RECEPTION

PRODUCTION FLOW

Cutting

After receiving the fabric from store, cutting department cut the fabric as per required quantity & design and make the batching.

Stitching

Operators stitch the garments according to the batching numbers of cut panels. A supervisor guide the operators to make an accurate garments.

Branding

Our embroidery and printing department do the customers branding as per the customer's approved sample.

Quality control

A quality control inspector always does the inline inspection of stitching operators to make sure that everything is being stitched as per customer's requirements.

Finishing

Our finishing department checks the stitched garments to cut the loose threads and stitch the broken stitches before sending them to pressing department.

Pressing

100% finished garments will be steam pressed in pressing department.

Quality Assurance

Once the 100% shipment gets ready, quality auditor conducts the inspection of the shipment according to the customer's approved sample.

Packing & dispatch

After the successful inspection of the shipment, it will be packed and dispatched to the customer.
