ABOUT US

The Brand New Standard for Modular Solutions

The New Generation Office, Living, and Recreational Spaces. At Eco Planet, we are committed to delivering an amazing line-up of eco-friendly portable toilets, cabins, and other standalone pre-engineered buildings suitable for the modern-day requirements.

It's been 10 amazing years since Eco Planet started supplying portable full-option cabins that are marvels of technology, aesthetics, and luxury. No matter what kind of event you are hosting or what type of renovation you are planning for your residential or commercial spaces, the idea of mobile cabins and toilets will address the space & time complexities and reduce extensive labor.

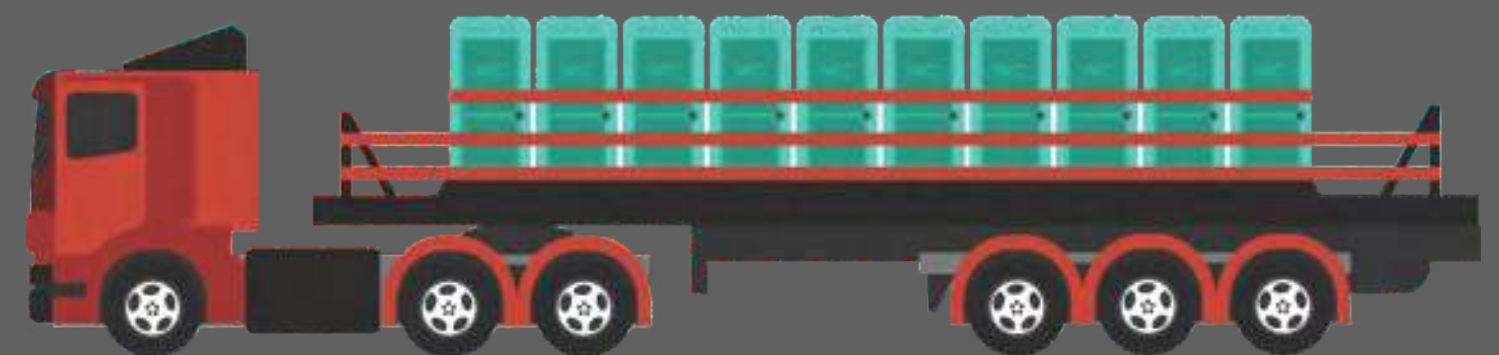

HOW OUR PORTABLE CABINS SAVE YOUR MONEY & RESOURCES ?

Speedy Construction | Durability | Eco-friendliness | Reduced Cost | Safety

The One-Stop Shop for All Portable Units That Work for Today's World

A Convenient and Practical Solution That Helps You Keep Pace With Present-Day Lifestyle. In our modern society, the idea of using self-contained cabins and standalone sanitization systems has become the new normal. Eco Planet is a specialty portable sanitation & office cabin manufacturer and the renowned supplier of liquid & tablet deodorants.

Our portable solutions range includes prefabricated offices, Security Cabins, Conventional & Modular Porta Cabins, Container Offices and mobile sanitization units such as temporary Plastic/HDPE/ GRP/Fiber/FRP toilets, Chemical/Waterless toilets, Trailer/Caravan/ Handicapped/Disabled/Picnic Toilets, E-Toilets, Bio-Toilets, Hand Wash Stations, Changing Rooms, Urinals/ Shower, and Ablution/ Wudu units, Deodorizing Liquids/ Tablets.

OUR PRODUCTS

Serving the diverse requirements of our valued clients with high-quality products

Portable Toilets

Answer Nature's Call Anywhere, Anytime

Lack of portable sanitation facilities is a real threat to public health and our environment. Can we imagine big events, parties, and galas having no proper sanitation solutions to meet the natural requirement of the people?

We apply our in-depth expertise to produce the most advanced and ultramodern mobile toilet units that showcase the endless possibilities of luxury and comfortable sanitation spaces at reasonable rates.

Discover The Range Of Exquisite Freestanding Toilet Units From Eco Planet:

Plastic/ HDPE Toilets | GRP/ Fiber/ FRP Toilets | Chemical/ Waterless Toilets | Prefabricated/ Customized Toilets | Trailer/ Caravan Toilets | Modular/ Luxury Toilets | Handicapped/ Disabled Toilets | Porta Potty/ Picnic Toilets | E-Toilets | Bio-Toilets

From waterless toilets to caravan sanitation units and bio-toilets, our range of movable toilets includes state-of-the-art amenities and essential features like freestanding urinals, high capacity holding tanks, toilet movers, and waste holding tanks. Never hold back your natural need to urinate or defecate and cause bacteria build-up when you have our smart mobile toilets around you.

Security Cabins

Get Safer and More Secure Spaces at Reasonable Rates

Security is a vital part of our society. Creating safer and more secure workspaces and living areas are necessary for our personal as well as societal growth. Security cabins serve as the tiny accommodation rooms for security guards working with various companies, factories, business organizations, and houses. Eco Planet offers a stunning range of both conventional and modular security cabins featuring superior facilities that assist security guards to safeguard your premises and valuable assets.

Portable Hand Wash Stations/Sinks

Hand washing made simple and easy

To encourage good hygiene practices and control the spreading of germs, Hand Wash Stations are a must at schools, offices, construction sites, and corporate event venues. Eco Planet supplies highly-functional and aesthetically pleasing hand wash stations to maintain hygiene and reduce water wastage.

At Eco Planet, we have an impressive collection of sinks and temporary hand wash stations that can be easily assembled and installed at desired locations. Endowed with in-built plumbing mechanisms for instant hot and cold running water facilities, our self-contained sinks are more durable and nature-friendly.

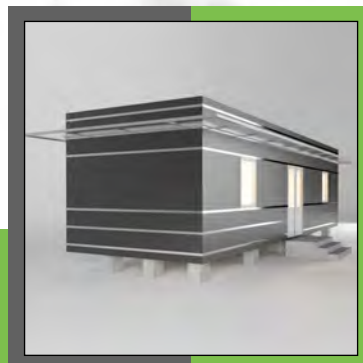

The most sought-after portable hand wash stations of Eco Planet include Medical sinks, Beauty salon hand wash basins, Kitchen modular sinks, and School portable sinks.

Porta Cabins/ Portable Cabins

Taking your living spaces to everywhere you travel

The nature of today's businesses and lifestyle is changing. Organizations and communities nowadays prefer pre-engineered cabins over the traditional brick-and-mortar buildings to live in or conduct business, or even meet their sanitization needs. Let's look at the important advantages of Portable Cabins manufactured by Eco Planet.

Container Cabins/ Conversion

Reinventing Your Spaces to make it smarter & flexible

Eco Planet is a proud manufacturer of environmental-friendly Container Cabins converted and redesigned to match a home design, or workspace & rest area, or even toilets. We have the right technology to convert containers to match your expectations and are far less expensive than conventional construction methods.

Our Well-Crafted Line-Up Of Container Cabins Include:

Container Offices | Container Toilets | Container Houses/Rest Area | Storage Container

Portable Urinals

A quick and easy solution to your instant sanitation needs

Having quality on-site urinal solutions is a natural necessity. Can we imagine attending the mass gathering and community events like festivals and corporate parties that don't have temporary urinal facilities?

We offer top-notch standalone or portable urinals that can be installed anywhere within your premises. Our portable urinal solutions ensure that your guests can meet their sanitization needs instantly without making them hold their pee for extremely long periods of time.

Portable Shower

The best sanitization accessory for backpackers

If you are a good camper or love to go hiking often, then portable showers are the best companions for your journey. We are one of the leading manufacturers of top-grade portable showers, specializes in producing opulent and customizable bathing units.

We make available some of the splendid portable shower collections perfect for your bathing needs. Eco Planet's brand new portable showers can be easily connected with any of the high-volume water tanks, outlets, and other drainage systems, making them the best alternative for conventional bathing and washing facilities.

Portable Changing Rooms/Cabins

An intimate area that gives ultimate comfort and security

For fashion retailers, fitting rooms or changing rooms can make or break their business. At Eco Planet, we provide a whole gamut of ultramodern and sturdy changing rooms for textile shops, public restrooms, water theme parks, etc.

We adopt stringent security measures in the production of first-class mobile changing rooms to prevent microbiological contamination and maintain a hygienic environment inside cubicles. Our smart changing rooms can be used as an extension of your wardrobe and offer a convenient and safer way to change your clothes even in public places.

Portable Ablution/Wudu Units

Cleansing your body to strengthen your faith

To make everyone perform their religious ritual of wudu, we manufacture and supply movable, compactable, and versatile Portable Ablution or Wudu Units. Our unique range of ablution units is meticulously designed to use as a combination of sitting or standing positions to perform wudu.

Modular wudu khana stations from Eco Planet come with special drainage outlet settings to eliminate the spreading of germs. These units can be easily assembled and installed at mosques and other public spaces like schools, banks, prisons, etc.

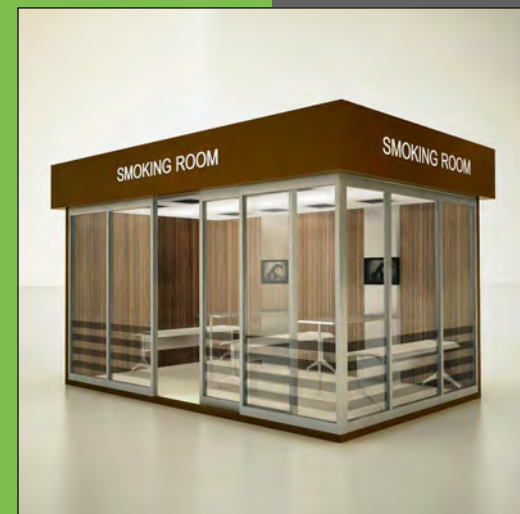

Portable Smoking Rooms/Cabins

A dedicated place for smoking keeps your environment healthy

With our smoking shelters and cabins, smokers get quick access to a safe and comfortable space that secures the environment from dangerous gases. We also integrate fireproofing and waterproofing solutions into our designs to control the unexpected fire outbreak and resist the ingress of water.

Besides protecting individuals from secondhand smoke, our smoking units prevent the spreading of harmful gases and improve the general indoor air quality. Our outdoor Smoking Cabin models are ideal solutions for theaters, shopping malls, airports, hospitals, companies, etc.

Deodorizing Liquids/ Tablets for Portable Toilets

Neutralizing the odors to create hygienic toilets everywhere

Nobody wants to walk into smelly toilets. Apart from the formation of a clog in the vent pipe and poor ventilation, the spilling of human waste also makes your toilet smell funky. Here at Eco Planet, we supply a broad-spectrum of biological and non-formaldehyde deodorizing solutions to remove stain and fill your toilet areas with a sweet and pleasant smell.

Our in-house aromatic technology team is dedicated to producing eco-friendly deodorizing liquids and tablets for portable toilets that act as complete protection against foul odors and create sparkling clean bathrooms.

OUR SERVICES

Redefining the Standard of Personal Hygiene and Sanitation

Buying an extra space for your existing premises or constructing brick and mortar workplaces and toilets is expensive and time-consuming. The eminent team behind Eco Planet is dedicated to transforming the portable solutions manufacturing sector by delivering innovative & intuitive portable products for our communities.

As the world's sanitation needs evolve, our products assume new forms, focusing on three core
