GREENHAWK

DO YOU WANT YOUR OFFICE OR HOTEL SPACES TO HAVE THE TRENDIEST INTERIORS?

Look no further as we at GreenHawk can supply & install for you the best carpet, raised access floor, ceiling, or demountable partition products in UAE. We represent some of the best brands in the world. Together with our impeccable service record and able team rest assured your project is in safe hands.

GREENHAWK Middle East is a subsidiary of Greenhawk Corp USA. We aim to inspire people with innovative interior fit-out products aligned to the latest global trends.

OUR PARENT COMPANY

GREEN HAWK CORP - USA

Our parent company, GreenHawk Corporation, Inc. (“GreenHawk-USA”) is a holding company formed in 2009 and is headquartered in Raleigh, North Carolina, USA. It owns and manages an extensive portfolio of operating and investment entities. These operating entities focus primarily on real estate development, construction and property management.

GreenHawk-USA purchases and develops over 600 residential lots per year through affiliated companies and is currently constructing and managing over 500,000 square feet of commercial properties. Through operating partners, GreenHawk-USA has significant investments in multi-family, hospitality and student housing throughout the US. The investment entities manage diversified portfolios in the public markets, private equity and venture capital and provide performance reporting and investment administration.

CARPET TILES

The versatility and flexibility of carpet tile from our flooring partner Belgotex International offers nearly limitless possibilities without compromising on style, quality or value. Carpet tile is a durable solution for the office space, allowing added texture, edgy combinations and endless options in running line and custom patterns.

BROADLOOM CARPET

Our broadloom also comes in a variety of style types such as loop, pattern, texture and frieze. We offer a wide variety of design options which are great for any welcome areas of hotels. These exquisite designs help you in creating a great first impression to all the guests.

HAND TUFTED CARPET

Custom hand-tufted carpets provide numerous possibilities in terms of shapes and patterns. This challenge is rightly accepted by our designers as they go to any extent to create the most complex of designs in the most royal and charming manner.

RUGS

Fuelled by an uncontrollable curiosity our rugs partner VOKS is devoted to discovering distinctive rugs of the world for anyone who values quality under foot as much as we do. Colour and material is core to our journey of curation. We select rugs created from the finest yarns and fibres to guarantee quality at the source

WOODEN FLOORS

ENGINEERED WOOD
LAMINATE FLOORING
OUTDOOR DECKING

WOODEN FLOORS | Variants

ENGINEERED WOOD

Engineered wood flooring which is brought to you by Greenhawk is quite simply, hardwood flooring where the boards consist of more than one layer. It looks and feels just like a traditional wooden floor because the top layer is real solid hardwood. What's more, it offers all the benefits of a traditional wooden floor, plus a significant number of other benefits

LAMINATE FLOORING

High-quality and robust laminate floors made from sustainable High-quality wood is the primary material for Greenhawk laminate floors. Our innovative laminate technology ensures stylish flooring covers that leave nothing to be desired in terms of care, resistance, and indoor climate. Get in touch with the GreenHawk team to know more about the products we offer under laminate flooring.

OUTDOOR DECKING

The durable construction of Excelon VCT by Armstrong ensures lasting beauty in high-traffic areas, while flowing linear patterns, organic looks, and densely patterned earth tones effectively mask scuffs and soil in busy commercial spaces. Developed through Continuum Solutions, Excelon VCT harmonizes with other products across the entire Armstrong Flooring portfolio to help you execute your design vision.

VINYL TILES

Luxury Vinyl Tile (LVT)
Stone Plastic Composite (SPC)
Vinyl Composite Tile (VCT)

VINYL TILES | Variants

LUXURY VINYL TILE (LVT)

Explore Belgotex's range of specialized and luxury vinyl flooring products. Engineered to be hard-wearing and easy to maintain, while still being cost effective, their vinyl products excel in a range of applications spanning commercial and residential.

Some of the Belgotex LVT products that we bring, can be coordinated with carpets by being integrated into the design during fitting, or by being superimposed to create a rug effect

STONE PLASTIC COMPOSITE

Stone Plastic Composite is known for being 100% waterproof with unparalleled durability, these engineered luxury vinyl planks use advanced technologies to beautifully mimic natural wood and stone at a lower price point.

Also known as RVP (Rigid Vinyl Plan) it is made of heated and mixed PVC powder, stabilizer and other additives, which are processed through extrusion molding by professional equipment under the effect of high temperature

VINYL COMPOSITE TILE

The durable construction of Excelon VCT by Armstrong ensures lasting beauty in high-traffic areas, while flowing linear patterns, organic looks, and densely patterned earth tones effectively mask scuffs and soil in busy commercial spaces.

Developed through Continuum Solutions, Excelon VCT harmonizes with other products across the entire Armstrong Flooring portfolio to help you execute your design vision

RAISED ACCESS FLOOR

Steel Cementitious

Woodcore

Calcium Sulphate

Calcium Sulphate Interlock System

Aluminium

Perforated panels & air grills

Raised Access Floor | Variants

STEEL CEMENTITIOUS

The Greenhawk CF Panel is consisting of a welded steel case with an enclosed die formed bottom pan created in a high-pressure molding process without any welded corners. The top sheet is welded to the base and panels are in-filled with specially designed light weight cementitious compound.

WOODCORE

The FEW Panel is constructed from a High strength structural Woodcore fully encased in Bottom Steel Pan and Top Steel Sheet

The CWC Panel is constructed from a High strength structural Woodcore with Top and Bottom Steel Sheets and Plastic Edge Trim.

CALCIUM SULPHATE

The Calcium Sulphate Panels are constructed from a High strength structural Calcium Sulphate core providing unparalleled moisture resistance combined with excellent loading performance and sound deadening qualities.

CALCIUM SULPHATE INTERLOCK SYSTEM

The CS-IL (Calcium Sulphate Interlock System) has been designed specifically for Stone, Porcelain, Ceramic Finish applications. The Panels are made from a High Strength calcium sulphate core with a bare exposed top, bottom steel sheet and Interlock edge profile. direct stone finish applications.

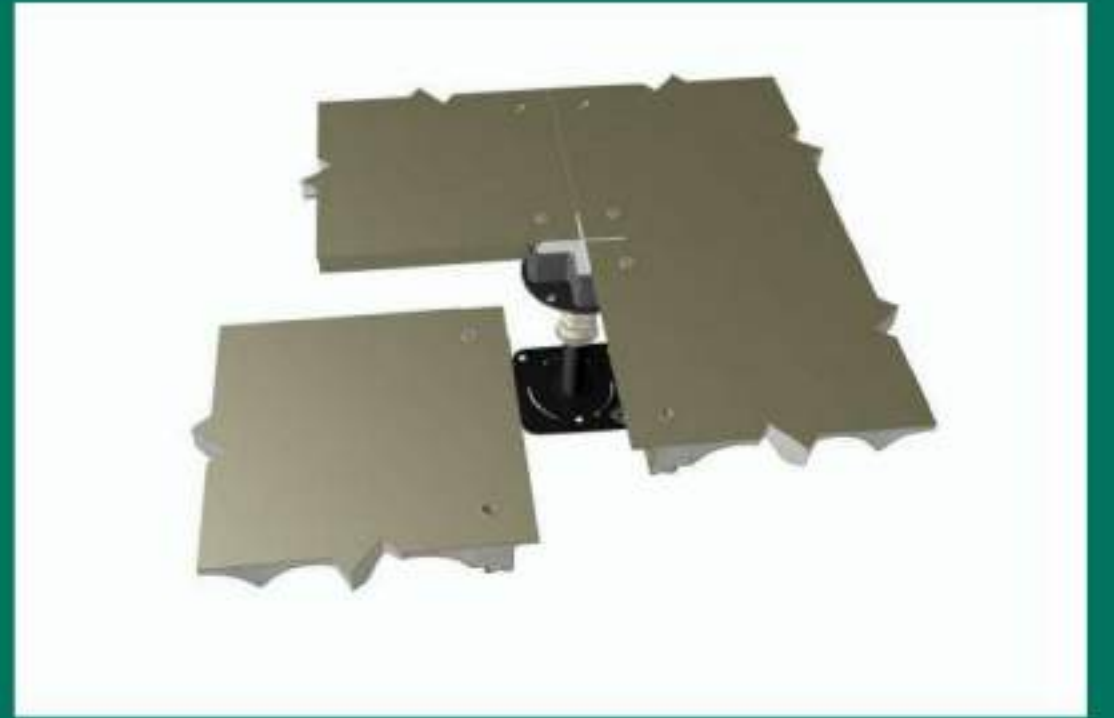

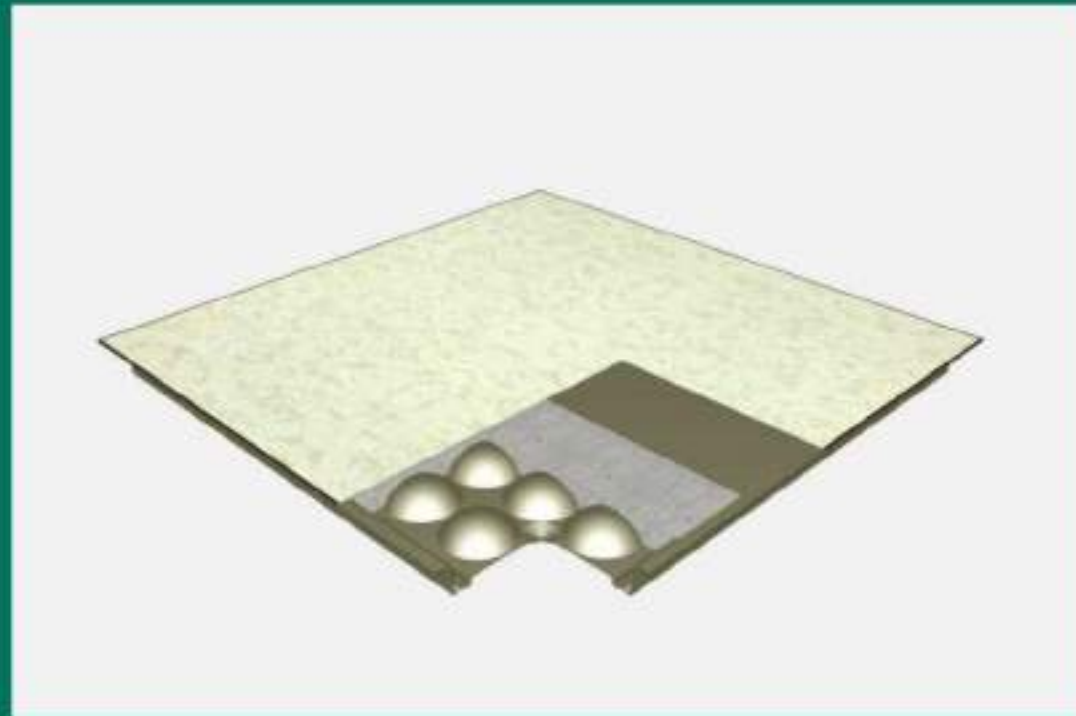

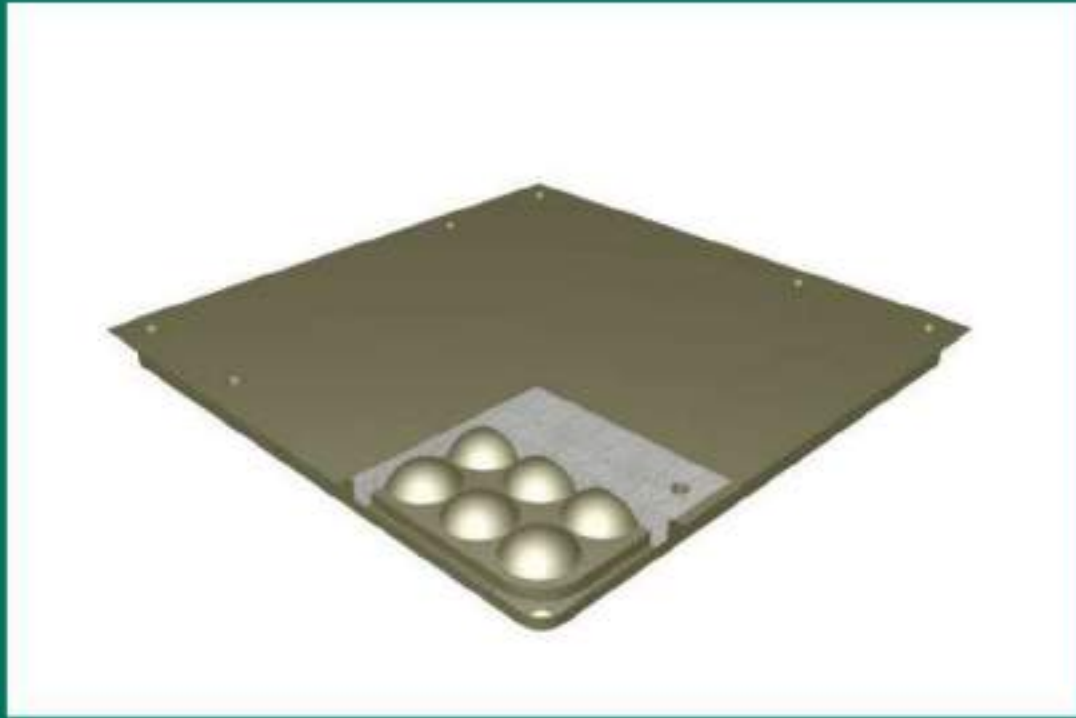

ALUMINIUM

GreenHawk Aluminum Floating Floors are the ideal solution for class M1 applications. This access floor system consists of complete die cast aluminum components that are typically used in hi-tech environments such as biomedical, microelectronic, pharmaceutical and laboratory facilities

PERFORATED PANELS & AIR GRILLS

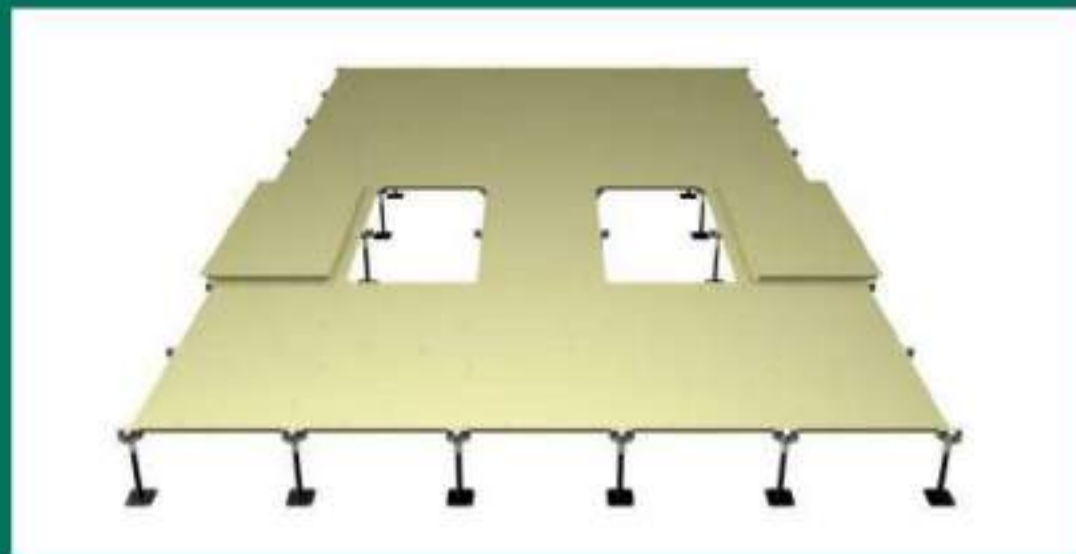

Perforated raised floor panels are designed to meet the technical room static and rolling loads requirements, of data centres. They are designed to ensure a continuous flow of air from the raised access floor plenum in order to improve the optimal room equipment cooling management

CEILINGS

Lay In Ceiling

Clip In Ceiling

Linear Ceiling

Open Cell Ceiling

Baffle Ceiling

Stretched Metal Ceiling

CEILING | Variants

LAY IN CEILING

Lay InCeiling by Apton features AP-101 which offers a tegular (Tee Grid) finish metal ceiling. Lay-in tiles offer a quick access to the ceiling void through a simple and safe mount and dismount mechanism.

Typical applications of Apton AP-101 include commercial offices, data centres and labs. Apton AP-101 is available in any RAL colour and in a special Anti-microbial finish

CLIP IN CEILING

The clip in range by Apton features AP-102 which offers hinge down access to the ceiling void.

Ceiling tiles pivot within the grid, minimizing tile displacement and maximizing open access to the ceiling void. Ideally suited to areas requiring frequent maintenance, or zones with high footfall.

LINEAR CEILING

In Linear Ceiling, (as the name suggests) Greenhawk brings you AP-103 from Apton which offers linear strip-like aesthetic ceiling with endless variations of materials, colors, and unexpected details. This type of ceiling will give you more ways than ever to make your designs align.

OPEN CELL CEILING

Open cell ceiling such as Apton AP-104 is a decorative cell ceiling designed to maximize airflow and smoke extraction. This system comprises of a series of cell modules designed to lay onto a suspension (tee) grid. These ceiling tiles integrate well with other metal ceilings or plasterboard finishes

BAFFLE CEILING

Baffle ceiling which is also known as design ceiling features AP-105 from Apton & it offers a spatial pattern with a linear open ceiling. They are simple to install and offer easy access to the ceiling plenum for maintenance. Baffle Ceilings can also be optimised in dimension and shape to suit specific project aesthetics requirements

STRETCHED METAL CEILING

Also known as Mesh Ceilings, these systems are an ideal choice to achieve contemporary design aesthetics as an alternative to the exposed soffit. Across commercial, transportation, retail, leisure and educational sectors,

Framed Glazed Partition

Fire Rated Partition

Bi Block

Movable Wall Partitions

Partition Doors

DEMOUNTABLE PARTITIONS | Variants

FRAMELESS GLAZED PARTITION

Frameless glass partitions from our wall solutions partner Apton brings the benefit of glass to the workplace -transparency, daylighting, versatility, efficiency, space saving, and low cost of ownership. The wall systems come in a range of sleek but rugged minimalist designs and configurations

FRAMED GLAZED PARTITION

A range of framed glass partitioning systems can be supplied and installed by GreenHawk to include fire and acoustic performance if required. All of the framed glazing options are available in both single or double glazed and are demountable to be relocated if required.

FIRE RATED PARTITION

Our fire-rated partitions offer fire resistance performance according to appropriate European standards. Fire resistance performance of FR30/0, FR30/30, FR60/30 and FR60/0, FR60/30, FR60/60 to BS476 part 22 can be achieved by using a range of glass thickness from 6mm to 25mm

BI BLOCK

Bi-block partition system for elegant building solutions. Partitions under bi block variant offers fine panel joint details, slim window frames and vertical and horizontal panels - all without visible fixings, to ensure a smooth and elegant flush-finish.

MOVABLE PARTITIONS

Intelligent solutions for flexible space utilization, whether sound insulated or transparent - our movable walls with flexible partitions enable efficient space utilization for almost any configuration. Regardless of their characteristics and function, rooms can be effortlessly partitioned, made smaller, larger or reportioned to suit individual requirements.

PARTITION DOORS

Apton Doors are designed to perfectly fit the Apton Partitioning range. The Doors range comprises of: Frameless Doors, Framed Doors, Stile Doors (Acoustic Framed Doors), Quartzslide Doors, and GDS Doors (Double-glazed Acoustic Doors)
