PARKING SENSORS

The Reverse Camera System is a very useful system that assists drivers during the reversal of their vehicles. It provides a clear view of the rear side of the vehicle, even at night, easing the task for the driver. We supply this system in Wired and wireless options, and our Cameras are top quality High Resolution, IP69-rated Night View Cameras. Our 360 Degree Camera System provides complete coverage of the vehicle with an additional option of MDVR for recording. The Heavy Duty Parking sensors are designed for Heavy duty vehicles to park easily with a detection distance of up to 5 metres.

## INCLINOMETERS

Inclinometers are one of the most useful devices for Tipping Trailers. We find most of the Tipping Trailer rollover accidents are due to unloading on an uneven surface. Our Inclinometers are world-class and hassle-free, easy to install and ensure smooth working. They display the ground level angle for the operator and stop the tipping operation in case the angle is not safe ensuring safety. The Usage of these Inclinometers has saved a huge number of Roll Over accidents.
