# INTRODUCTION

MS Plastic Tools is managed by a team of highly qualified professionals with remarkable experience in high precision mould making, in the Tooling and Moulding field. Our goal is to try and fill the void in this part of the world for Good Skilled Tooling persons and equipment.

Our tool room is equipped with High Precision CNC Milling Machines with bed sizes varying from 750mm to 1400mm as well as state of the art EDM machines. We specialise in High Precision Laser Welding for any type of tool steel welding, which will give the same finish as original.

We also boast an assemblage of all the conventional machines like the Lathe, Milling Machine, Radial drilling, Surface grinder as well as Tool and cutter grinder etc.
