---

# PVD - WHAT IS IT ?

- ◆ **Physical Vapor Deposition on metal which provides desired colour and long last coating and premium finish**
- ◆ **Our chamber size 3mtr (H) x 2mtr (dia)**

## **ELECTROPLATING-WHAT IS IT ?**

**Electroplating is the process of using electrodeposition to coat an object in a layer of metal(s). Engineers use controlled electrolysis to transfer the desired metal coating from an anode (a part containing the metal that will be used as the plating) to a cathode (the part to be plated).**

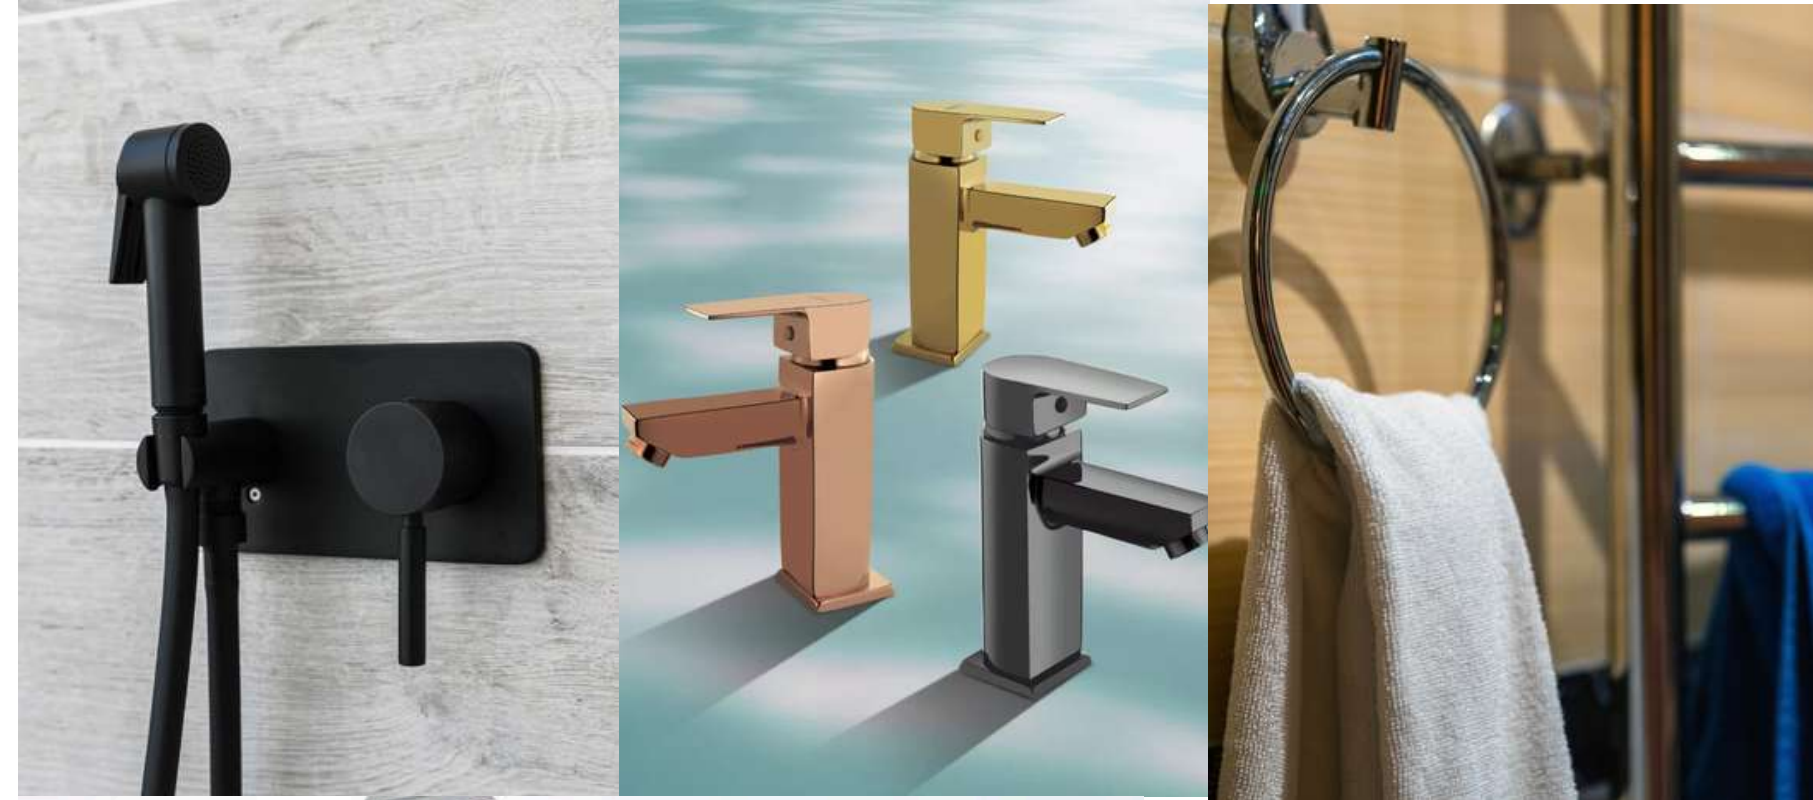

# IRONMONGERY

**Ironmongery, in its broadest sense, refers to the hardware and fittings made of metal, including items like door handles, hinges, locks, and brackets. The term has expanded to include items made of steel, aluminum, brass, and other metals. It can also refer to the place where such items are sold, primarily for domestic use.**

# SANITARYWARES

## Bathroom fixtures & fittings

- mono basin
- pop up waste
- backsplash.
- basin.
- bath.
- bath rack.
- bathroom fittings.
- bathroom suite.
- bathtub.
- bidet.

## **KITCHEN EQUIPMENTS & WINE CHILLER CABINETS**

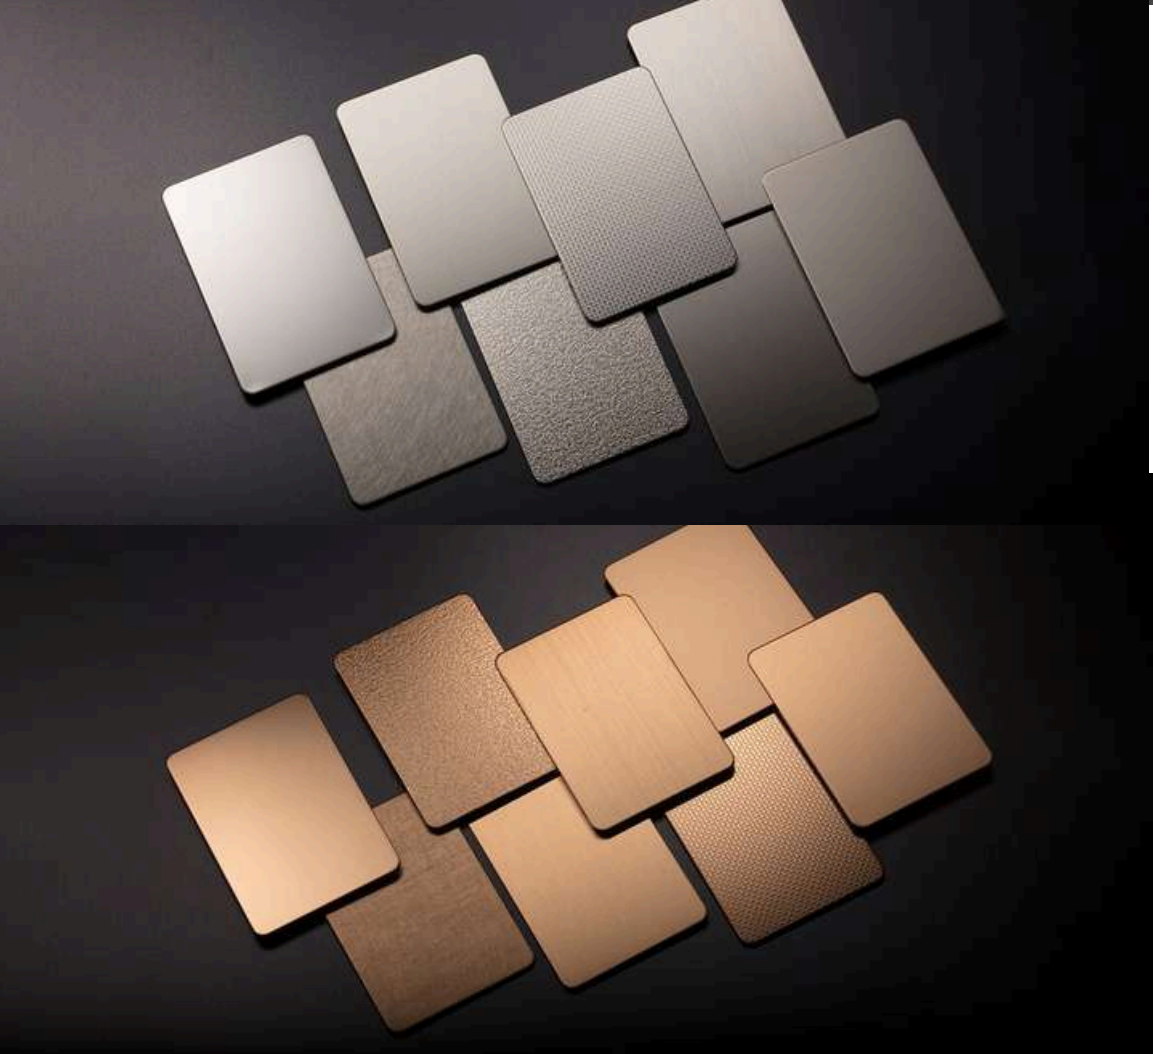

**Stainless steel and metal cabinets refer to storage cabinets constructed from metal, most commonly stainless steel due to its durability, resistance to corrosion, and ease of cleaning. These cabinets are frequently chosen for kitchens, laboratories, and other environments requiring robust and hygienic storage solutions.**

# TABLE TOPS & BASE

**Metal table tops refer to the surface or top of a table made from metal materials. This includes various metals like zinc, aluminum, stainless steel, and others, each offering different aesthetics and durability. The phrase simply describes a table's tabletop material, specifically when that material is metal.**
