Our History

Stone Zone Sands Trading has been launched for supplying a complete range of Rocks, aggregates, sands, Stones used for cladding, gabion walls, decorations, Granite, Limestone, Sandstone & Slate in the domestic market as well as exporting internationally. Stone Zone is backed by many of the most successful quarry brands. The natural stone mined from these quarries is brought to life & presented by Stone Zone with its own UAE based facilities like cutting, finishing & water jet. Thus, Stone Zone is able to offer any stone, any size, any thickness to suit every type of project. Numerous lavish projects have been executed over the last decade in & around UAE, and various parts of the world with stone supplies from Stone Zone. The enormous variety, finishing & ability to supply large quantities are what have been Stone Zone's biggest assurance to domestic & international customers.

Stone Zone Trading are well-known supplier of Rocks Boulders and coloured aggregates, Natural Pebbles that are widely used in Hardscaping and Decorative Garden Parks in UAE, an established company supplying a variety of natural stones, cobbles and pebbles.

COMPANY MISSION

Our mission is to provide the best possible curated stone from nature to enhance the design value of a project. Our yearning to eventually become the most admired, ethically and socially responsible brand is rooted in the adherence of the DOs and DON'Ts that are prescribed for the team that works towards customer satisfaction. We strive to build long term relationships based on mutual trust and respect. Our duty towards nature and its perishable minerals is perennial.

A well-known supplier of Natural Stone Products.

COMPANY VISION

We aim to become a premier brand that understands and satisfies customers through quality products at fair prices with timely deliveries; a brand that evolves consistently; a market leader in our segment through sourcing of nature's best Hardscaping Products. We also envision becoming an inspiring brand for competitors so the segment eventually progresses through competition and evolution.

PEBBLES, COBBLES, CLADDING & STEPPING STONES

This is a geographical list of natural stone used for decorative purposes for Hardscaping and garden parks decorations.

The dimension-stone industry classifies stone based on appearance and hardness as either "granite", "marble" or "slate".

The granite of the dimension-stone industry along with truly granitic rock also includes gneiss, gabbro, anorthosite and even some sedimentary rocks.

Natural stone is used as architectural stone (Hardscaping, construction, flooring, cladding, counter tops, curbing, Stepping, Artificial lakes, ponds, pools etc.) and as raw block and monument stone for the funerary trade. Natural stone is also used in custom stone engraving. The engraved stone can be either decorative or functional.
