About

Rich Stone

Rich industrial supply, represents and provides sales and marketing services for international companies. The selection of companies to represent is based on the Principal reputation, high standard and quality of products and services. Our expertise and knowledge of the local market and customer needs also plays a major role in selecting the best principal.

Our company has a highly qualified professional sales team.

Quality

Quality matters for us and we have placed it on the top of our criteria list while approaching any manufacturer or service provider to work along with. Having a high-quality service we are assured that we stay aligned with our integrity while we are promoting it to our customers and further during its lifetime, that good quality will remain in the sight of the end user as an advertisement flag of our business. In line with industrial automation we have selected well-known brands for their quality which complies with the highest international standards where the details will be given in the coming pages.

Expertise

The qualifications of our people make us stand out. We have brought together many years of experience in different fields including, software engineering and general trading (import and export) which are obtained in Europe, United States and Middle East.

These long years of experience have provided us with an adequate understanding of the Middle East market, awareness of its code of practice and common formats and practices of projects, hierarchy of organizations and international standards.

Management

Management structure

Our staffs carry out various functions aimed at supporting and representing our partners, giving them a voice at international level and providing them with high quality and high-level standard performance.

Oil & Gas

Development and Manufacturing Offices

To support our clients in each field, we have other development / manufacturing / partner offices in China and Germany . Staffed by dedicated regional team members for a better regional support and supply to regional companies. Fieldworkers recruited directly from partner projects aid them.

Head Office Team

The staff team based in Istanbul consists of Chief Executives, Assistant Chief Executive, project managers, sales manager, plus further members of staff dealing with information, publications, administration and finance.

The branch office is located in Dubai.

Oil Field Supply

Our selection of global technology companies to represent is based on the Principal reputation, high standard and quality of products and services.

Our expertise and knowledge of the local market and customer needs also plays a major role in selecting the best principal.

Our division has a highly qualified professional sales team who are always available to promote and market the products of our Principals and to give all the necessary support expected from the Principals to the clients.

Vision & Missions

Our Vision is to become a unique client-focused logistics service provider and suppliers of quality products in the global oil, gas and energy industries.

Vision Statement

THE NATURAL PARTNER Rich recognizes that its partners and partnerships are valuable. The company understands and appreciates its partners' circumstances, needs and goals, and delivers on given promise. Rich respects the individual, help others to succeed and contribute to a positive working environment.
