## Industrial Work Wear

To withstand demands of physical jobs and to increase productivity for the organization, we believe comfort and functional uniform is essential for the employees. There are range of options such as coveralls, shirts, pants, cargo pants and jackets that can be customized accordingly to the needs of your organization.

## Hospitality

With sound experience in tailoring, our pattern masters are more than capable to produce the garment or uniform that will fit your staff well, and deliver a professional, modern and timeless image. From chef coats and aprons to housekeeping and front-desk attire, our customized solutions enhance professionalism and brand identity.

## School Uniform

Students wear uniforms as a form of sense of belonging and identity. We can provide customized uniforms with embroidery and printing solutions based on your organization requirement.

## Custom Uniform – Corporate

We are the corporate uniform specialist whom you can trust. From executive suits to office uniforms, our customized solutions ensure comfort, durability, and a perfect fit.

## Healthcare

We specialize in high-quality healthcare uniforms designed for comfort, durability, and professionalism. From scrubs and lab coats to nurse and doctor uniforms, our bespoke solutions ensure a perfect fit while meeting industry standards. With breathable fabrics, easy-care materials, and custom embroidery options, we provide uniforms that support healthcare professionals in delivering their best.

## Sports Wear

At Hamida Garments, we provide high-performance sportswear designed for comfort, flexibility, and durability. From custom team jerseys and tracksuits to breathable activewear, our tailored solutions ensure maximum mobility and style. Using moisture-wicking fabrics and advanced printing techniques, we create sports uniforms that enhance performance while representing your team's identity.

## Security Uniforms

At Hamida Garments, we design and manufacture security uniforms that combine durability, comfort, and a commanding presence. Our range includes tactical shirts, trousers, and jackets tailored to withstand demanding environments. With high-quality fabrics, reinforced stitching, and customization options like embroidery and reflective detailing, we ensure your security team looks professional and remains prepared for any situation.

## T-Shirt & Polo Tee

There is a wide array of Polo T-Shirt and Round Neck T-Shirts of different fitting and materials to be chosen from. After which, it can be customized by having logo embroidery, printing that helps creating brand awareness for your company.

## Bespoke

We offer our customers a “made-to-measure” service to make the costume perfectly for you. Our expert stylists and cutters have a strong input into this clothing line while following your taste and outlook. We ensure that the tailored ensemble is tastefully crafted to suit your panache.

## Our Machinery

### Roland True VIS VG-540

The Roland TrueVIS VG-540 is a large-format printer/cutter with advanced printing and cutting capabilities

It can print Customized designs that are transferred onto Polo T-Shirts, Shirts, Jackets and Uniforms through heat transfer.

### Heat Transfer Machine

This is a Heat transfer machine which is used to apply printed designs, graphics or patterns onto fabrics, using heat and pressure.

Commonly used for customizing T-shirts, uniforms, caps, and other apparel.

### DTF Printing Machine

This is a DTF Printing Machine (Direct-to-Film), which is a specialized printer used to create high-quality, durable designs on fabrics by printing on PET (Polyethylene Terephthalate) film and transferring the design onto garments using heat and adhesive powder

We can make any kind of customization and is suitable for producing opacity on dark fabrics

### Multi-Head Embroidery Machines

This is a specialized device that automates the process of creating intricate designs, patterns, or logos by stitching them onto fabrics.

Any kind of customized logo can be stitched on apparel for branding purpose.
