EQUIPMENT DEVICES TRADING L.L.C

COMPANY PROFILE

-  Rental of Equipment with Survey
-  Supply of Land Survey Equipment
-  Calibration of Equipment
-  Topographical Surveys
-  Underground Surveys

INTRODUCTION

Beehive Measurement and Control Equipment Devices Trading L.L.C is a trusted Measuring and Trading Company in UAE, offering high-accuracy measurement and control equipment for various projects. As one of the reliable equipment trading companies in Abu Dhabi, we specialize in measuring and trading devices, ensuring precision, compliance, and quality in every project.

High Accuracy
Precision you can rely on.

Quality Assured Every
Product Meets global standards.

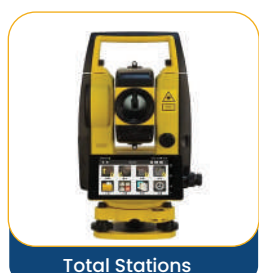

THE SUPPLIER OF LAND SURVEY EQUIPMENTS

As a premier distributor of precision measurement technology, we proudly serve the surveying and engineering sectors. We provide comprehensive solutions including the sale, servicing, and rental of both new and re-conditioned surveying and laboratory equipment, alongside expert training programs. Backed by over a decade of industry experience, our dedicated support team excels in equipment calibration and repair. We have heavily invested in our workforce, housing some of the most skilled and highly-trained service technicians nationwide.

Our extensive inventory covers everything from essential, cost-effective survey accessories—such as batteries, chargers, adapters, prisms, poles, and tripods—to an advanced range of robotic total stations and GPS systems. Civil engineering and construction projects present unique challenges, and we are committed to delivering complete, reliable solutions for all your surveying, monitoring, scanning, and geo-referencing needs.

WHAT WE DO

MEASURING EXCELLENCE BUILT ON PRECISION

SP30 Series GNSS Receivers

SP30Pro

High-performance GNSS receiver for advanced land planning and construction.

SP30Se

Sustainable and reliable GNSS receiver with excellent value.

SP30

Standard high-accuracy GNSS receiver for various infrastructure projects.

SP30 1+1 Set High-Performance RTK

Receive All Satellite Signals

Ensures maximum availability and accuracy in any environment.

AR Real-scene Stakeout

Advanced augmented reality technology for intuitive and precise stakeout operations.

Camera-assisted Laser Surveying

Enhances surveying capabilities with integrated camera and laser technology.

Ultra-long Endurance

Extended battery life for uninterrupted field work.

SPCraft5 Unmanned Surface Vehicle (USV)

Water Depth Measurement

Highly accurate bathymetric surveys for rivers, lakes, and oceans.

Water Quality Sampling

Automated sampling capabilities for environmental monitoring.

Surface Inspection & Monitoring

Efficient inspection of water surfaces and continuous water quality monitoring.

ALL CALIBRATION & SERVICES IN ONE PLACE

Supply of Land Survey Equipment

As a leading supplier in the UAE, we provide an extensive selection of surveying instruments. Our inventory features high-quality GPS systems, total stations, automatic levels, and underground detectors, along with advanced laser and concrete scanners from top global manufacturers.

LASER SCANNER SERIES

Focus 3D Laser Scanners deliver unprecedented accuracy and speed, capturing exact measurements of complex objects and large-scale structures using state-of-the-art 3D imaging technology.

Engineered for maximum portability and resilience, these compact scanners are built to thrive in demanding environments—offering robust protection against dust, debris, and extreme weather. Capable of scanning at extended ranges even under direct sunlight, the series captures ultra-realistic, true-to-detail data at lightning speeds.

Seamlessly integrate your 3D point cloud data into industry-standard software workflows. Whether your focus is architecture, civil engineering, construction, forensics, or industrial manufacturing, this technology empowers you to perform rapid area calculations, precise volume measurements, and comprehensive structural analyses with absolute confidence.

Why Choose Us

At Beehive Measurement and Control Equipment Devices Trading L.L.C, we are committed to delivering exceptional measuring and trading solutions tailored to meet your specific needs. Here's why we stand out:

Expertise Across Industries

Our team is composed of seasoned professionals with diverse expertise in various sectors, ensuring comprehensive and innovative solutions for your projects, no matter how complex.

Client-Centered Approach

We prioritize understanding your goals, challenges, and vision. By collaborating closely with you, we ensure that every solution is aligned with your requirements, delivering outcomes that exceed expectations.

OUR JOURNEY TO SUCCESS

Jan 2013 House Smart Opening Company Established

Our journey began with the opening of House Smart in January 2013, marking the foundation of our company and the beginning of our commitment to quality, precision, and customer satisfaction.

March 2016 House Smart Opening New Office in California

House Smart opened a new office in California, marking another milestone in our journey of growth and expansion.

April 2021 Hospital Build First Product Launch

Hospital Build launched its first product, marking an important milestone in our growth and innovation journey.

September 2022 Award Winner 2022 Entering Big Market

Award Winner 2022, marking a major milestone as we entered the big market and expanded our business reach.

Cutting-Edge Technology & Techniques

We leverage the latest advancements in engineering technology and methodologies to provide innovative, efficient, and cost-effective solutions.

Proven Track Record.

We leverage the latest advancements in engineering technology and methodologies to provide innovative, efficient, and cost-effective solutions.

Sustainability & Innovation

We are committed to sustainable engineering practices that not only meet today's needs but also contribute to long-term environmental and economic benefits.

End-to-End Services

From initial concept to final execution, we offer a full range of engineering consultancy services, ensuring that your project runs smoothly and efficiently at every stage.

COMPREHENSIVE SURVEYING SOLUTIONS

Precision. Technology. Reliability.

We deliver end-to-end surveying solutions tailored to your project needs – from advanced equipment sales and rentals to expert training, calibration, and technical support

SURVEY EQUIPMENT SALES

Professional Survey Equipment for Sale

We supply high-quality and reliable surveying equipment for construction, infrastructure, land development, engineering, and surveying applications.

- ✓ GNSS / RTK GPS
- ✓ Total Stations
- ✓ Auto Levels
- ✓ Digital Levels
- ✓ 3D Laser Scanners
- ✓ Data Collectors & Controllers
- ✓ GNSS Base & Rover Systems
- ✓ Prisms & Prism Poles
- ✓ Tripods & Tribrachs
- ✓ Survey Accessories
- ✓ Prisms & Prism Poles
- ✓ Tripods & Tribrachs
- ✓ Surveying Accessories

SURVEY EQUIPMENT RENTAL

Flexible Survey Equipment Rental Solutions

Need surveying equipment for a short-term project or temporary requirement? We offer daily, weekly, monthly, and long-term rental options for professional surveying equipment.

- ✓ GNSS / RTK GPS
- ✓ Total Stations
- ✓ Auto Levels
- ✓ Digital Levels
- ✓ 3D Laser Scanners
- ✓ Data Collectors
- ✓ Survey Accessories

Survey Equipment Training

Professional Survey Equipment Training

We provide practical, equipment-focused training for surveyors, engineers, contractors, and beginners.

GNSS / RTK GPS Training

- ✓ Base & Rover setup
- ✓ RTK configuration
- ✓ Coordinate system setup
- ✓ Field data collection
- ✓ Stakeout and survey procedures

Total Station Training

- ✓ Instrument setup
- ✓ Station orientation
- ✓ Resection
- ✓ Coordinate measurement
- ✓ Setting-out
- ✓ Traversing
- ✓ Data collection

Level Machine Training

- ✓ Instrument setup
- ✓ Benchmark transfer
- ✓ Leveling procedures
- ✓ Elevation measurement

Controller & Software Training

- ✓ Job creation
- ✓ Instrument connection
- ✓ Survey data collection
- ✓ Coordinate management
- ✓ Data export
- ✓ Basic field software operation

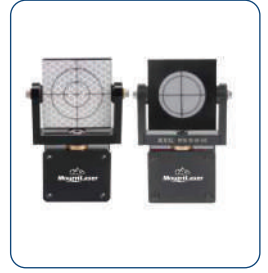

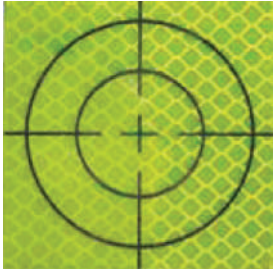

SURVEY EQUIPMENT CALIBRATION CALIBRATION & VERIFICATION SERVICES

Accurate equipment is essential for reliable survey results. We provide calibration, inspection, and verification services for surveying instruments.

- ✓ Total Station Calibration
- ✓ GPS / GNSS Calibration
- ✓ Theodolite Calibration
- ✓ Level Machine Calibration
- ✓ Laser Level Calibration
- ✓ Surveying Accessories Repair
