Company profile

Catania is a company established in the U.A.E with the objective of designing and manufacturing state-of-the-art kitchen equipment catering to the specific needs of multi-level commercial concerns and industrial organizations in the fields of hospitality, catering, hotels and restaurants, canteens, Bakeries, shopping malls etc.

Catania specializes in designing smart and elegant kitchen equipment according to the requirements of its customers incorporating the latest technology in lay-out, manufacture and installation in highly hygienic and pollution-free conditions.

The people at the helm of affairs of the company have many years of experience in designing, manufacturing and installation of kitchen equipment for a large number of commercial concerns and industrial establishments of high repute. The goodwill and keen interest shown by it valued and satisfied customers speak volumes of its remarkable achievements in this field of operation. Our Engineers and technicians with their experience and expertise in the execution of projects undertaken by us are constantly updating their know-how in the field of our operation to provide trouble-free equipment and excellent professional after-sales service to our customers.

We at Catania are proud to be part of a large number of reputed and established companies and highly gainful ventures initiated by our new customers and are committed to our prospective customers in equipping their establishments with kitchen equipment of high quality and durability. extremely proud of the quality and workmanship that is inherent in each item produced and we look forward to enlarging our range with new and updated designs.

Quality

At Catania, we manufacture hygienic stainless steel kitchen equipments to the highest standards. The use of numerous control machines of the highest precision and productivity as well as a careful choice of the materials used allow production of long-lasting and professional system designed to meet the needs of catering professionals.

Range

Over the years, we have designed and built the most extensive range of products in the industry. Our catalogue describes wide range of designs and standards to meet the requirements of various industries.

Value

Catania specializes in the manufacture and supply of hygiene kitchen equipments combined with keen manufacturing techniques, enables us to provide high quality product at an optimal price. We provide with expert advice on how to maintain the equipments to keep the replacement costs to a minimum.

Design

Our CAD team can provide a completely custom-made design to meet the unique requirements and the state-of-art software can help to visualize your dreams.
