Objectives...

This statement sets the guidelines for our the management and staff

PURPOSE

We are specialist in Entrance Automation Systems & Management. We customize special applications and deliver competent service accordingly. In continuously improving our skills and applying innovative methods we aim to be the number 1 in UAE with our core business.

BUSINESS

We concentrate on our core business and pledge to satisfy each of our customers with quality products and services. We are aware of our daily responsibilities and always try to exceed the expectations of our customers. Each one of them can rely on our attention, commitment and on-time delivery. All is void without customer satisfaction.

Our future as an independent company rests on our cost-consciousness and solid financial planning. Profits are necessary for investments and job security.

VALUES

We are honest, reliable and trustworthy. Long term perspectives are as important as short term performances. We are proud of what we are doing.

While economic considerations dominate the daily business, we are committed to the intelligent use of scarce resources. Safety and reliability always have top priority.

We want our staff to enjoy their work. Continuous training, transparent structures and competent leadership help to achieve employee satisfaction.

Our values...

EFFICIENCY

We guarantee our products with utmost reliability and flexibility for end users.

PROFESSIONALISM

We are professionals with a combined work experience of more than 30 years in the field of Entrance Automation, which has allowed us to cater to the needs of our client with utmost care and precision.

COMPLETENESS

We offer complete solution for all your needs of entrance automation & management systems. With up to date products and services, we provide one-stop-shop experience to the client.

GREEN

We care about environment and energy savings, therefore we scrutinize our offerings to be eco-friendly and sustainable as per local standards.

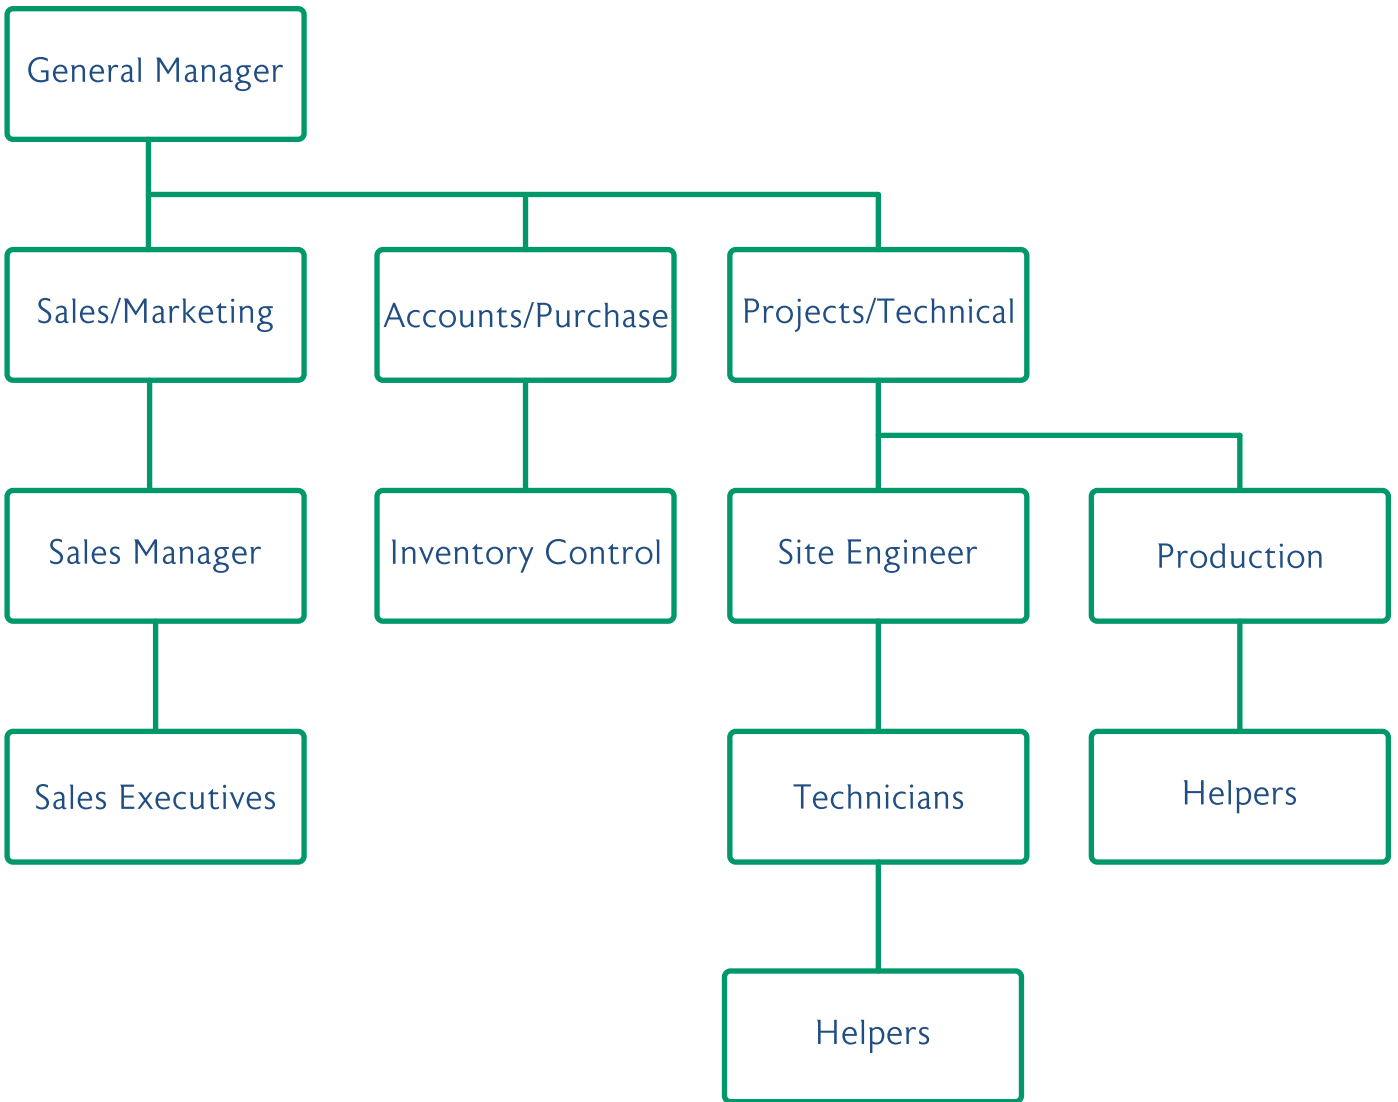

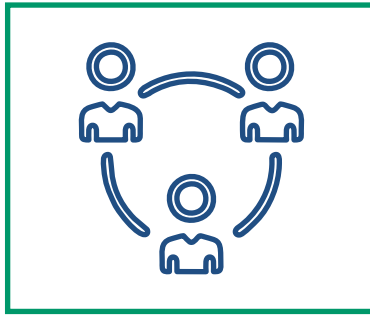

SAFETY

We offer a vast range of accessories and safety devices to totally protect end users against the hazard of crushing and accidents.

DESIGN

Not just efficient and professional, but beautiful too. Our products stand out for their modern, captivating design and suitability for any environment, whether domestic or industrial.

ROLLER SHUTTERS

Our state-of-the-art Aluminium and Steel Roller Shutters offers excellent security and wind resistance making them an ideal choice for warehouses, industrial units, garages, workshops, hospitals etc. to accommodate medium to heavy usage.

The roller shutters can be supplied with either a single skin or alternatively a double skin insulated or non insulated slats of varying pitches .

Our dedicated craftsmanship is a symbolism of perfectionism in our rolling shutters. Depending on the weight, size, usage environments and other affecting factors, we offer a variety of roller doors specific to the project & budgetary requirements

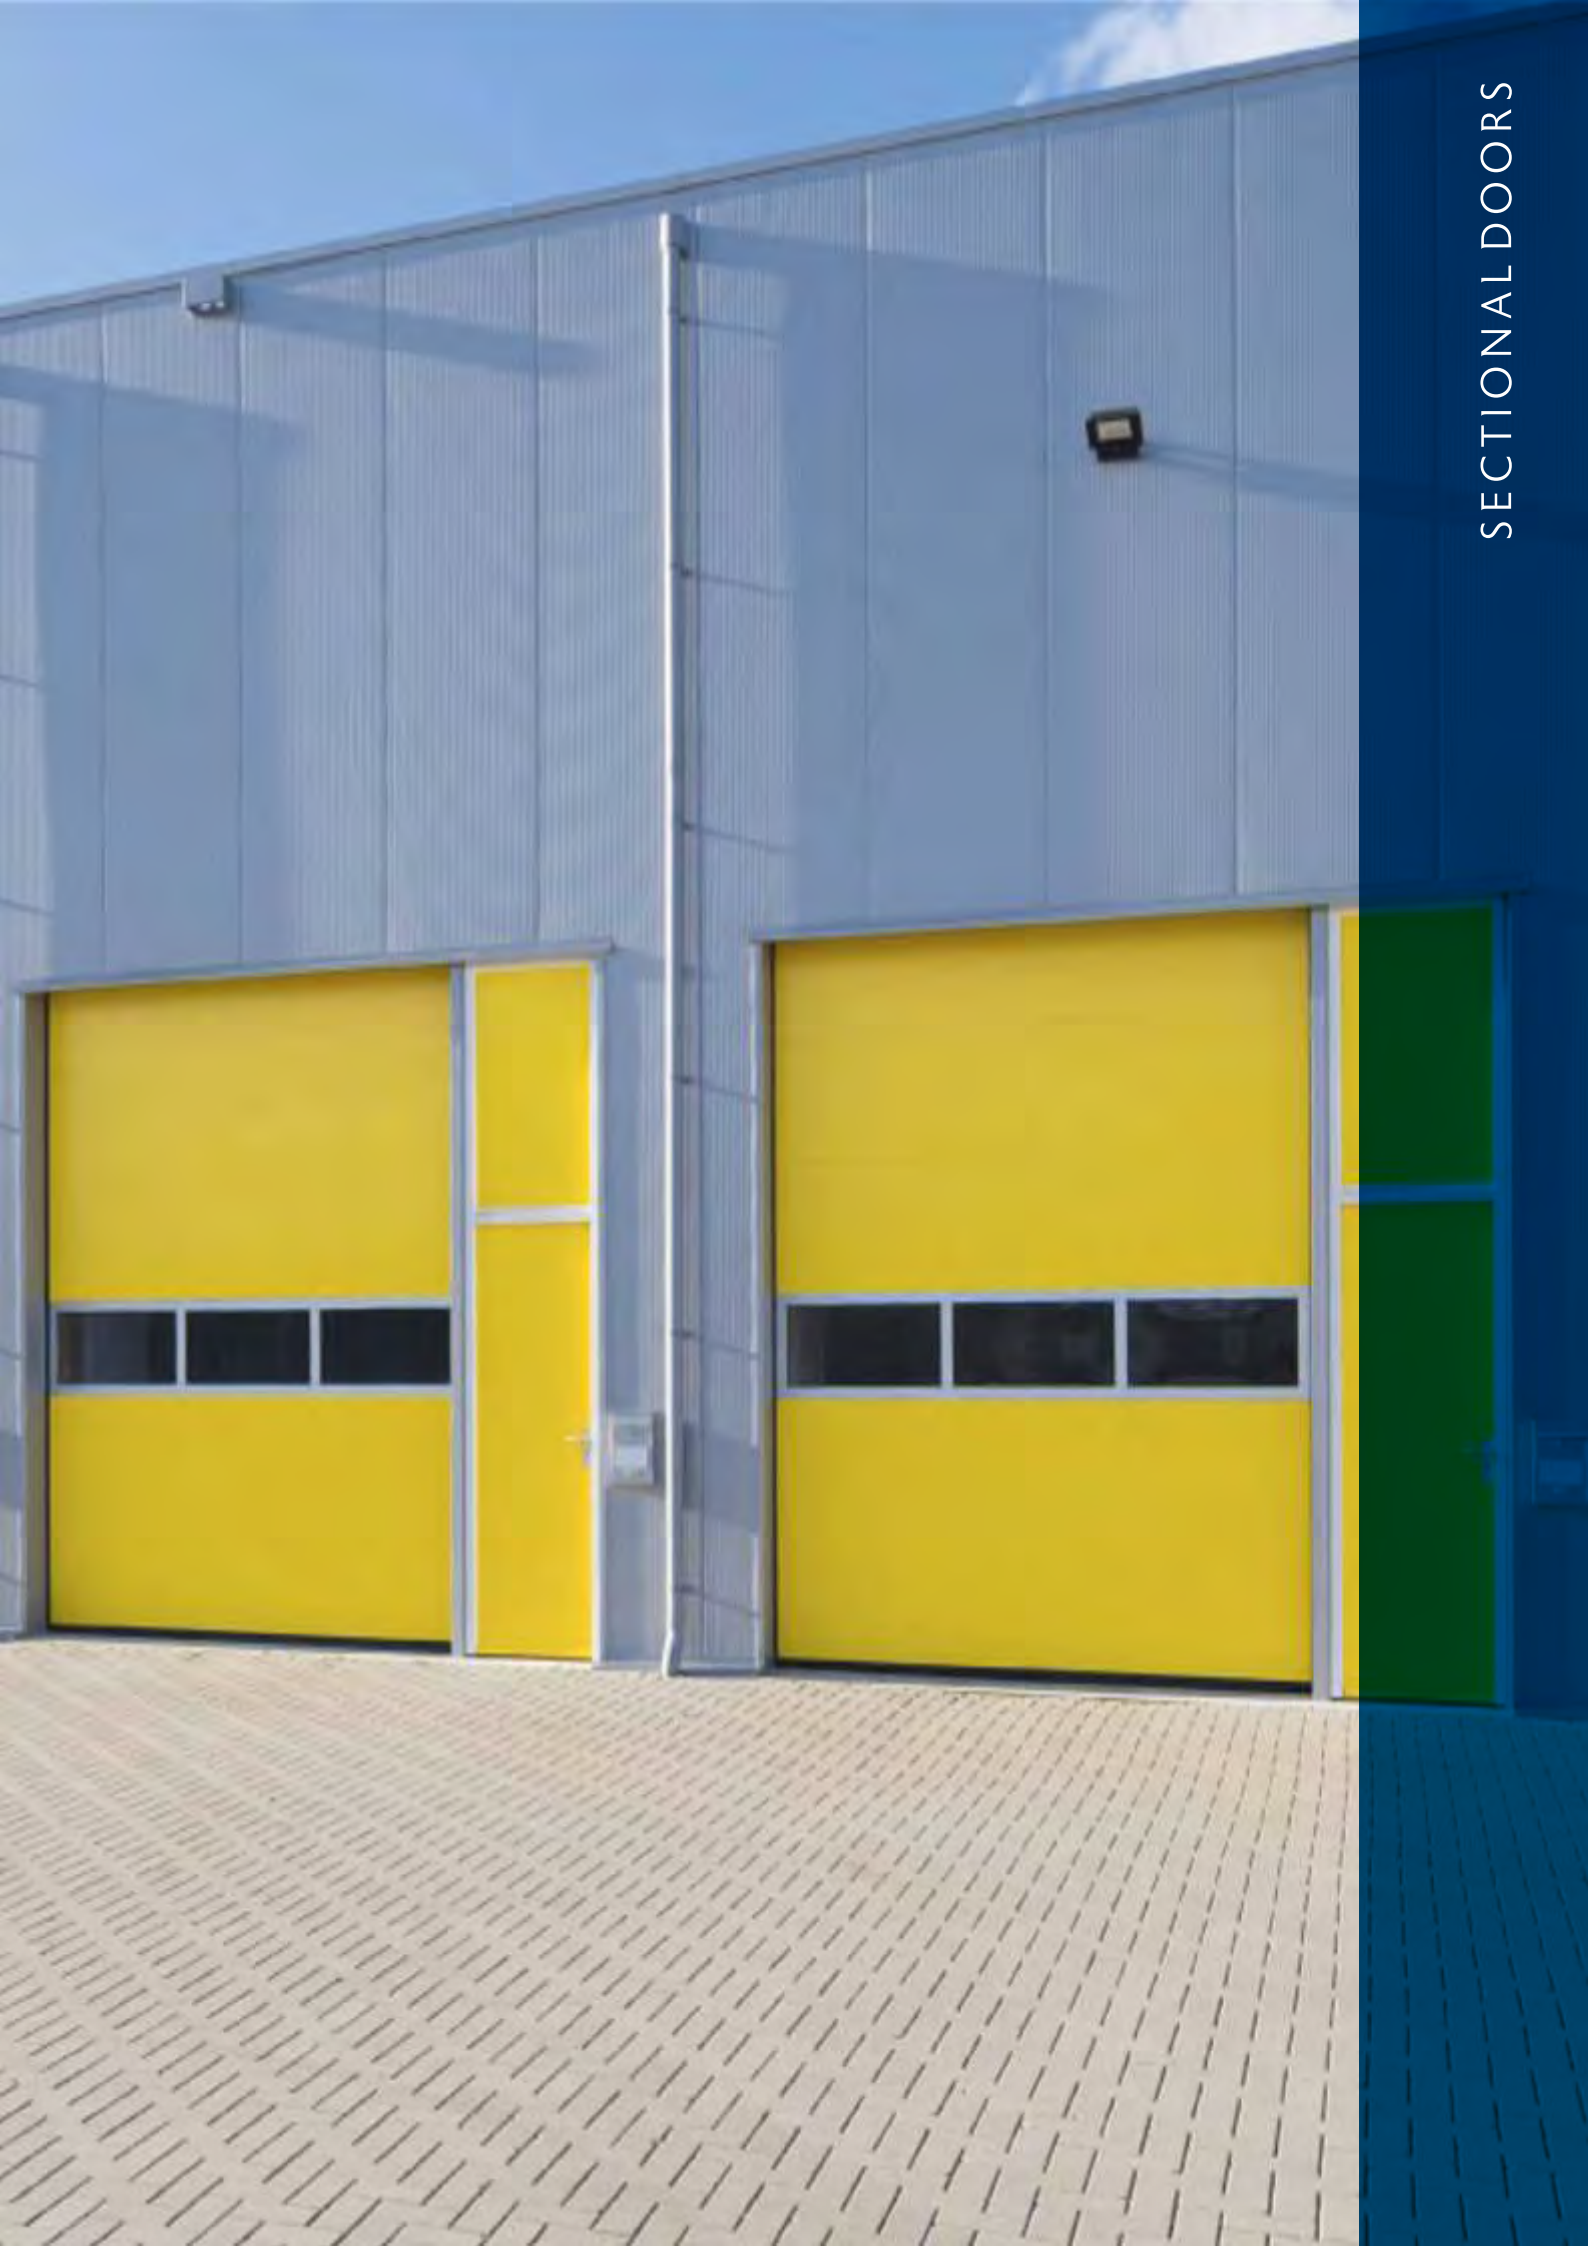

Fire rated roller shutters are specifically designed for fire-rated openings and escape routes. In the event of a fire, they are designed to stop the spread of smoke and flames through a building.

Fire shutters are required by building codes and make an excellent proactive measure for preserving property and reducing liability in the event of a fire.

Our fire shutters can be manufactured as per European or American specifications depending on the project requirement. They can be manufactured to withstand the fire for up to 4 hours,

SECTIONAL DOORS

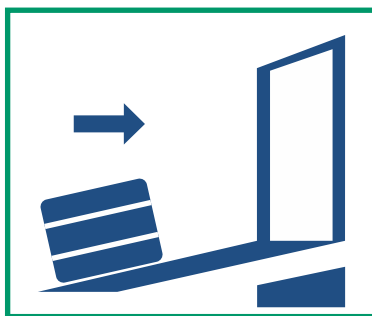

We offer the best value residential and industrial sectional overhead door, which are the most trusted by architects, building design consultants and end users.

These doors are chosen for various applications such as:

- Car Dealerships
- Farms and Stables
- Fire Stations
- Docks for cold storage warehouse
- General Warehouses
- Indoor Parking
- Military Installations
- Saline Environments

The doors provide a barrier against heat & sound to the inside of the buildings. The doors can be installed with different types of settings like standard lift, high lift or vertical lift, depending on the installation area & the liking of the end user.

We offer a wide range of products in order to fulfil your requirements for industrial loading and unloading systems.

All the products are manufactured in Europe strictly complying to all regulations and standards as applicable.

The products are subcategorised as below:

- Fast Action Doors
- Dock Shelters
- Dock Levelers
- Dock Bumpers

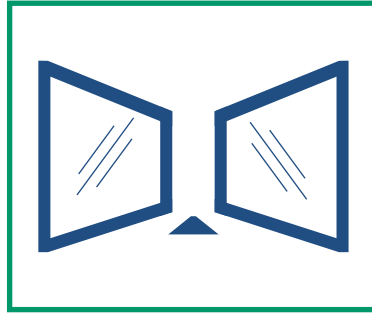

SLIDING DOORS

Our Automatic Sliding Doors can be offered for wide range of settings. Our sophisticated products are designed to provide reliability in a wide range of application in offices, shops, towers, hospitals, airports and supermarkets.

Automatic Sliding Door comes in three types of configuration which are Single Sliding, Bi-parting and Breakout or Telescopic for a wide clear opening. In each configuration, the door panels move in opposite direction creating a wide space for speedy access.

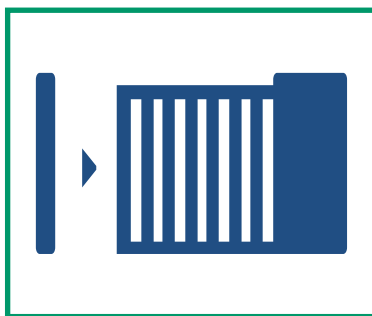

Our Automatic Swing Door variants meet or even exceed the industry standard while maintaining the architectural complexity at its best.

We offer a versatile yet reliable alternative to the sliding doors. Our specialized variants for the swing door operators can be easily retrofitted above the door and can be worked out tirelessly 24x7.

SLIDING GATES

We offer full range of sliding gate operators from Italian and German manufacturers for different size of sliding gates ranging from 200kg to 4000kg at the max.

These operators offer capability to be put to use in all type of installations like residential, condominium, intensive and industrial

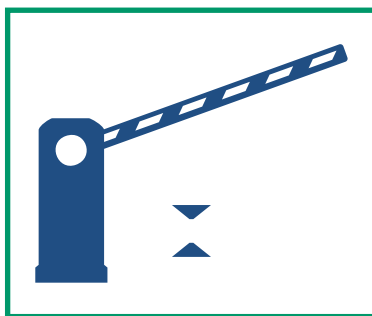

We offer a full range of swing gate operators from Italian German origin.

The swing gate operators control all type and size of swing gates from 1.8m to 7.0m of leaf width. These products are designed to provide reliability in different type of operational environments ranging from residences to industries.

Our portfolio for the swing gate operators include Electro-Mechanical as well as Hydraulic gate operators.

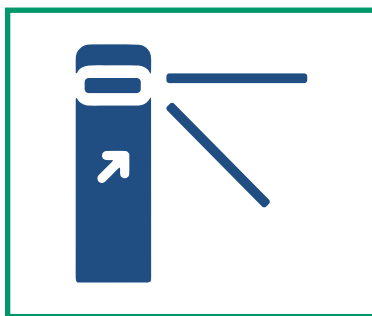

Access barriers keep order at events, municipal services, or in areas with vehicle traffic. We offer two types of Access Barriers for Vehicular Traffic.

- Gate Barrier: The movable arm raises and lowers to allow the vehicle to enter or leave the building.
- Automatic Bollards: They are visual deterrents to both vehicular and pedestrian traffic.

ACCESS GATES

Access Gates are installed in commercial buildings to restrict the access of general public. We offer two types of Access Gates for Pedestrian Traffic.

- Hidden Gates: The glass or metal leaves protrude to stop the people from entering the area of restriction.
- Turnstiles: They are like metal cage installed to allow the public to enter in an orderly manner with access.
