▪ Rubber Fenders
▪ Container Seals
▪ Glass Beadings
▪ Setting Blocks
▪ Silicon, Rubber Profile
▪ P.U. Products
▪ Automobile Seals & PVC Profiles
▪ Rubber Sheets
▪ Rubber Moulded Products

SILICON & PVC PROFILE

SILICONE PROFILE | ROUND PROFILE | SQUARE PROFILE

EPDM RUBBER PROFILE (SOLID & SPONGE)

EPDM PROFILE | SOLID TYPE | SPONGE TYPE | HATCH TYPE

POLYURETHANE PRODUCTS

PU BUSH | PU ROD | PU SHEET | PU CORNER GUARDS | PU SEALS | PU ROLLER | PU BUFFER

MARINE FENDERS

D FENDER | HOLLOW TYPE | SOLID TYPE ALL KINDS OF FENDERS

RUBBER MOUNTING & PACKING

CYLINDRICAL MOUNTS | CONICAL MOUNTS | CAPTIVE MOUNTS | SPONGE MOUNTS | RUBBER BUMPER

RUBBER CORDS, O RINGS

NBR CORD | SILICON CORD | VITON CORD | VITON O RINGS | OILSEALS | NBR O RINGS

CUSTOMISED PRODUCTS

GASKETS | BUSHES & SEALS | DIAPHRAG | RUBBER CHUTE | RUBBER LINER | LIFTING PADS

BUILDING SAFETY PRODUCTS

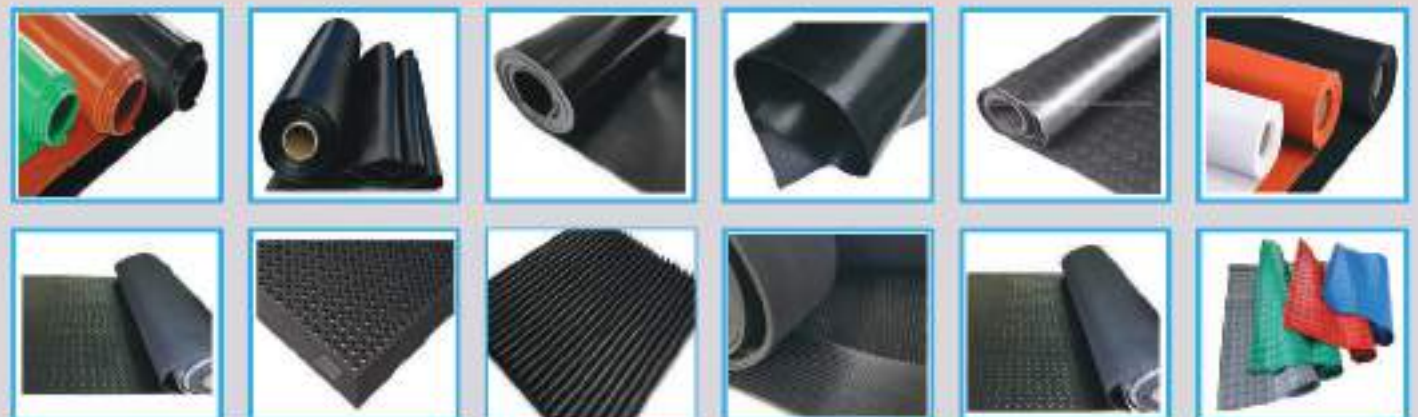

WALL GUARD | CORNER GUARD | SPEED HUMP ETC.

RUBBER MOULDING PRODUCTS

RUBBER SHEETS & FLOOR MATS

Silicon | NR SBR | NBR | NEOPRENE | EPDM | VITON | FABRIC INSERTION | ELECTRIC RESISTANT
 STABLE MATS | CHEQURED MATS | COIN MATS | GYM MATS | RIBBED MATS

WHEEL STOPPER

K guard is specifically build to be use as wheel stoppers.

FEATURES

K guard are supplied in standard size of 137mm x 100mm with the standard unit length of 1.2mtr. However the length can be supplied as per customers specifications and requirements.

It features a yellow reflective cover strip which gives an aesthetically pleasing and attractive finished. It also covers the fixing accessories giving it an smooth appearance, this available in two different sizes and shapes.

INSTALLATION

Fixing hole are drilled throughout the height of the guard at the top side.

RUBBER CORNER GUARD

Golden Sky Rubber are manufacture from high tensile EPDM /Natural Rubber. Corner Guard also available with bright yellow hazard warning colour strips which are visible from distances.

Available Sizes:

- 55mm wing size x 1mtr, 1.2mtr, 1.5mtr Length
- 65mm wing size x 1mtr, 1.2mtr, 1.5mtr Length
- 90mm wing size x 1mtr, 1.2mtr, 1.5mtr Length
- 120mm wing size x 1mtr, 1.2mtr, 1.5mtr Length

Salient Features:

- Easy Installation
- Maintenance Free
- Tough & long lasting in severe weather
- Made from all Natural/EPDM rubber

OIL SEAL

We manufacture the following types of oil seals in various sizes as per the customers specific requirement.

Metal inserted (Single and double lip)

Metal Claded or Outside Metal

Closed Type (MOC)

Applications :

Gear Motors, Transmission Drives, Pumps, Auto Industries

Agriculture Pumps & Sprayers etc.

RUBBER GASKETS

We manufacture a large variety of Rubber Gaskets of different shapes and sizes. We can also manufacture them according to the specific requirement of the customers.

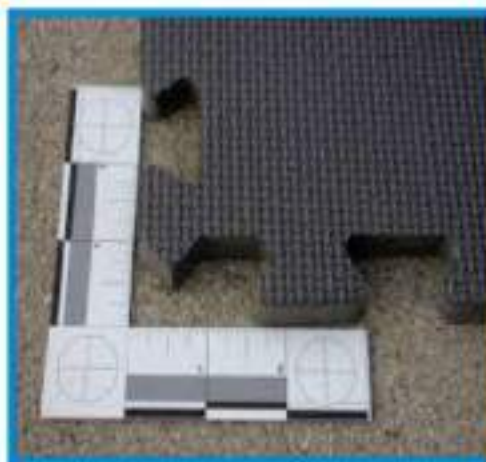

Filtration Gaskets, Flange Gaskets, Envelope Gaskets, PCD Hole Gaskets, Rectangle Gaskets, Oval Shapes Gaskets, T-type & D-types Gaskets, PHE Gaskets, Piston Gaskets, Metal bonded Gaskets, Pipe Fitting Gaskets, Electrical Panel Gaskets, Enclosure Gaskets, Dying machine Gaskets, Autoclave & Triclover Gaskets.

Applications: Equipments & Machineries, Heat Exchanger, Pipe Fitting, Flange Packing, Pumps & Valves, Electrical Instruments Panel Board.

RUBBER GRABBER PADS

Grabber pads are used in cement block industries, Forklift in concrete and on transport vehicles. We manufacture in high tensile strength, high abrasive and good resistance against wear and tear applications.

POLYURETHANE PRODUCTS

PIPELINE PIGS

Cups

Sealing Cups

Sealing Disc

Sealing Disc Installed

WHEELS

Wheel

PU Coating on Wheels

PU Coating on Cast Iron

MIXER BLADES

COATING ON BEARINGS

ROLLERS

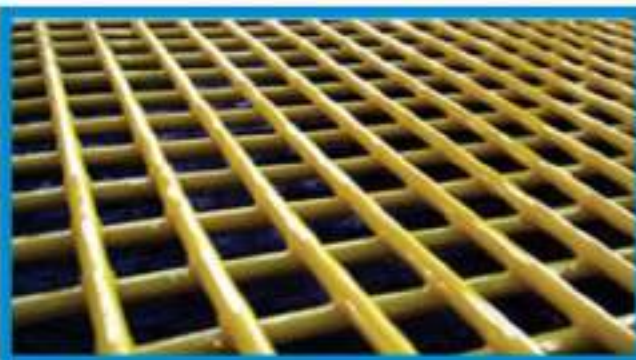

CRUSHER SCREENS

Screens

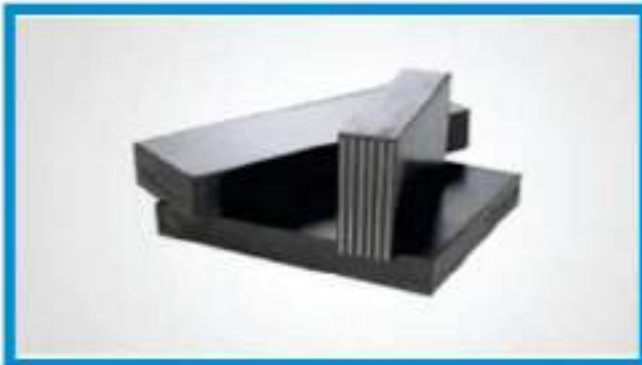

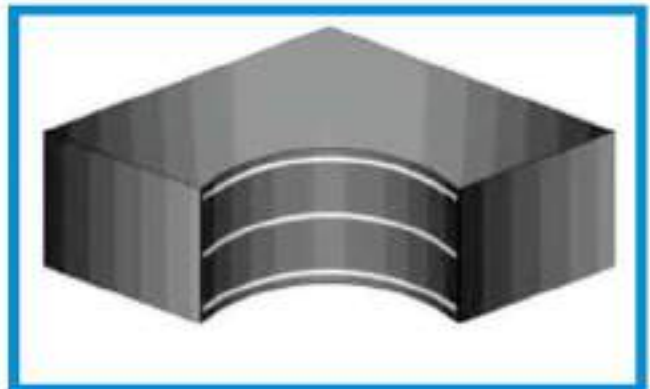

Screens

PU Screens

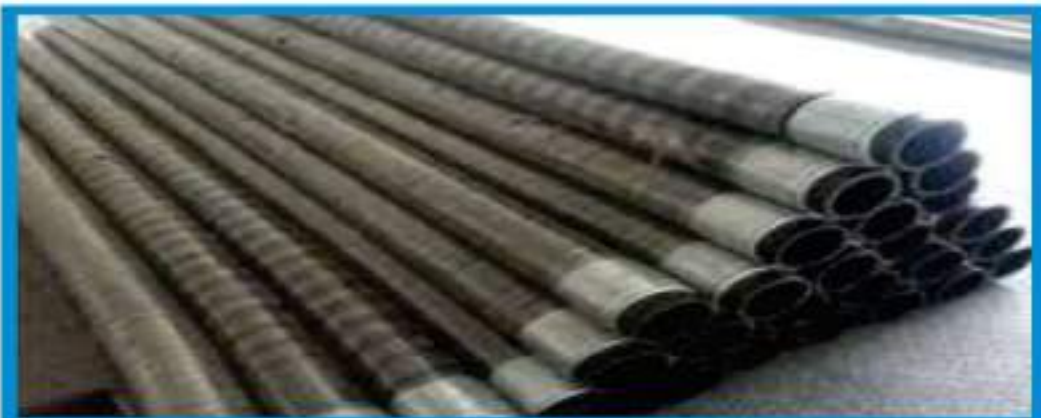

ELASTOMER BEARING PADS

ELASTOMER BEARING PADS are designed for used in Bridges and other structures such as Building as a vertical Load Bearing componants. They manufacture from high quality material with type of Plain, Circulars and numbers of Layers Steel Plates depending on the type of bearing highly strong & extremely resistance to weathering , ageing with almost no influence from UV radiations and Ozone.

RUBBER CONCRETE CHUTE

Chute which are mainly used for discharging the dust from bag filter or cyclomax hooper. We are instrumental in presenting superior quality array of rubber chute. This rubber chute known for its rigid construction, low maintenance and hassle free performance. Chute rubber is corrosion resistant, high strength and fire retardant.

SPEED HUMPS

Golden Sky Rubber manufacture by compression molded natural rubber compound with 10% blend EPDM polymer for increase heat resistance and weathering.

Salient Features

Easy and fast installation and removal

Lower cost as compare to concrete/asphalt.

It can be installed by single person using single tool.

Available Sizes

Width - 500mm

Height – 75mm/50mm/40mm

Length – 500mm

EXTRUDED GASKETS

As per the customers specific needs & area of applications, we can manufacture wide range of extruded gaskets & profiles in various shapes, designs & sizes.

Door beading gaskets, Glass Beading Gaskets, Gaskets for Ropeway cables, Gaskets for Monorails platforms.-type Profiles.

Half round, Oval, Hexagonal & various other shapes Profiles.

Applications : Pharmaceutical Industries, Cable Ropeway, Beam Dying & Jet Dying Machines, Furnace Chambers, Chemical Vessels, Automotive Industries, Petrochemical & Fertilizer Plant.

BELLOWS, BOOTS AND RUBBER BUSH

We manufacture Rubber Bellows & Bushes of different Shapes & sizes made from a variety of rubber grads like Neoprene, EPDM, Nitrile, Silicon, Viton or Natural Rubber. We can also manufacture them according to customers specifications.

Applications : Automobile Industries, Electrical Insulations, Steering Systems, Suspension Joints.

We manufacture a wide range of Rubber Sheets made from a variety of rubber grades like Neoprene, EPDM, Nitrile, Butyl, Chloroprene and others. This sheets are available with or without cotton/nylon insertions. Depending upon the requirements of our customers . We manufacture this sheets in various sizes & thickness with both smooth and textured finished.

Advantages & Applications : Temperature Resistance, Electrical Resistance, Abrasion Resistance, Steam and other Jointing Gaskets and packaging materials, Food Grade Sheets, Flame Retardant Sheets, Insertion Sheets etc.

EXTRUDED PROFILES

CORDS (SOLID AND SPONGE TYPE)

We manufacture a wide range of extruded rubber cords in various sizes (ranging from 1.5mm to 50mm dia) to meet the specification requirements of our customers. This cords are manufacture from all type of rubber grades like Silicon, Viton, Nitrile, EPDM etc.

Applications: Electrical control Panels & Junctions Boxes, Chemical Processing Industries, Pharmaceutical Plant Equipments, Automobile Industries, Aeronautical Industries.

EXTRUDED RUBBER STRIPS

We manufacture wide range of Rubber Strips in various shapes (Rectangle, Triangle, Square or any other shapes) & sizes ranging from width (2mm to 100mm) & thickness (1.5m to 50mm or more) as per the specific requirements of our customers. This strips can be made from all types of Rubber Grades like Viton, Silicon, Neoprene, Nitrile, EPDM, Natural in solid as well as sponge type.

DIAPHRAGMS

We can manufacture Rubber Diaphragms which are bonded with brass, mild-steel or Stainless-Steel Stud. We also manufacture Diaphragms that are Metal inserted, Gasketed, Teflon Laminated or that are reinforced with Fabric, Nylon, Canvas wire mesh etc.

Applications: Electrical & Pneumatic Control Valves, Pressure Regulators, Saunders Valves, Solenoids Valves, High Pressure Pumps, Actuators, Angle Valves, Dust Collectors etc.

ANTI VIBRATION MOUNT

We manufacture various types of Metal-Rubber bonded products as per our customers requirements. They have various applications including automotive braking systems, Fuel-dispensing equipments and oil field completions tools etc.

We also manufacture Rubber Mountings (Metal Bonded) & Anti Vibration Pads which have advantages like high durability, Heat resistance, Shock Absorbent and preciseness.

Applications : Air Conditioners, Compressors, Generators sets, Electric Motors, Automotive Radiators and Vibratory Feeders.

MOULDED RUBBER PRODUCTS

O-RINGS

We specialized in manufacturing in O rings. Ranging from 1mm to 1000mm. We can manufacture O-rings from all types of Rubber Grades like Silicon, Viton, EPDM, Nitrile, Polyurethane and other. We can also provide sizes above 1000mm through Step-molding process.

Applications

Used in pumps & Valves, Mechanical Seals, Actuators, Hydraulic & Pneumatic cylinders, Filters, Lubrication Systems etc.

RUBBER SEALS

We manufacture variety of Seals which vary depending on their physicality and area of applications.

- Seal Kit for Cylinder, Rod Seals, Lip Seals, Hydraulic Seals, Bucket Seals, Dust Seals, Air Seals, Piston Seals, Rotary Shaft Seals Cup Seals, Nut Seals, Chevron Seals are some other types fo Rubber Seals that we manufacture.
- U-V Seals are asymmetrical lip profile with its inner part grooved in 'U' or 'V' shaped to provide sealing and prevent the ingress of dust, oil, fluids or other hazardous particles.

Application : Hydraulic and Pneumatic application, Gears Pumps & Valves, Auto Industries etc.

- **Wiper Seals** are often used for fluid containment and to prevent dirt from entering a reciprocating shaft mechanism.
- **Quad Rings** are seals that are design with a section of 4 lobes offering symmetry advantages similar to a O rings, but providing an improved solution for the sealing of Pneumatic applications.
