About Formis Technologies

Formis Technologies is a UAE-based software company turning complexity into clarity through smart, scalable, and human-centered solutions.

Headquartered in Dubai, we build digital products like Formis ERP and our Smart Event Management System—designed with real-world challenges in mind.

With bilingual interfaces, automation, and seamless integration, our tools empower sectors such as government, education, energy, agriculture, and finance to work smarter and faster.

Blending regional insight with global standards, we partner with startups and enterprises alike to transform operational hurdles into digital opportunities—with the flexibility to grow alongside your business.

Our Vision

To shape the future of enterprise technology by delivering intelligent, adaptable, and regionally rooted software solutions that empower organizations to thrive in a dynamic world.

Our Mission

To design and deliver intuitive software products—like Formis ERP and our Smart Event Management System—that simplify operations, enable smarter decisions, and reflect the diverse needs of businesses across the UAE and beyond. We are committed to building solutions that combine local insight with global innovation to drive lasting digital transformation.

Our Products

Formis ERP

Built for Businesses That Want More

Formis ERP is an AI-powered, modular Enterprise Resource Planning system designed to unify your operations—from HR and finance to inventory and procurement—into a single intelligent platform.

From 50 to 5,000+ employees—Formis ERP grows as you grow.

Key Features

All-in-One System: Connects HR, Finance, Sales, Inventory, Procurement, and more

AI Intelligence: Real-time analytics, predictive insights, and smart alerts

HRMS Excellence: From payroll to visa/passport tracking—especially UAE compliance

Cloud-Native & Secure: 24/7 access, enterprise-grade security, and role-based controls

Modular & Customizable: Scales with you, adapts to your industry

Built for the UAE: Bilingual interface, local compliance, multi-currency support

Our Products

Event Management System

Reimagine Event Access with Real-Time Control

Manage entries, exits, and guest flows with a robust, QR-based smart ticketing platform. Designed for both private and public events, our system ensures smooth, secure, and scalable access management.

Key Features

Instant Digital Ticketing with personalized QR codes

Real-Time Entry Logs for full visibility and traceability

Individual & Group Tracking - ideal for families, schools, and gated communities

Custom Branding to match your event or organization

CRM Integrations for better data engagement and reporting

From corporate functions to gated access—manage it all with Formis Smart Event Management System.
