ALSHAB AC EQUIPMENT TRADING LLC, an ISO 9001:2015 certified company, is an importer and distributor of all types of mechanical (AC), electrical, and plumbing materials, equipment, tools, and other products, representing many reputed brands as a distributor. Our range of products includes AC components, air outlets, compressors, pipes, cables, wires, wiring accessories, plumbing pipes and fittings, water heaters, accessories, general hardware, tools, etc.

ALSHAB AC EQUIPMENT TRADING LLC is a Trading Company. The company mainly deals in electromechanical products. MEP Products Trading was established with the sole aim of promoting quality brands at reasonable prices. We have a strong distribution network covering the entire UAE, with separate sales and support staff allocated to each area, ensuring proper and timely service. We have dedicated departments servicing different segments like distribution, projects, end users, MEP contractors, construction companies, project suppliers, government institutions, interior decorators, fire and safety, oil and gas companies, etc.

ALSHAB AC EQUIPMENT TRADING LLC has its own centralized state of art warehousing facility of more than 2000 sq ft at Ajman. With its corporate office based in the Northern Emirates and branches in Dubai.
