PROFILE

We introduce ourselves as one of the leading Sandblasting and Painting Company in the UAE. Founded in 2013, we have set a benchmark for the UAE sandblasting and painting industry. Our track record relays how we have managed to successfully come a long way, serving various clients throughout UAE to their satisfaction. We have a team of highly competent personnel, who work round the clock to ensure service objective is achieved, on committed schedule, without any compromise to the resulting quality.

THE WORK PLACE

Our facilities include a fully concreted yard admeasuring 20,000 square feet that consists of enclosed shaded area for blasting, open area for storage and an office building.

We are equipped with latest testing and measuring equipment, to prove the quality of service provided, to your desired QA/QC standards.

We also have mobile (portable) equipment that can facilitate carrying out blasting and painting operations at your worksites

INSPECTION

Inspection of the surface preparation and painting shall be carried out after every single stage by our QA/QC inspector and work shall proceed only if the results comply to the required/ specified standards.

We also entertain requests from our Clients for witnessing our operations or station their QA/QC representative to inspect results.

EQUIPMENT HANDLING

Utmost care is taken while offloading or back loading client's equipment on or off the yard.

The finished equipment is loaded on the trucks securely ensuring no damage occurs to the coating or the mechanical entity itself, by means of wooden logs to maintain uniform load distribution and sufficient distance between the loads.
