INTRODUCTION

Inverness Technical Electronic Doors Services LLC is established in 2013 in Abu Dhabi under the commercial license of Abu Dhabi Economic Department and has shown tremendous maturity over a short span in providing the best services in the area of entrance technology, pedestrian access, traffic barriers, access control, rolling shutters door, garage doors supply, installation and related services. This common sense approach gives our customers the flexibility to custom design their varying service needs and budget requirements.

With Inverness Technical Electronic Doors Services LLC, you can be assured your equipment is kept in top operating condition, maintenance is completed as required, parts supply and replacement meet manufacturer's specification and all activity is documented to make the installation perfect. Today we are proud of our reputation and would strive to maintain that role by providing the best possible service and products to our customers.

MISSION

Inverness Technical Electronic Doors Services LLC believe that our strength lies in the comprehensive nature of the service we offer our customers – an individually tailored, one stop package the key words within the company are 'personal service' a philosophy we strive to uphold throughout all sectors of our operation without compromising on quality, we still manages to guarantee realistic prices, making the company a viable option for any potential customers and partners. We dedicated to the quality policy that will ensure that its products and services fully meet the requirements of its customers at all times.

VISION

“To grow wide, both in terms of customer satisfaction and the company as a whole”

WHY CHOOSE US?

Our primary goal is providing our customers with excellent service while delivering a quality product and services accompanied with integrity, professionalism, reliability, and satisfaction. We practice diversity in order to meet our customers' needs. We believe in obtaining the results that the customer wants, not just working on an assignment. We think that it is this type of commitment that leads to future referrals which will create additional contracts.

MANAGEMENT

Inverness Technical Electronic Doors Services LLC has grown as an independent entity, with expert managerial guidance from the team which is unparalleled in the industry. The management at Inverness Technical Electronic Doors Services LLC is motivated to develop the firm in such a way that it reaches a product leadership status.
