Gulfline

One-Stop Solution for Your Engineering Needs

www.glf.ae

GULFLINE has a well-equipped and experienced team for erecting heavy structural steel products, storage tanks, pipelines, oilfield equipment and testing products. The team has more than 20 years of experience in erecting complicated structural products

About Us

We strive for excellence in client relationships and the provision of services. We undertake projects in a manner that provides value to our clients by at all times trying to exceed their expectations.

GULFLINE is a sustainable company involved in the designing, engineering, fabrication and installation of steel structures for various kinds of infrastructures related to industrial and commercial structures, power generation, Communication systems and other miscellaneous steel products.

Gulfline takes an engineering approach to every job, instituting systems and using latest technology that ensure quality andcost effciency. Attention to co-ordination, control and scheduling helps minimize waste and maximize output. With our vast experience and backed by the trust of our customers,

GULFLINE has further resolved to go the extra mile in providing services of highest quality to our valued clientele, exceeding their expectations.

GULFLINE has developed an outstanding reputation in providing industrial and commercial structures, such as Pre-engineered Steel Structure and Structural Steel. We are known for our dependable deliveries while maintaining very tight construction and maintenance schedulling while special care is given to offer a very competitive price. We design, engineer and fabricate steel structures for a variety of industries:

Commercial

- Multi-story steel buildings.
- Pedestrian bridges.
- Warehouses.
- Decker canopies.
- Car parks.
- Architectural displays.

Industrial

- Factories
  Mezzanine structure & precast hangers, steel plate layout and cable rolls, structure silo, hopper, continuous mill, conveyors, platforms, filter & glaze tanks, etc.
- Cement Plants:
  Steel structure, etc.
- RO plants:
  Saline water pipelines, etc.
- Steel mills:
  Shutdown works, etc.

Our Services

Mechanical Maintenance

- Installaion, Overhauling and Maintenance of Various Rotary and Static Equipments for steel rolling mills and power generation sectors.
- Overhauling of Industrial Gearboxes, EOT Cranes, hoists, Monorail systems, etc.
- Reverse engineering, Designing, Metallurgy and manufacturing.

Piping

- 2D / 3D design & modelling
- All kinds of steel piping works
- GRE, GRV, GRP piping
- Operation Maintenance and AMC Contracts
- Maintenance of Desalination & Chiller Plant System
- Preparation of Design Basis and Standard Drawings
- Preparation of Line list according to P & ID

Our Group Of Companies

GULF LINE CONST. METALIC PARTS IND LLC
Mechanical, structural and engineering workshop, contract company, Sharjah

VOICE INTERNATIONAL TECHNICAL SERVICES LLC
MEP Company, Dubai

WHITE & BRIGHT TECHNICAL SERVICES LLC
Mechanical Electrical and C&I Engineering Contract Company, Dubai

WHITE & BRIGHT ENGINEERING SERVICES LLC
Mechanical Electrical and C&I Engineering Contract Company, Abudhabi

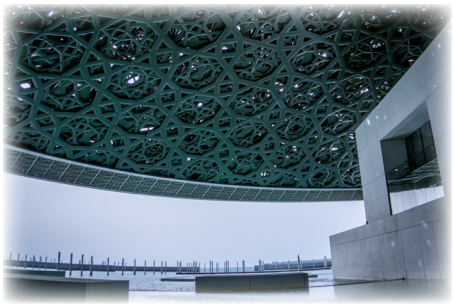

Zayed National Museum
The UAE's Proud

We proud to say... that Gulf Line provided our customer with the essential component needed to install the POD's gallery using the standard monorail lifting method by using structural steel design. We designed.. planned, produced, and erected everything within the budget and time.

Louvre
Abu Dhabi

We are happy to have worked with the principal contractor on all interior museum projects as well as the installation of external structures. We were also one of the best suppliers throughout the duration of the project

The Yas Hotel

We took part in the prefabrication and construction of the spectacular nation build project YAS MARINA CIRCUIT HOTEL, incorporating MS Waagner Biro, one of the most complex engineers in history, into the structural design. We have participated in prefabrication and erecting support to the remarkable Nation wide project YAS MARINA CIRCUIT HOTEL in making of canopy incorporated MS Waagner Biro the complicated engineers ever in the world.

Emirates Steel Arkan

For the shutdown work at Emirates Steel, we are one of the main providers for all kinds of mechanical, electrical, and civil subcontractors. With ESI, we have completed many outstanding projects that have garnered praise and are still ongoing.

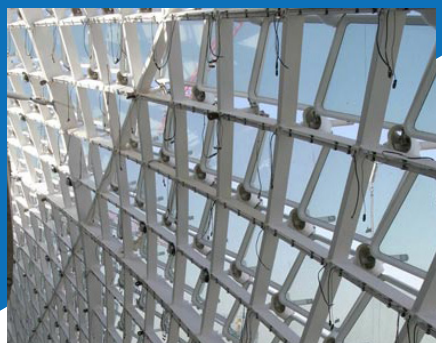

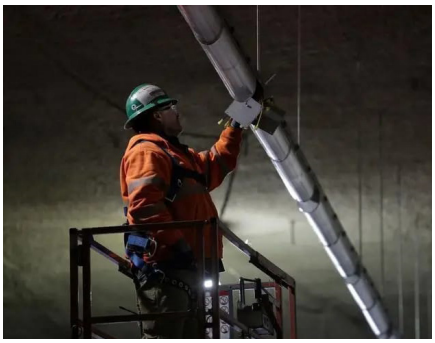

Pre Fabricated
Steel Structures

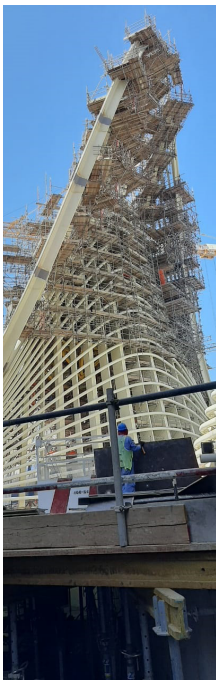

We are one of the leading fabricators and erectors of pre-engineered steel sheds and factories in the region with the affordable rate with the quality that withstand the test of time.
