Lights

We offers a wide range of Energy Saving Solutions for Hotels, Shops, Shopping Malls, Villas, Apartments, Schools, Hospitals, Maosque Etc..

Go Green, Save Power, Save Money, Save Earth

UAE: Light bulbs that are not energy efficient will be banned across the country from mid-2013 as the Emirates Authority for Standardization and Metrology (ESMA) expands its range of efficiency standards to cover more electrical equipment and appliances

Teh new standards will require all light bulbs sold and used in the country to be eco-friendly as per the rating system, which will be announced early next year.

Only the likes of compact fluorescent light bulbs and LED bulbs will fall into the approved category, under the rating currently being devised.
