We have been in the Security Business for over 33 years in the Middle East region and our products are approved and used by all Oil and Gas, Infrastructure, Roads, Airport etc. Companies worldwide to protect their Installations.

Facilities and Manufacturing Capacity

We have modern facilities for the production of high-quality ferrous wire and structural products. With plants spread over a total area of 265,000 m² and Built Up Area of 100,000 m² and hi-tech equipment from USA, Europe & Japan, we have developed a truly unique ability to supply superior material under very tight schedules. It is precisely this dedication to reliability, delivery and quality that give us true advantage over our competitors.

A combination of highly skilled manpower, coupled with modern manufacturing capabilities together have ensured that we conform to major international specifications under strict quality control.

Various Public Works Departments, Municipalities, Military and Defence Departments in UAE, Middle East, South East Asia, Europe and other regions have approved and used our products for the last 33 years.

Our Security products like Fencing systems, Concertina Barbed Tape and Barbed Wires have found application in Defence, Border Security forces, Prisons and other sensitive military establishments in Iraq, Afghanistan, UAE, Saudi Arabia, Thailand, Singapore, Yemen, UK etc.,

This has helped us in getting various certifications and approvals from reputed international agencies and authorities. Some of the product approvals, certifications and memberships include -

- British Board of Agreement, BBA (UK)
- COPRO Authority, Belgium
- NF ACIER from AFNOR, France.
- American Fence Manufacturers Association etc.
- ISO 9001, ISO 14001 & ISO 45001 Certification from Intertek
