About Us

SABZ International is endeavoring to build a presence in the United Arab Emirates for the supply and installation of laboratory furniture and equipment. We develop and build up laboratories for key industries (such as education, industrial, research, hospitals, pharmaceutical, and petroleum), as well as providing the essential equipment.

MISSION

- By 2025 we aim to be among the top firms providing world class safety equipment for the oil, gas, water and chemical industries, and optimum designs for laboratory by sourcing of lab equipment for all major sectors in the UAE.

VISION

- Our Vision is to bring about high safety standards in oil, gas, water and chemical industries by providing world's renowned products for a safe working environment and laboratory design that provides our customers the best professional environment to work.

Our core values are

COMMITMENT,
INTEGRITY,
DEDICATION
AND
PROFESSIONALISM

01 Committed to Client's

Our commitment to clients is to provide technologically proven products towards safety in day-to-day work and design laboratories of world class standards by keeping up to the latest development.

02 Honesty is our Policy

We shall work with Integrity to provide absolute transparency in all our work for total satisfaction of our customers.

03 100% Dedication

We promise total dedication in all our work environs through our competent attitude and professional ethics so as to showcase our commitment in all our endeavors.
