DAWAR AL FALAH

FABRICATION & WELDING LLC

دوار الفلاح للحداده واللحام ذ.م.م.

MISSION

To support and complement the ever-increasing variety of steel, stainless steel architecture and design projects throughout the world, with a particular focus on National requirements.

To invest consistently in infrastructure and technical expertise, and to be a leader in the industry by setting new quality and service standards to enhance overall growth.

VISION

To set the standards for quality in the metals sector and to establish DAF as a National brand name in the field of all metal fabrication.

QUALITY-ASSURANCE

The quality policy statement, Dawar Al Falah "The company adheres to and is committed to a quality policy that ensures that all products and services are delivered on time and in full compliance with customer specifications. At all times, the company's goal is to attain the highest levels of client satisfaction.

To give our customers a competitive advantage, we combine a strong focus on quality with advanced technologies.

We place a premium on quality and strive for complete client satisfaction in both our products and subsequent services...

The principles and objectives of the quality policy will be conveyed and made available to all employees at all times. Training will be an important component of the plan for achieving the goals. We are committed to conducting our company in accordance with the disciplines that have been planned and developed in collaboration with our other management functions. We are dedicated to giving our consumers exactly what they want, with the finest quality and consistency at the best price.
