

PROFILE

Innovative Engineering Products and Solutions

www.aldaqeeq.com

Unquestionable Integrity, Priority for Customer Satisfaction

Our aim is to strive and develop a long-term business relationship with our customers by offering high quality and value-added services, while maintaining the highest ethical standards. Our mission is to combine quality products and excellent service with innovative solution to provide our clients and customers with our engineered products and systems.

Al Daqeeq is an ISO 9001:2008 certified company which provides complete turnkey solutions for commercial and industrial projects serving various fields and processes in the MENA region. Our company is committed to serve in various processes and projects for industrial, commercial and construction sectors.

We execute a wide range of engineering activities for turnkey projects with our extended range of products and services offered.

Our expertise ranges from engineering design to various turnkey projects aimed at industrial, construction and commercial sectors.

Our services division takes care of complete facility management (MEP), Comprehensive AMCs, Retrofit requirements and Cost-Effective solutions for clients in various fields.

Our product portfolio covers a wide range of items to cater to the requirements of the clients and various turnkey projects in industrial, commercial and construction sectors. These include all utility & process equipment & related accessories.

Turnkey Projects

HVAC SYSTEMS

We serve commercial, institutional, and industrial customers both large scale and small-scale systems. We provide HVAC systems for Hospitals, schools, universities, industrial plants etc. We design, build, and install for the most challenging projects focusing on excellence and personalized service to provide the highest quality professional services.

FUEL OIL SYSTEMS

Al Daqeeq specializes in fuel oil systems, where we provide complete industrial solutions including storage tanks solutions, diesel control systems, HFO heat tracing solutions, Tank Management Solutions etc. We provide high quality solutions with our own product range.

AUTOMATION SYSTEMS

Al Daqeeq is a leading technology solutions provider with vast experience in automation and controls in industrial applications. With a reputation for highest levels of quality and service, we deliver innovative, reliable and cost efficient technology solutions for the most demanding technical applications. We mainly specialize in Industrial Automation & RF Technology Solutions.

WASTE MANAGEMENT SYSTEMS

Our Company provides complete solutions for Garbage Chutes System in Hi-rise Residential & Commercial Building complexes. Our product range also offer custom fabricated steel door, steel & plastic garbage trunks, vacuum air technology, compaction products to support our turnkey solutions.

SOLAR WATER HEATING & HYBRID PV THERMAL SYSTEMS

As a supplier of solar installations and ecological energy technology we deliver integrated sustainable energy production solutions. Our product portfolio comprises solar systems for private and commercial users as well as the public sector. We offer complete solar water heating systems, solar hybrid power with water generation system, solar storage system. In the solar water heating segment we are a leading solution provider. With our range of product line we offer new products with heat recovery & energy saving systems.

Turnkey Projects

STEAM AND HOT WATER SYSTEMS

We specialize in designing the steam and hot water systems for laundry and process industry. Our engineers are well experienced in their fields with design expertise with relevant vast Industrial experience earned through many years. We have in depth knowledge of installing various laundry equipment, hot water generation plants and other pharma process & hospital equipment.

COMPRESSED AIR SYSTEM

We develop innovative sustainable solutions that create value for our customers. With our expertise we design, build, install and provide quality service for compressors, vacuum solutions, air treatment systems, hydraulic, pneumatic and assembly systems.

PIPING, CLADDING, FABRICATION & STRUCTURAL WORKS

All kinds of fabrication (SS/MS) internal structural works for industrial & commercial market like service platforms, railings, duct & sheet metal fabrication, metal fencings, piping jobs, pipe cladding, sheet roofing, chimneys & any other metal related works.

REFRIGERATION SYSTEM

Al Daqeeq team of cold storage professionals are well versed in this industry. From preconstruction planning and estimating to successful project management. Al Daqeeq provides complete "Turn-Key" contracting services for single source responsibility.

CATHODIC PROTECTION SYSTEM - In partnership with Aqualis

Al Daqeeq provides cathodic protection contracting services with Aqualis manufacturer Corroshield cathodic protection products for all kinds of industries having tanks & under ground piping. We design, supply and install systems including all site related activities providing all around turnkey solution. We also provide annual inspection services for our installed cathodic protection systems under annual AMC.

FACILITY MANAGEMENT & Maintenance

EQUIPMENTS

- Complete HVAC Maintenance and Refurbishment
- Piping Leak Repairs
- Chilled Water Piping Re-Insulation Services
- Heat Pump Repairs
- PB, PPR, Copper and PVC Pipe Maintenance and Replacement
- Pressure Reducing Valve Maintenance
- Annual Maintenance Contracts (Boilers, Chillers & Calorifiers)
- Maintenance and Repair of Boilers and Calorifiers
- Heat Exchanger Servicing
- Delta T Troubleshooting
- Humidity Troubleshooting
- Chilled water balancing
- Pump Repair Works & Servicing
- VFD Servicing
- Earth Pit Refurbishment

PROJECT MANAGEMENT CONSULTANCY & BUSINESS SOLUTIONS

Al Daqeeq management team consists of a group of highly experienced members in the Industrial sector. Industrialization has been our focus towards growth of private and government sector business models. We provide complete business proposal from all corners of the field ranging from commercial to technical aspects.

OUR EXPERTISE LIES IN THE FOLLOWING FIELDS:

- Manufacturing
- Pipe Handling Systems
- Food & Beverage Process Industry
- Energy Modeling
- Detail Engineering
- Chemical Industries
- Utility & Process procurement expertise with a wide range of products serving from Al Daqeeq as well as outsourcing quality & cost-effective products.
- Engineering operations & production process management consultancy.
