, facade lighting, decorative lighting, pendant lights, bespoke lighting etc.

We are agents/suppliers for a following products.

### **Rigart Light - Belgium.**

Rigart Light started its journey in Antwerp of Belgium and has since gained its fame in lighting design community thanks to its artistic nature. At Rigart, every lighting device is a piece of artwork. Thus, our designers are highly respected for their innovative ideas.

Since 2011, Rigart Light has been designing and manufacturing commercial and decorative lights for architects, designers, contractors, and distributors. Rigart products range from ceiling spotlights, downlights, track lights, linear lights to pendant lights, wall lights and chandeliers. Rigart Light also provides designing services while Dialux reports to help more customers on their projects. The applications include the hospitality industry, residential areas, showrooms, museums, supermalls, offices, and retail stores.

To ensure performance, Rigart Light also cooperates with famous brands on supply chain, including Philips, Osram, CREE, CITIZEN, Tridonic, Self, HEP, etc. Most fixtures are produced by CNC machines for better product finish. For different solutions, Rigart Light provides various function options: switchable ON/OFF, Triac dimming, 0/1-10V dimming or DALI dimming.

P. O. Box 124510, Dubai United Arab Emirates. [info@oculustrading.com](mailto:info@oculustrading.com), +971 50 414 5824

With a team of 170 staff, Rigart Light is equipped with its own showrooms, laboratory, testing equipment, CNC machines and production lines. From raw material to packaging, we offer the best choices to our valued customers.

Lastly, Rigart Light sincerely invites you to join us as partners on the healthy, eco-friendly and energy-saving LED lighting business.

### **Sundopt LED Lighting Co.,Ltd.**

The LED technology is bringing new orientation and even redefinition to lighting industry. Since established in 2008, Sundopt has been adhering to the new technical trend and vision of “Better Lighting Marks Better Life”.

We are dedicated to providing high-end lighting solutions to office, education and commercial applications. Rooted in the mission of “Making Better Lighting”, our products combine the state-of-art optic solution with a modern aesthetic design concept. The main product range are Linear light, Downlights, Panel lights

Together with Sundopt, we believe we will establish a win-win relationship and create a better light environmental experience for offices, retails, education, healthcare and retail premises.

### **MaxxTec Light**

MaxxTec Light started its journey in Hong Kong with its Belgium partner Rigart Light. and has since gained its fame in lighting design community thanks to its strong ability to support lighting projects.

Since 2015, MaxxTec has been designing and manufacturing all kinds of lighting fixtures for architects, designers, contractors, and distributors. Product range covers ceiling spotlights, downlights, track lights, linear lights to pendant lights, wall lights and chandeliers. We provide budget proposal and Dialux simulation reports for partners if needed.

MaxxTec Light cooperates with famous brands on supply chain, including Philips, Osram, CREE, CITIZEN, Tridonic, Boke, HEP, etc. We provide various functional solutions options: switchable ON/OFF, Triac dimming, 0/1-10V dimming or DALI dimming, and customize services.

With a team of 170 staff, MaxxTec Light is equipped with its own showrooms, laboratory, testing equipment, CNC machines and production lines. From raw material to packaging, we offer the best choices to our valued customers.

### LIGHT SOURCE

We use light sources of leading companies such as CREE, PHILLIPS & SAMSUNG that manufacture good quality LEDs with a high intensity of brightness. They are leaders in the solid-state lighting industry in the brightness and efficiency of LEDs offering a high CRI value for realistic color representation, a broad spectrum of accurately defined CCT with reliable homogeneity for long term use.

### DRIVERS

Our LED lighting range is powered either by TRIDONIC, MEANWELL, PHILLIPS or EAGLE RISE LED DRIVERS that have a wide range of switchable and dimmable drivers that are energy efficient, high quality and long lasting. Using good quality dimmable drivers allows the end user to control the ambiance of the room according to their satisfaction.

### CUSTOMIZATION

OGT Lighting can design and manufacture eco-friendly bespoke LED lighting, pendant lights, chandelier's, etc. as per the Clients' requirements.

Bespoke Lighting Service

### WARRANTY

All products are certified for CE, CCC, RoHS under the standards of VDE, GS and UL and come with a warranty of 3, 5 & 10 years that vary according to the product range and Clients' requirements.

### DELIVERY

Our standard range of lighting is available ex-stock in UAE. Bespoke lighting can be manufactured in 3-5 weeks.
