Briomac Security Systems
An MCC Certifed Company

COMPANY PROFILE

ABOUT US

"Ability to Prosper"

Briomac Services is an IT services-based company, centered in Abu Dhabi. We provide IT consulting, Networking, Security, and management to help your business grow to greater heights. Briomac IT emphasizes skill development. We are committed to maximizing the potential of all of our workers through ongoing skill development and in-house training. The company's ever-expanding workforce keeps pace with the company's growth and is constantly focused on the latest technology to improve the quality of all services and products.

MISSION

VISION

Our goal is to provide you with a digital presence through user-friendly technology. We want to establish trustworthy connections with our clients and offer them the best, most creative solutions possible.

We are committed to providing you with the finest, long-term solutions. We believe in assisting you in improving, developing, and succeeding in your pursuits. We wish to empower and unleash all of our client's potential.

We have a highly trained professional staff that is focused on cutting-edge technologies and client satisfaction. When it comes to your IT needs, we assist businesses in achieving their business objectives.

We manage services such as - IT services, VPN Networking, Server Management, CCTV, Managed storage and security, Software Licensing, and much more.

SERVICES & SOLUTIONS

SECURITY AND ELV SOLUTIONS

STRUCTURED CABLING SYSTEM

- Entrance Facilities
- Equipment Room
- Backbone Cabling
- Telecommunications Room
- Horizontal Cabling
- Work Area

INTELLIGENT CABLING SYSTEM

Intelligent cabling simplifies network modifications. Real-time network documentation with notifications for failures or port changes. Our intelligent cabling solution decreases complexity by concentrating on daily change management procedures.
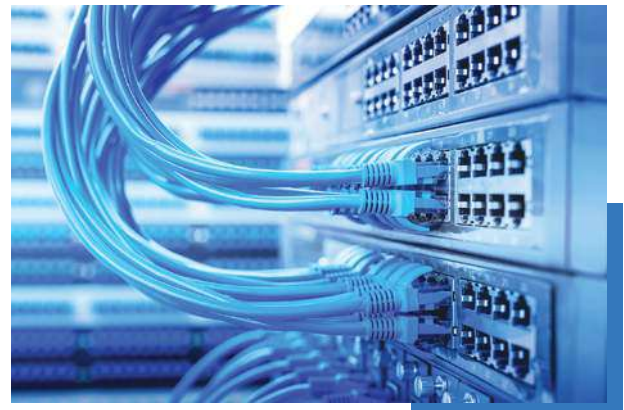

AUDIO & VIDEO CONFERENCING SYSTEM

- High-resolution webcam
- Fast computer processing
- Sufficient network bandwidth
- Video conferencing system
- Video display screen
- Microphone
- Video conferencing software
- Mobile video conferencing app.

PROJECTION & SCREEN EQUIPMENT

- 4k Projector
- LED Projector
- LCD Projector
- Nebula Projector
- Laser Projector
- DLP Projector
- Light Projector
- Mini Ray Projector

PUBLIC ADDRESS & PAGING SYSTEM

Public address (PA) systems are used whenever it is necessary for an announcer, performer, etc. to be heard clearly from a distance or over a big area. Sports arenas, public transit vehicles and buildings, and concert halls or recording studios are all common examples of places where such technology is put to use.

DIGITAL SIGNAGE

- Dynamic Digital Signage
- Automated Digital Signage
- Advertising Digital Signage
- Interactive Digital Signage

VIDEO INTERCOM

The use of a video intercom system, which is a two-way security device, is becoming more common. A single unit is often installed permanently at each entryway or gate. Visitors may buzz in using the intercom system located on the wall.

ACCESS CONTROL SYSTEM

- Face Recognition access control
- Keypad readers
- Swipe card readers
- RFID door readers
- Biometric door readers
- Smart lock door readers

CCTV

- Dome CCTV Cameras.
- Bullet CCTV Cameras.
- C-Mount CCTV Cameras.
- PTZ Pan Tilt & Zoom Cameras
- Monitor
- Cable
- Video Recorders and Data Storage.

INTRUSION ALARM

- Wireless vs. Hardwired Intrusion System.
- Monitored and Unmonitored Alarms.
- A monitored or unmonitored burglar alarm can be either hardwired or a wireless system.
- Dummy Intrusion Alarms.
- Auto-dialing Security Systems.
- Arm Alarm.

IPTV & INTERACTIVE TELEVISION

While viewing television, it contains inter-active functions like as pause, rewind, fast-forward, and programme recording capabilities. IPTV is compatible with all display kinds. These gadgets include LCD screens, projectors, PCs, cellphones, and televisions, without sacrificing visual quali-ty.

RADIO FREQUENCY IDENTIFICATION (RFID)

Inventory monitoring, restriction of access, tracking of employees and patients, track-ing of instruments, tracking of disposable consumables, tracking of big or costly equipment, tracking of laundry, and other applications are among the most prevalent uses of RFID in hospitals.

KIOSK INFO DESKS

The term "information kiosk" may refer to a self-service terminal that either displays data or offers it through a user-friendly menu interface. Public libraries often include information kiosks that provide an up-to-date catalogue of its holdings.

GATE BARRIER SYSTEM

The primary function of a gate barrier system, also known as a Parking barrier system, is to control vehicle entry. Installations of vehicle barrier systems are commonplace in parking lots, checkpoints, and entrances for the purposes of restricting access and monitoring traffic flow via toll gates.

TURNSTILES

Turnstiles are the most effective kind of access control since they can both detect and dissuade unwanted visitors. One often enters a building through its doors. Putting up a card reader or biometric reader plus electronic locks is a typical way to increase security in a building.

BOLLARDS

A bollard is a small post that is used to define an architectural or defensive boundary. They direct traffic and delineate borders when used solely as a visual aid. They occur in a broad range of forms and styles as architectural components to emphasize or visually stand out in their surroundings.

OTHER SOLUTIONS

- Under Vehicle Scanning System & Car Plate Recognition.
- Hand Held & Walk through Metal Detectors
- X-Ray Machine
- Room Management System
- Visual Communications

ROOM & HOME AUTOMATION SYSTEM

Controlling lighting, heating and air conditioning, watering of outside lawns and gardens, home appliances, and security systems are some of the most popular uses of home automation.

ICT SOLUTIONS END USER COMPUTING

- Telephone, Radio, Television, and Internet

- Server Solutions

- Connectivity Solutions

IT SUPPORT AND MAINTENANCE

Servers must be monitored and maintained up to date to work optimally. Backups, security, hardware, and software management are all part of it. The key aims are to decrease server slowness and downtime, provide secure environments, and ensure that servers can continue to meet the demands of a business as it grows.

The goal of server management is to improve efficiency and performance while ensuring the security of IT operations.

The following are the preliminary duties that a team must consider in their server management plan: -

- Setup and configuration
- Hardware Administration
- Server Monitoring
- Server Security

With our Services, You get –

- 24-7 support and assistance.
- Reduction in your overhead costs.
- IT specialists at your disposal.
- Enhanced organizational performance.
- Ability to meet your business goals.

WEB DEVELOPMENT

We create and construct dynamic websites to assist companies in achieving their goals in the online world. We construct and host for our clients a wide variety of websites, ranging from simple personal pages to complex online marketplaces. Features like mobile responsive and content management are included.

SOFTWARE SOLUTIONS

Regardless of the type of your company, we are here to provide you the best software solutions for managing sales, logistics, inventory, events, lead generation, distribution, and a variety of other business-specific needs.

ANNUAL MAINTENANCE CONTRACTS

We attempt to serve you gently via our IT Annual Maintenance Contracts by working on your IT infrastructure and equipment from both remote access and on-site assistance. Our IT professionals visit your site or talk/chat with you under our yearly contracts to resolve any obstacles that are impeding your overall success. We are always working to reduce or eliminate all types of IT outages and system breakdowns. We provide 24/7 maintenance assistance with real-time solutions and high-level experience in IT infrastructure challenges to assure organizations' success.
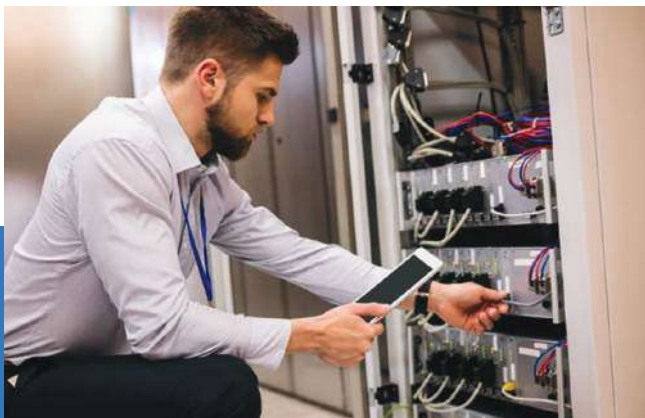

BUILDING PROJECTS CONTRACTING

At Briomac, we handle all types of building projects, from initial concept to completion. Whether it's residential, commercial, or industrial construction, our team provides complete project management, ensuring that every phase is executed with precision. We coordinate every aspect of the construction process, including design, planning, procurement, and building to deliver superior results.

Our Expertise Includes:
• Residential Buildings
• Commercial Complexes
• Office Spaces
• Industrial Facilities

Our commitment to quality and on-time delivery ensures that every project meets client expectations.

METAL STRUCTURE INSTALLATION

Briomac specializes in the installation of construction metal structures, providing safe and reliable solutions for all building types. Our team is experienced in installing everything from structural steel frameworks to metal reinforcements for roofs, walls, and foundations. With a focus on durability and precision, we guarantee that your metal structures are installed correctly and meet all necessary safety regulations.

We Handle:
• Structural Steel Installations
• Metal Framing for Buildings
• Roof and Wall Metal Structures
• Custom Metal Fabrication

EXCAVATION AND BACKFILLING SERVICES

Proper site preparation is crucial for any successful construction project. Briomac offers professional excavation and backfilling services, ensuring that your site is ready for building. From digging foundations and trenches to leveling land and backfilling, we use modern equipment and techniques to complete the job efficiently.

Our Services Include:
• Excavation for Foundations
• Land Leveling and Site Preparation
• Backfilling for Stability
• Grading and Trenching

We prioritize safety and compliance, making sure every excavation project is executed with precision and care.

INSULATION MATERIAL INSTALLATION

At Briomac we understand the importance of energy efficiency and temperature control in buildings. Our expert team provides professional installation of insulation materials to enhance the energy performance of your building. Whether it's walls, roofs, or floors, our solutions reduce energy consumption and improve indoor comfort.

We Specialize In:
• Thermal Insulation
• Acoustic Insulation
• Roof Insulation
• Wall Insulation

Our insulation services ensure that your building remains energy - efficient and comfortable year-round.

BUILDING MAINTENANCE SERVICES

A well-maintained building is crucial for long-term functionality and value. Briomac offers comprehensive building maintenance services, ensuring that your property remains in top condition. From regular inspections and repairs to emergency fixes, our team provides reliable solutions to keep your building safe and operational.

Our Maintenance Services Include:
• Plumbing and Electrical Repairs
• HVAC System Maintenance
• Structural Inspections and Repairs
• Painting and Renovations

Regular maintenance extends the life of your building and minimizes costly repairs, keeping your property in excellent shape.

VILLA CONSTRUCTION SERVICES

At Briomac Contracting, we specialize in the design and construction of premium villas tailored to meet your unique vision. With a focus on quality, precision, and modern architectural excellence, we deliver bespoke villas that embody luxury and comfort. Our team of skilled professionals ensures every aspect of your villa—from planning to completion—is handled with the highest standards of craftsmanship and attention to detail. Whether it's a modern or traditional style, we build villas that stand the test of time, ensuring your dream home becomes a reality.

Briomac Contracting offers expert villa construction services, delivering high-quality, custom-built homes designed to meet your unique needs and preferences.
