Why Choose Us?

MESSAGE FROM MANAGING DIRECTOR

SHAMIM AHAMMAD
MOHAMMAD IDRISALI

**“Let’s Build Something
Creative Together”**

Shamim Ahammad was born & brought up in Bangladesh. After getting degree in business management he came to UAE & started the building material trading in 2016 where he started manufacturing concrete blocks & trading of other building materials. Later he added other products in his trading like steel fence, car parking, cat ladder, chain link fence etc....

As a leading regional building materials brand, we aim to continually introduce better products and improved services that will enhance the standards of living and the well-being of our society. We aim to achieve this through the commitment and dedication of our team and the support of our suppliers. We believe that providing our customers with exceptional service, quality, and value will not just strengthen the trust that our clients place in us, but will also deliver exceptional returns to our shareholders.

PVC ECO HOARDING / VINYL FENCE

Our fence is constructed from a revolutionary vinyl material that is stronger than wood, lasts longer than wood, is able to absorb high impacts, and retains its shape and colour for life. Available in white, the Fence is the ultimate fence for equine safety and property beautification. Safety, beauty and strength - with a lifetime guarantee.

- 1** PVC fence can keep its good looking for years which are longer than steel fence.
- 2** It is a kind of fence with safety which can protect animal from being attacked.
- 3** Low maintenance: you need not to paint or stain.
- 4** It will not crack, chip or peel.
- 5** Our vinyl fence is environmental friendly.
- 6** We can offer any length or size according to your needs.

PCC & RCC BLOCKS

Al Qasas Fence Technical Services LLC UAE are the leading manufacturer of Concrete Foundation Blocks. Creating heavy duty concrete foundation for the retention of any product that you might have. We have a wide variety of applications that incorporate a bespoke lifting pin. This means our blocks can be laid onto any suitably solid surface to create bay dimensions of any size. These blocks can use in many applications such as in fencing, posts, sign boards, etc.

This makes our Concrete Foundation Blocks a more cost effective, robust and longer lasting solution than the standard Shaped Wall Panels.

- 1 600*400*200 with bolts & holes.
- 2 400*400*200 with bolts & holes.
- 3 600*400*400 with bolts & holes.

CAR PARKING

Your car can turn dull, oxidize and fade due to pressure from ultraviolet sun rays. Just as your skin burns from too much sun, a car's paint also feels a certain degree of damage. Car parking shades protect the car against storm, rain, and dust; it also protects it against insect invasion. It can protect the interior plastic components from getting damaged. It helps to maintain or cool the car's temperature. Car parking shades ensure adequate security and safety to the car in the day and night.

Types of Parking Shades

Cantilever car parking shades

Pyramid shape

Arch design

Sail design

Wave design

K-span car parking shades and much more.

We're here if a highly experienced car parking shade supplier or manufacturer is all you seek! We are just a call or mail away from meeting your demands. We are known for our outstanding execution of prestigious projects. Despite the type of parking shade, commercial or residential, we bring those imaginary designs to the limelight.

TEMPORARY CROWD CONTROL BARRIERS BARRICADES/ ROAD BARRIER

Al Qasas Fencing & Technical Services LLC not only offer you a great solution to managing crowd control and keeping people out of potentially unsafe areas, but our barriers are also:

Easy to use and of the highest quality – making them a safe choice for public and workplace safety and security.

Affordable – we keep our prices competitive, working with our customers, always.

Made to last – our pedestrian barriers are strong and durable, meeting all industry standards.

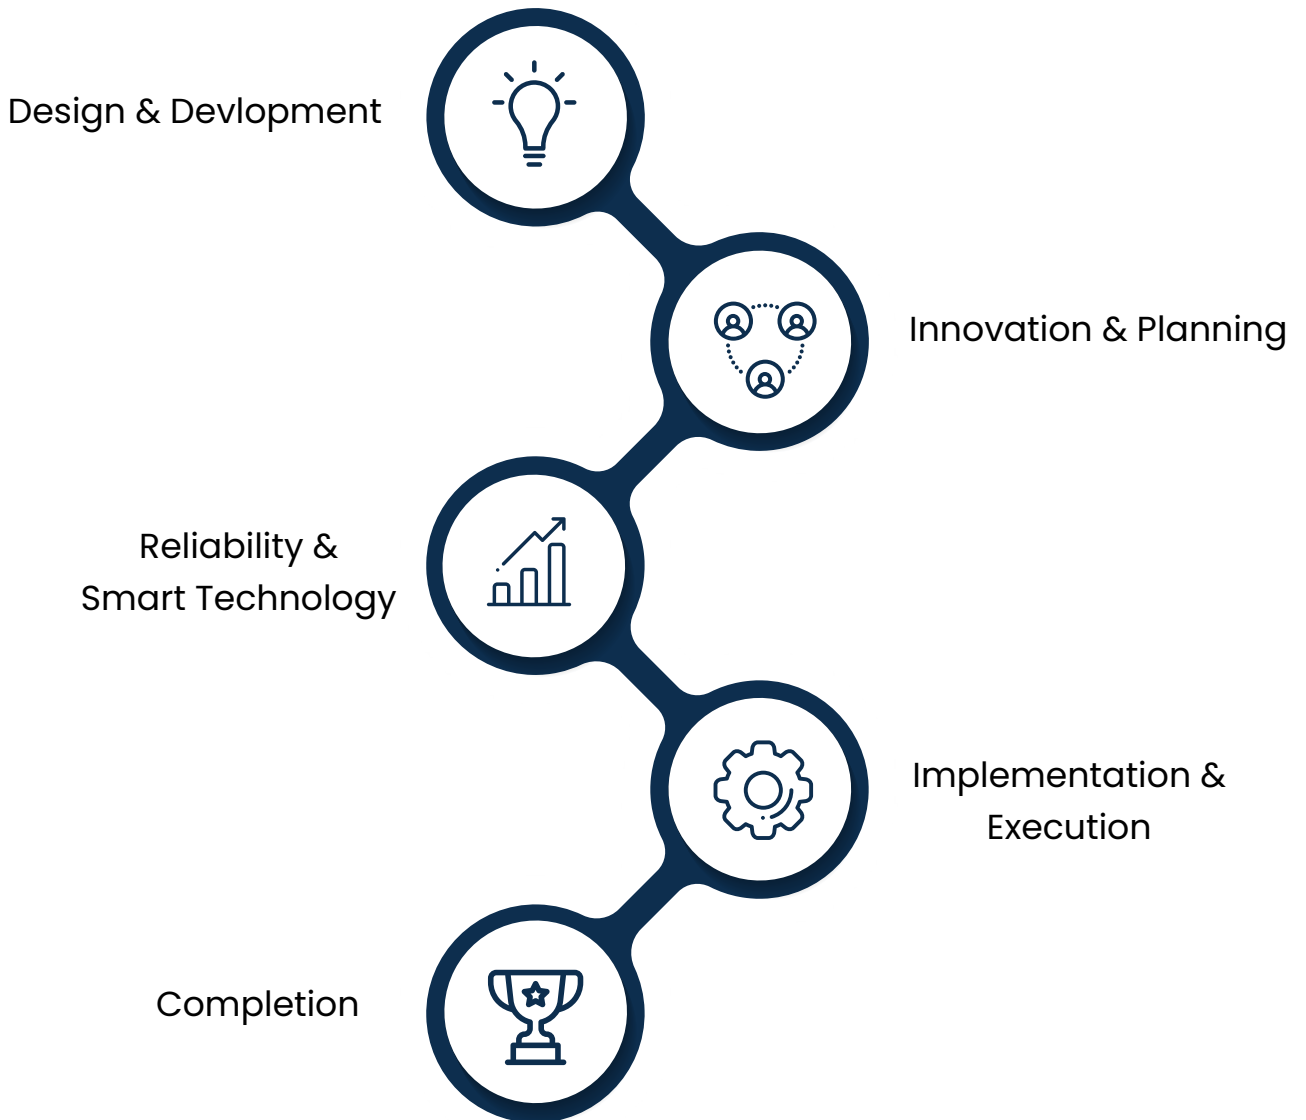

Easy to store, stack, and manoeuvre – making them a flexible and adaptable option.

Link together – helping to create an extended chain that ensures no one can slide through at any stage.

Designed for all situations – for example, we offer different sizes in our metal barriers, they can come with fixed legs and feet to provide you with a more stable fencing system, and they are rust-resistant.
