## 02

### Design And Calculation

We offer our clients a unique tailor made collaborative approach to meet individual requirements.

The company has earned the reputation for delivery of complex projects with the highest quality in a timely and professional manner.

Al Assala A/C Contracting LLC has a dedicated team of project managers and highly qualified engineers have proven technical expertise to formulate preliminary design concepts, draft client recommendations including commercial, industrial and Residential Projects.

## 03

### Duct Fabrication

Al Assala has been providing Duct Fabrication services for almost two decades in the UAE. With time and experience, we have made our mark in the field. We have specialized in all kinds of duct fabrication services and you won't regret choosing us for the same reason. Once the work is assigned, we will deal with the entire process from installation to service. With our adept and agile team, the installation of ducts is no more a time taking process.

Big buildings cannot do without a proper system of ducts for smooth ventilation and working of businesses. There are two major kinds of ducts and we provide both.

## 04

### Ventilation Works

Who would not want to breathe fresh air? And this goes the same whether you are outside or inside the building. But it becomes a lot harder to get a whiff of soothing air if you are in an office building or a mall. Well worry not, we are here with the exact solution to your problems. With 18+ years of experience in the field of installations, we have the expertise and knowledge that can guarantee you a proper ventilation system for your building.

## 05

### Smoke Management System

Smoke management is one of the major areas that need to be focused on and dealt with extra precaution. And work should be done only after studying the internal compartments of a building.

Al Assala has been working in the field for 18+ years and has served more than hundreds of clients in the UAE and abroad. With our expertise and talented team, setting up a Smoke Management System will be a piece of cake!

## 06

### Service & Maintenance

We have been in the market for numerous years and we have catered to varying needs of our clients having different requirements and specifications. Our services are widely sought-after in the market by a range of our clients chiefly for the quality we are able to maintain and the client-centric approach we render with each project we undertake. We have a team of experienced air-conditioning technicians and professional who know how to carry out each project with greatest possible care and satisfaction
