

CRAYONS

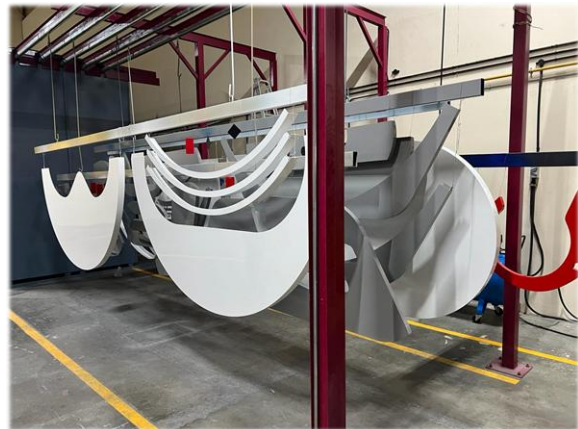

METAL COATING LLC

COMPANY PROFILE

Transforming Surfaces. Delivering Durable Finishes.

Powder coating solutions for architectural steel, sheet metal works, fencing and more.

Company Overview

A specialist powder coating partner based in Industrial Area 17, Sharjah, UAE.

CRAYONS METAL COATING LLC SP provides powder coating solutions focused on high-quality finishing and durable surface protection. The company states that it brings 17 years of industry experience and combines skilled personnel, dedicated facilities and modern coating technology to serve a range of metal-finishing requirements.

Our Positioning

Crayons Metal Coating positions itself as a preferred partner for powder coating requirements, with a focus on consistent finishing, skilled workmanship and meeting client quality requirements.

Core Materials

- Mild steel
- Galvanised iron
- Stainless steel
- Aluminium

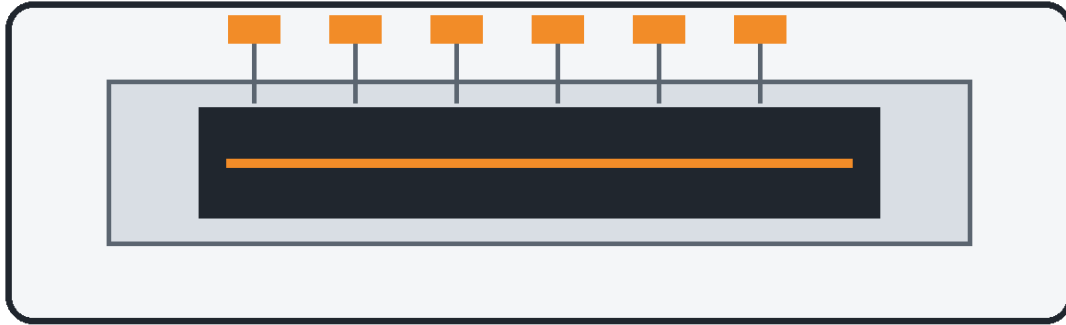

Coating Types

- Epoxy powder coating
- Polyester powder coating
- Super Durable Finish powder coating

Facility & Technical Capability

Built around a large-format gas-fuelled batch oven and pre-treatment capability.

7 m x 3.5 m x 2 m gas-fuelled batch oven

Up to 8-tonne powder coating capacity

The company website describes its unit as having a gas-fuelled batch oven measuring 7 metres in length, 3.5 metres in height and 2 metres in width, with powder coating production capability of up to 8 tonnes.

Pre-Powder Coating Treatment

Crayons provides pre-powder coating treatment for mild steel, galvanised iron, stainless steel and aluminium. This preparation supports the application of epoxy, polyester and super-durable powder coating finishes.

Quality Focus

The company highlights a highly skilled workforce and quality standards aligned with client requirements, supported by dedicated facilities and a commitment to excellence.

Services & Applications

Finishing solutions across architectural, industrial and commercial metalwork.

Architectural Steel	Durable decorative and protective finishes for architectural metalwork.
Sheet Metal Works	Powder coating for fabricated sheet-metal components and assemblies.
Fencing & Wall Railings	Consistent finishes for fencing, gates, railings and related metalwork.
Electrical & Fire Panel Boards	Surface finishing for panel boards and enclosures.
Steel Furniture & Storage Cabinets	Protective and decorative finishes for furniture and storage systems.
Canopies & Mesh	Coating solutions for fabricated canopies, mesh and related structures.
Light & Parking Poles	Finishing for poles and associated metal components.
Signs & Display Systems	Professional surface finishes for signage and display structures.

Powder Coating Approach

A structured workflow designed to support consistent, durable finishes.

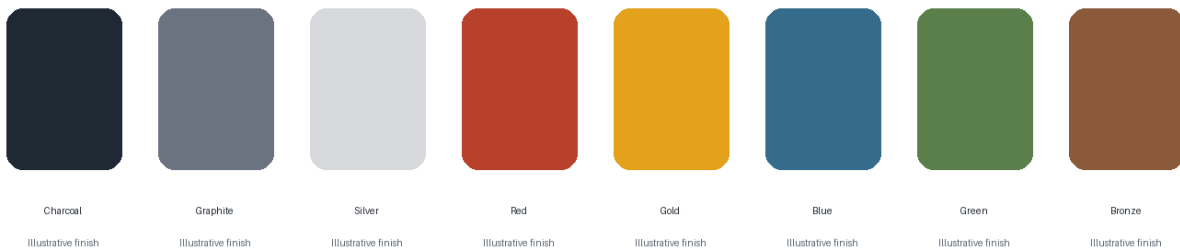

Pre-treatment — Prepare the metal substrate for coating by ensuring the surface is suitable for powder application.

Powder application — Apply the selected powder coating to the prepared component using an appropriate coating system.

Curing — Heat the coated component in the batch oven to develop the final coating properties.

Finish & quality check — Review the finished surface against the required appearance and client specifications.

Finish Options

The colour panel above is illustrative only. Final colour, gloss, texture and specification should be confirmed with Crayons Metal Coating for each project.

Why Choose Crayons Metal Coating?

Experience, capability and a practical focus on finishing quality.

01. 17 years of experience

The company states that it has 17 years of experience in the metal industry and specialized metal coatings.

02. Large batch oven

A 7 m × 3.5 m × 2 m gas-fuelled batch oven is designed to support large components and batch production.

03. Up to 8-tonne capacity

The facility is described as capable of producing powder coating material up to 8 tonnes.

04. Multiple substrate types

Treatment and coating services cover mild steel, galvanised iron, stainless steel and aluminium.

05. Skilled workforce

The company highlights a highly skilled team dedicated to powder-coating requirements.

06. Client-focused quality

Crayons emphasizes quality standards that meet client requirements and a commitment to excellence.

Industries & Project Applications

Capabilities reflected in the company's published service and portfolio information.

Crayons Metal Coating's published portfolio highlights more than 17 years of experience in specialized metal coatings, with an emphasis on craftsmanship and innovative approaches. Its service offering is suitable for a broad range of fabricated metal components used in architectural, commercial and industrial settings.

- Architectural metalwork and fabricated steel
- Fencing, gates and wall railings
- Electrical and fire panel boards
- Steel furniture and storage cabinets
- Canopies and mesh structures
- Light poles and parking poles
- Signs and display systems
- Sheet-metal components and assemblies

Project Delivery Principles

- Clear understanding of coating requirements
- Suitable substrate preparation
- Consistent powder application
- Controlled curing and finishing
- Inspection against agreed requirements
- Responsive customer communication
