EURO RUBBERTECH INTERNATIONAL L.L.C

P.O. Box : 98768, Phone : +971 4 25 23 401, Fax : +971 4 25 23 402

Dubai - United Arab Emirates

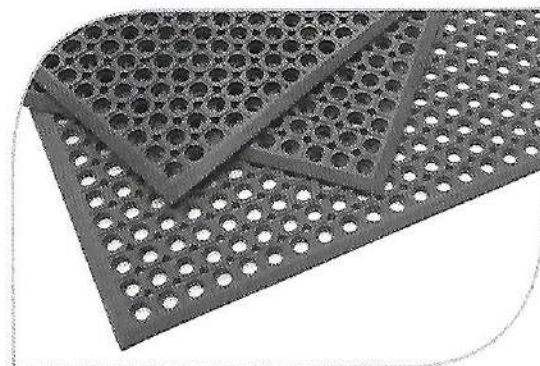

**Euro Rubbertech International LLC** is an established in manufacturing and trading of moulded and extruded rubber products, plastic products and polyurethane products. The company is based in Dubai, UAE and has been established since 2009 moving premises to accommodate growth and has acquired an excellent customer base, with continuous investments in machinery and training, we proceed to become more efficient in order to meet our customer requirements.

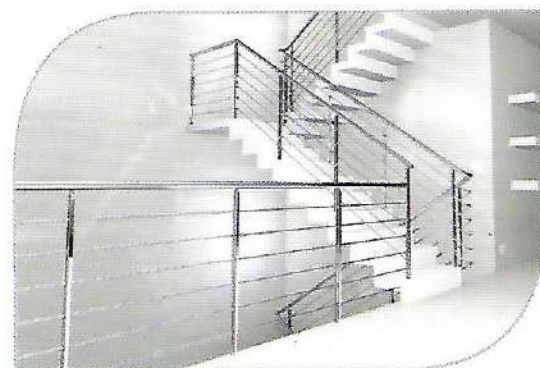

**Preferred supplier to many high profile companies within:-**

- Marine
- Automobile
- Petrochemical
- Architectural
- Food production
- Construction
- Defense
- Agriculture
- Retail
- Pharmaceutical
- Electrical
- Engineering
- Waste and Recycling

Euro rubbertech international can provide you with complete custom design services or manufacture directly from your specification. Contact our company as we can discuss your products in details, or simply fax or email us the specification and we will provide you with a quick and accurate quotation, offers suggestions, deliver your finished products.

## Fenders

Fenders are critical element of any commercial marine docking facility and provide the necessary protection between a large vessel ,boats, and the docking structure itself. Fenders are commonly using Ports and harbors, Municipalities, private facilities and government /military Facilities.Fenders are typically manufactured rubber,foam, plastic and polyurethane.

### Rubber Fender

#### Ship to quay:

Marine fenders are used at ports and Docks on quay walls and other berthing structures

- 1) Cylindrical fenders
- 2) Arch fenders
- 3) Cone fenders
- 4) Pneumatic fenders.

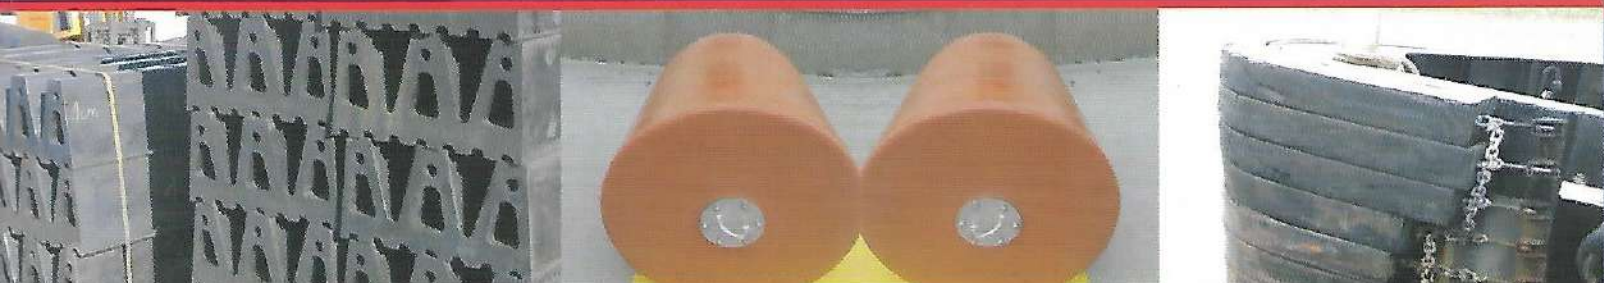

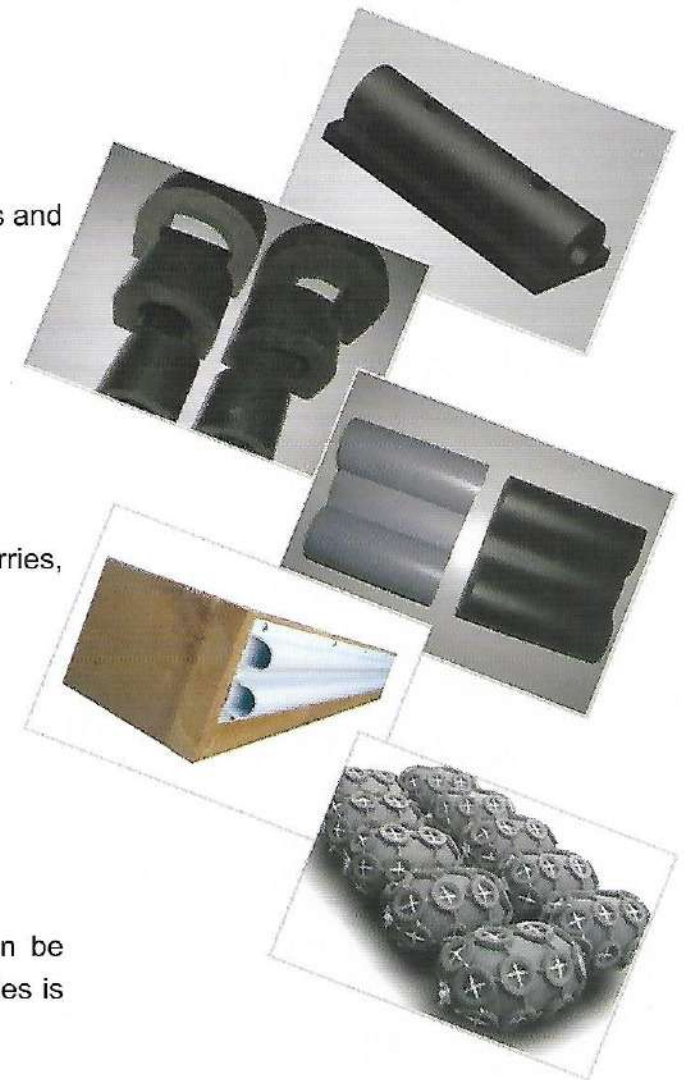

#### Boats :

Boat fenders are used on recreational boats, tug boats, Ferries, Naval vessels, passenger vessel, Luxury yachts etc

- 1) D fender
- 2) Square fender
- 3) Wing fender
- 4) Key hole fender
- 5) Light weight foam elastomeric fenders

### PVC Fender

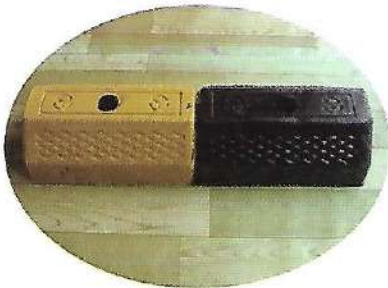

We offer a comprehensive range of PVC fender .It can be supplied in black or white color with Non-marking properties is suitable for Boats , Inflatable's and pontoons.

## Building protection systems

The application of measures designed to preserve a building and its contents from deterioration, damage from Vehicle, climate condition, water and unauthorized intrusion.

### WallGuard

Wall guard designed to protect the structure from impact of trolley and general warehouse traffic

### Corner guards

The corner guards are designed to protect the edges of columns in structures.

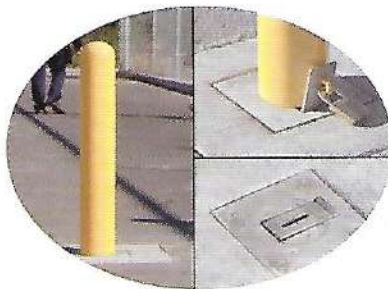

### Wheel stopper

Wheel stopper are designed to provide good energy absorption from vehicle impact

### Speed hump

The speed hump are designed to reduce the speed of vehicle

### Bollards

Bollards are designed to variety of structures used to control pedestrian and vehicular traffic, protect critical infra structure.

Steel bollards

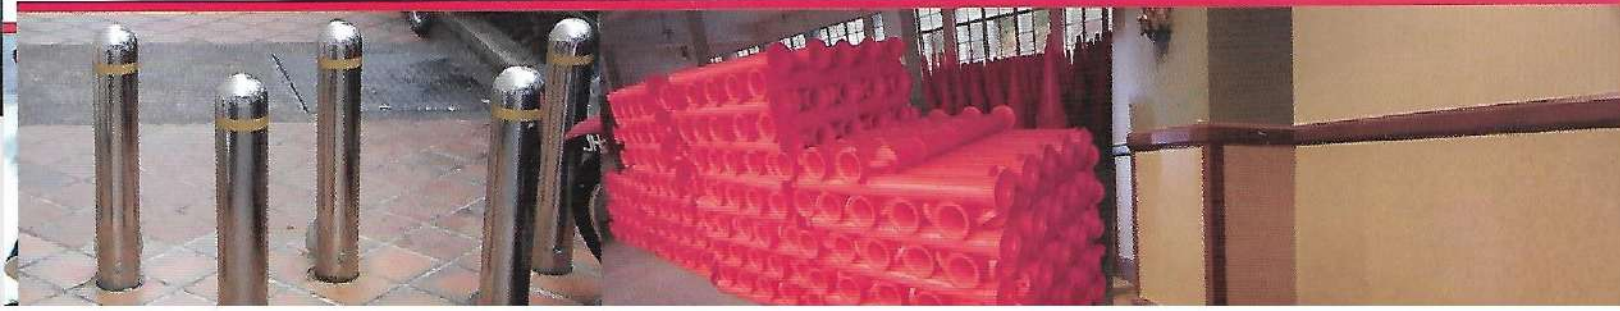

- MS bollards
- GI Bollards
- SS bollards
- Concrete filled metal bollards
- Pu bollards

### Vinyl Guards

It is Light, Heavy duty and decorative .which are using Hospitals and interior decoration.

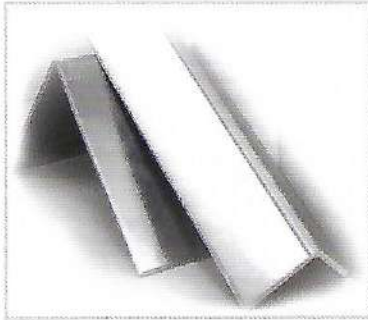

- Hand rails
- Wall guards
- Corner guards

## Metal corner guards

Stainless steel, Aluminum and Brass corner guards

## Expansion Joint

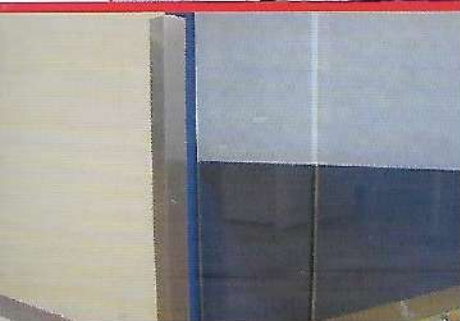

An expansion Joint is an assembly designed to safely absorb the Heat induced expansion and contraction of various construction materials, to absorb vibration. They are commonly found between sections of sidewalls, bridges, railway tracks, piping systems, ships and other structures.

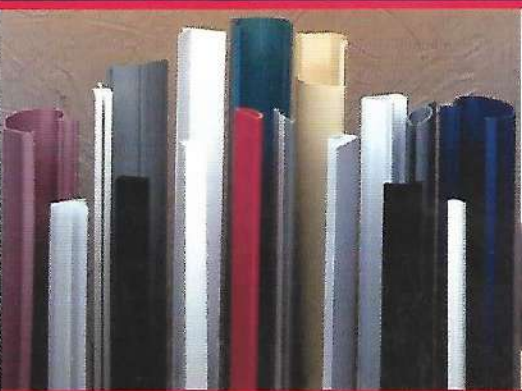

## Dock Bumpers

Various factors comprise the loading dock system and contribute to the efficient transfer of goods and materials.

- Extruded dock bumpers
- Dura soft dock bumpers
- Steel faced dock bumpers
- Extra length dock bumpers
- Laminated dock bumpers
- Molded dock bumpers.

- PVC Expansion Joint
- Rubber expansion Joint
- SS with rubber expansion Joint

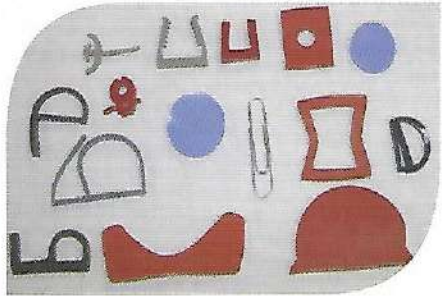

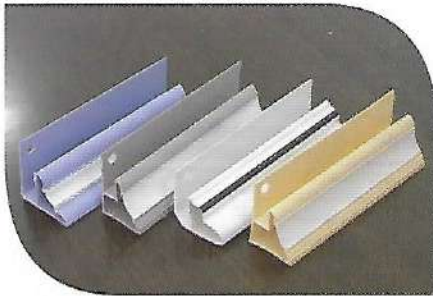

**Plastic products**

**Extrusion profile**

We manufacturing and trading of wide range of extrusion profile (Soft and Hard PVC). This is recognized for it's High quality, fine finish, durability, corrosive resistance, longer service life this highly demanded in the market .It is widely used in:-

- Interior and decorative industry
- Engineering
- Aluminum works
- Water stops in construction
- Marine
- Refrigeration industry
- Automobile
- Electrical

Also we supply all kinds of plastic injection moulded products by using Polyethylene, polypropylene, Nylon etc.

**Rubber Profiles**

A wide range of rubber profile of various shapes,cross sections, colours, Hardness and dimensions is available for the application in

- |                       |                 |                           |
|-----------------------|-----------------|---------------------------|
| • Building industry   | • Car industry  | • Marine industry         |
| • Automobile industry | • wood industry | • Engineering             |
| • Interior industry   | • Oil field     | • Electric power industry |

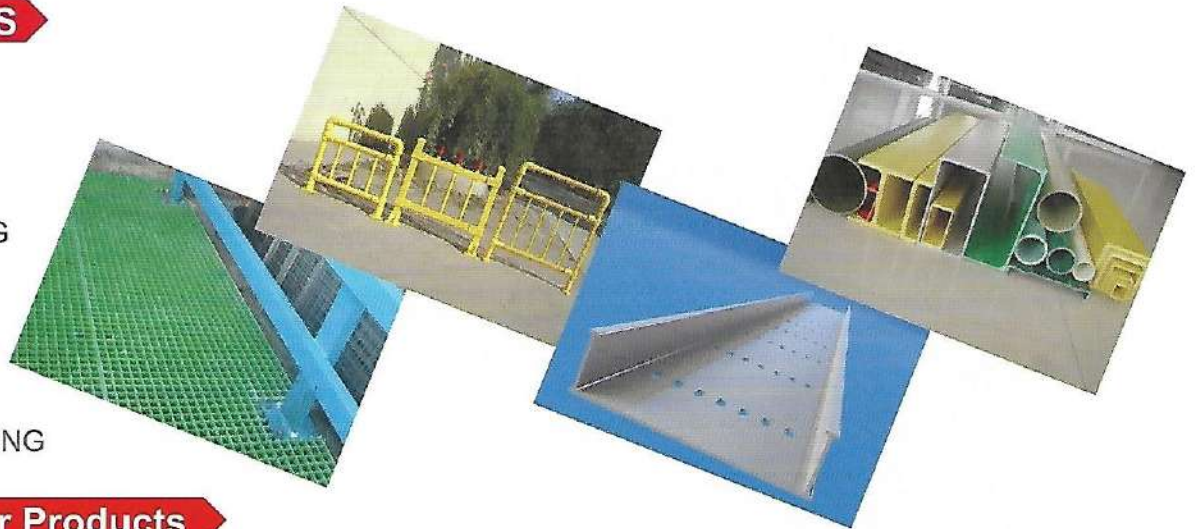

Profile are made from the following quality rubber compound, EPDM, CHLOROPRENE, SILICONE, SBR and NR.

## GRP PRODUCTS

- GRP GRATING
- STAIR TREADS
- FLOOR PLATES
- COVERED GRATING
- HAND RAILS
- LADDER
- CABLE TRAY
- REBARS
- CORROSION COATING

## Moulded Rubber Products

We are Highly adaptable to customer requirements a quick and reliable partner from design to serial production.

We produce industrial rubber products from all types of elastomer. EPDM, CR, NR, SBR, NBR, SILICONE, VITON etc. Products which combine Rubber / Metal ,Rubber / plastic and Rubber/ Foil.

Applications:

- Auto mobile industry
- Construction industry
- Marine
- Oil field
- Engineering.

## Seals, Gaskets and 'O' Rings

We manufacturing and trading Rubber and PU seals, Gasket and 'O' rings per customer specifications or standards. Standard Elastomer are using for this Neoprene, EPDM, SILICONE, NBR , Viton , NR/SBR and Polyurethane.

Also we supplying:

- Non asbestos gasket
- Spiral wound Gasket
- Metal Gasket ( SS, MS and GI )
- Engineering Plastic Gasket and seals (Teflon, Nylon, HDPE, UHMWPE, PVC and PP )

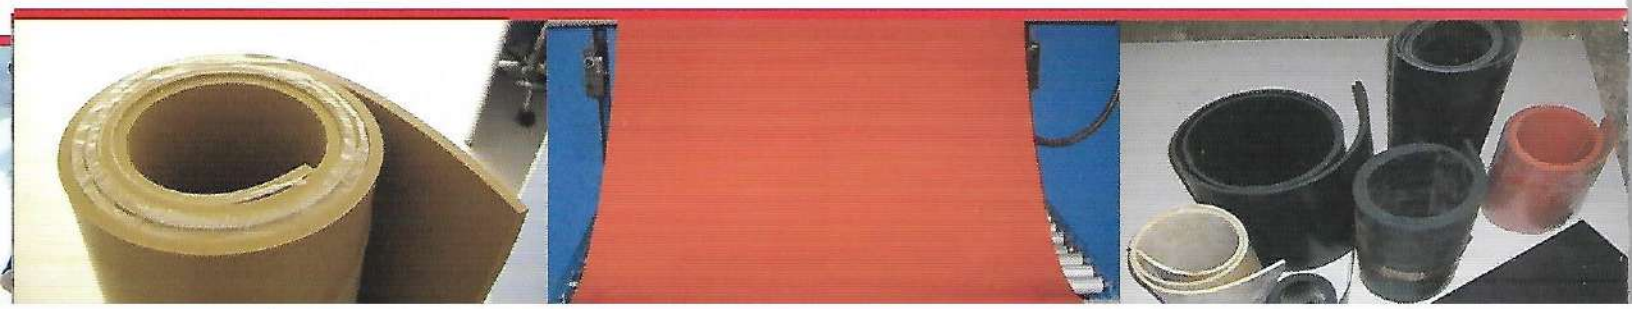

## Elastomeric Sheets

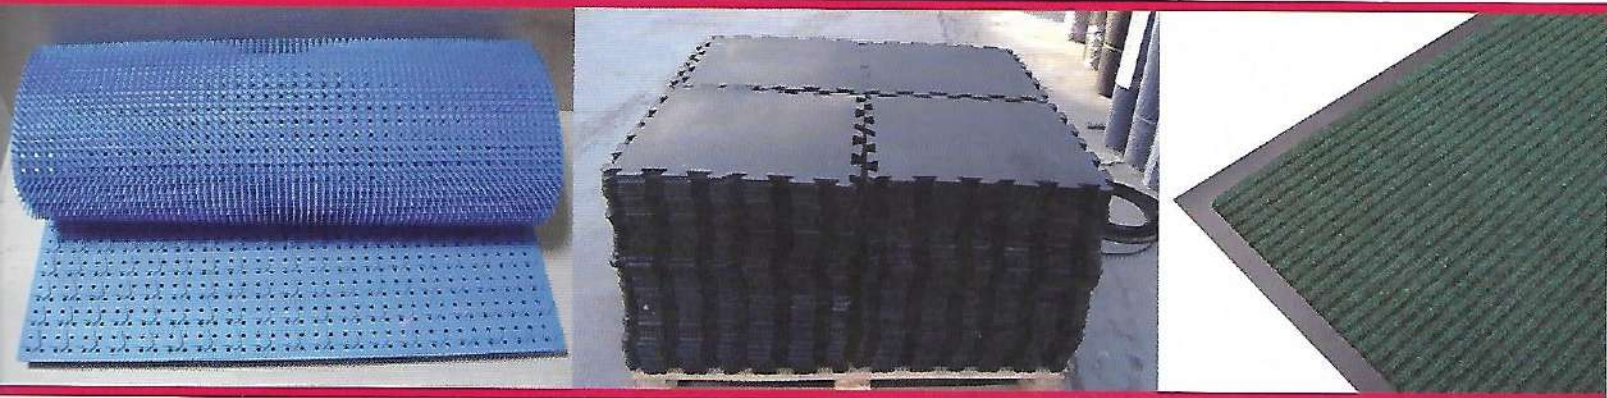

We are supplying a comprehensive range of rubber sheets from basic commercial compounds to highly technical sheets to match stringent customer specification.

The sheets are made in the forms of rolls length from 10 mtr to 20mtr and Thickness from 1 mm to 25 mm. More thickness we manufacturing as per request.

### Polymer Selection

	NR/SBR	NEOPRENE	NBR	EPDM	BUTYL	HYPALON	SILICONE	VITON
Operation temp	-30 TO + 70°C	-25 TO + 120°C	-30 TO + 120°C	-30 TO + 100°C	-40 TO + 150°C	-30 TO + 140°C	-60 TO + 225°C	-30 TO + 275°C
<b>Application</b>								
Petrol	Poor	Poor	Good	Poor	Poor	Poor	Poor	Excellent
Lubricating Oil	Poor	Fair	Good	Poor	Poor	Fair	Good	Excellent
Acids	Fair	Fair	Good	Excellent	Excellent	Excellent	Fair	Good
Alkali	Fair	Fair	Fair	Good	Excellent	Excellent	Fair	Fair
Hydraulic/phosphate	Poor	Poor	Poor	Good	Good	Fair	Good	Poor
Fluid/silicates	Poor	Good	Good	Fair	Fair	Good	Poor	Good
Abrasion Resistance	Excellent	Good	Good	Good	Good	Good	Fair	Good
Tear Strength	Good	Good	Good	Fair	Good	Fair	Poor	Fair
Impact Resistance	Excellent	Good	Fair	Good	Good	Good	Fair	Fair
Resilience	Excellent	Good	Good	Good	Fair	Good	Poor	Fair
Impermeable To Gases	Fair	Good	Good	Good	Excellent	Excellent	Poor	Excellent
Compression	Good	Good	Good	Fair	Fair	Fair	Good	Good

## Floor Mats

We supplying and installation of all kinds floor mats.

We are proud to offer you the most comprehensive selection of high quality floor mats such as: custom floor mats and logo floor mats; entrance mats, door mats, and welcome mats; anti fatigue mats, anti static mats, rubber mats, gym mats, chair mats, kitchen mats, pool mats, sticky mats, safety mats, Vinyl floor mats, Electrical resistance mats, Rib mats, Coin mats and bathroom mats. We welcome the opportunity to help you with any of your floor mat needs. Please contact one of our floor mat specialists for immediate assistance. As always, Walk Well.

### Electrical Resistance Mats

Mats for electrical resistance up to 32 KV are tested in our in house facility. ELMATS are designed to protects operatives from electrical shocks.

Width : 1 mtr to 1.2 mtr  
 Thickness : 6 mm and 9 mm  
 Length : 10mtr to 15 mtr

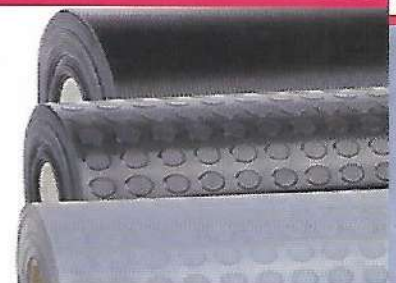

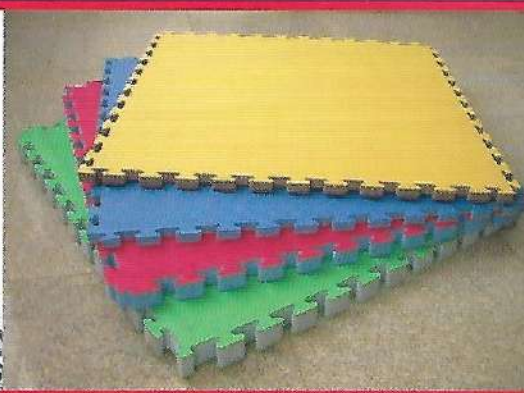

**Rib mats:** It is ideally suited for loose lay application for Floors, Walkways, Rubbers, Loading areas. Work benches, General purpose areas, Entrance ways, Doors, Stairs, Ramps etc.

It is classified to

- Fine Rib mat
- Flat rib mat
- Medium rib mat
- Wide Rib mat

Thickness : 2 mm to 6 mm  
 Width : 1 mtr to 1.2 mtr  
 Length : 10 mtr – 20 mtr  
 Colour : Red ,Black,Blue,Green and Grey

### **Chequerd Mats**

This mats is useful Indoor and Out door Application.

### **Coin mats**

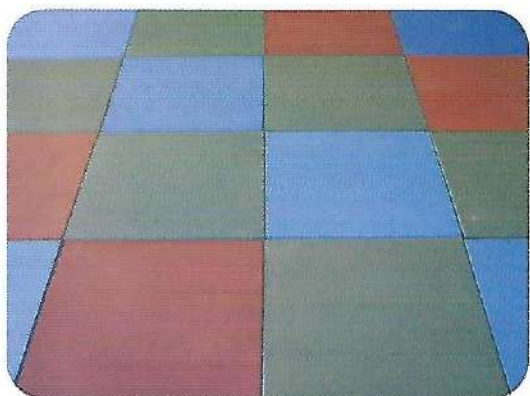

This flooring with a raised circular design on the surface. widely used in indoor application such as Airport, Hotels, Shopping malls etc.

Thickness : 3 mm to 6 mm

width : 1 mtr to 1.2 mtr

length : 10 mtr to 20 mtr

Colour : Black ,grey ,green ,red, blue etc.

### **Rubber Hollow mats**

It is the most commonly used rubber mats,It is classified for rubber hollow mats,Antislip rubber mats, Ring hollowmats, and ring door mats.

Thickness : 16 mm to 22 mm

Length X Width :-

40 cm x 60 cm , 50cm x 100 cm ,80 cm x 120 cm and 100 cm x 150 cm

### **VINYL FLOOR MATS**

Vinyl sheet is known for its Versatile array of design, Browse the selection ,now to find a durable and stylish Vinyl sheet floor in a look to match your Décor, Vinyl sheet is even available in wood, stone, ceramic and Slate visuals.

## ENGINEERING PLASTICS

We carry and supply large quality machinable plastic material used in manufacture of Seal, Gasket, Liners, Fastners, Valve, Oil free Piston Rings, Insulators, Marine fenders, Bushing, Miscellaneous parts of process plants, Machinery parts, and general Engineering spares.

### Commonly used engineering plastics are:-

- PTFE / TEFLON
- NYLON 6
- RIGID PVC
- POLYPROYLENE
- HDPE / PE 100
- POM / ACETAL / DELRIN
- UHMWPE

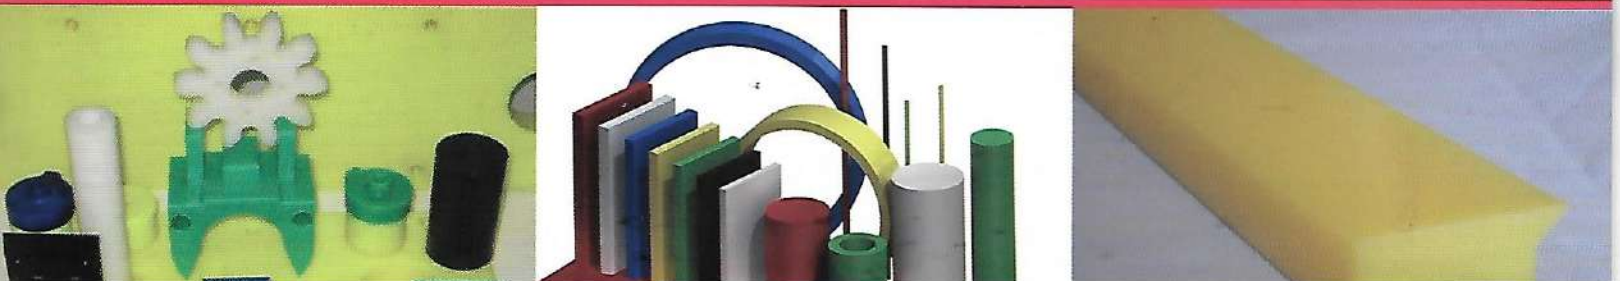

Standard forms : Rods and sheets

### Sheets:-

Sheet thickness : from 0.5 mm to 200 mm  
 Length : 1 mtr to 2 mtr  
 Width : 1 mtr

### Rods:-

Rods : Diameter 5 mm to 300 mm  
 Length : 500 mm to 1000 mm.

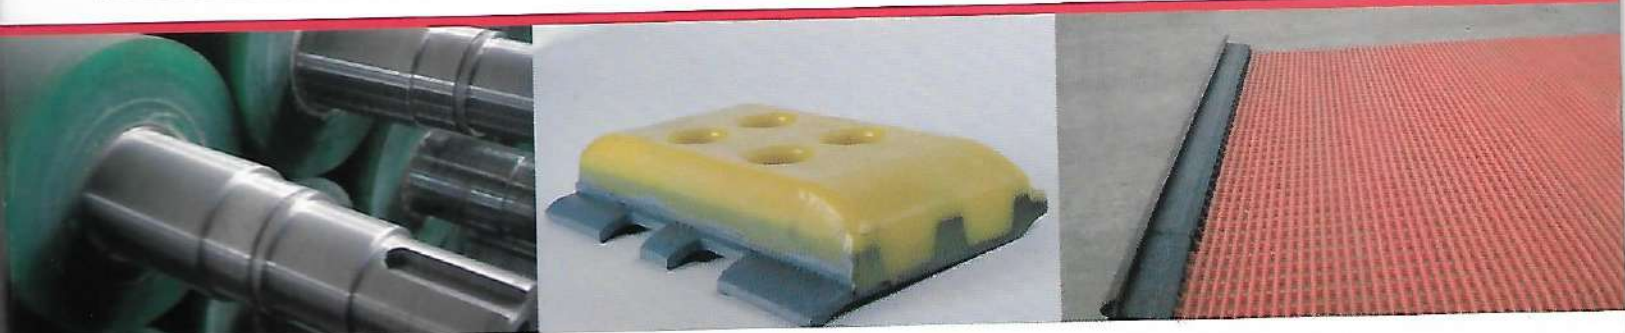

## Polyurethane Products

Polyurethane is Resilient, Flexible and durable manufactured materials that can take the place of paint, cotton, rubber, metal or wood in thousand of applications across virtually all fields.

## Product range

- PU Sheets, Rods, Bars, Tubes etc..
- Casting of PU rollers, Metal Plates etc.
- Polyurethane Bumpers.
- PU Cords
- Coil Storage Cradles.
- PU Coated Wheels

INDUSTRY	BONDED	UNBONDED
Mining, Quarrying and Civil Engineering	Rope pulley lining, Rotary screen plant rollers, crane wheels, cater pillar truck pads, Conveyor belt, scraper blades, Monorail vehicle tyres, pump impellers.	Abrasion resistance strips, Hydraulic seals, Belt scrapers, cyclone nozzles, rotary mill lining, pump diaphragms etc
Automobile industry	Cellular suspension unit Bonnet locator Bump stops, Heel mats	Cellular bearing seals Press tools, Bolcks, Grommets, Bearing, Shock absorb bushes, Flexible couplings.
Textile machinery	Knitting machine failing bars Yarn feed rollers, yarn twist rollers, drive rollers.	Loom pickers, loom buffers, cot rollers, machine coupling
Mechanical Handling	Hand, pallet and forklift tyres, conveyor rollers, pressure pads	Hydraulic seals ,Pneumatic seals and Buffers.
