01 Cargo Packing

INDUSTRIAL PACKING

CRATING

DG PACKING

All our packing is designed to provide maximum protection for machinery, equipment, and high-value cargo during transportation and storage — using customized wooden crates, pallets, and protective packaging that meet domestic and international shipping requirements, by sea, air, or land.

- Custom wooden crates and pallets
- Export packing to ISPM-15 standards
- On-site packing at client facilities
- DG packing for international cargo
- Heavy machinery & equipment packing
- Vacuum packing & moisture protection
- Heavy-duty palletization
- Shock-proof, corrosion-resistant solutions

MACHINERY CRATING & HANDLING

CUSTOM EXPORT CRATES

INDUSTRIAL WOODEN PACKAGING

02 ISPM-15 Heat Treatment & Fumigation

HEAT TREATMENT

FUMIGATION

CERTIFICATION

ISPM-15-compliant heat treatment and fumigation for wooden packaging used in international shipments. Certified processes eliminate pests while preserving the wood — treated packaging is marked per ISPM-15, helping you avoid customs delays.

IPPC / HT CERTIFIED MARKING

- Heat treatment of pallets, crates & dunnage
- ISPM-15-compliant marking & certification
- International export compliance support
- Fumigation for export wooden packaging
- New and existing wooden packaging

03 Container Lashing & Cargo Securing

LASHING

SECURING

LOAD STABILIZATION

Industry-approved lashing techniques and high-quality securing materials keep cargo stable and protected by sea, road, or rail — customized for heavy machinery, industrial equipment, project cargo, steel products, and oversized shipments.

- Lashing for containers and flat racks
- Project cargo and oversized loads
- Blocking, bracing & load stabilization
- Securing of heavy machinery & equipment
- Certified belts, chains, wire ropes & dunnage
- Load inspection & safety verification

CARGO SECURING OPERATIONS

04 Container Stripping

DE-STUFFING

SORTING

SAFE UNLOADING

Safe, efficient, and systematic unloading of cargo from shipping containers by experienced professionals — handling all types of containerized cargo with precision while maintaining productivity and workplace safety.

SYSTEMATIC DE-STUFFING & SORTING

- 20ft, 40ft & high-cube containers
- Heavy, oversized & sensitive cargo
- Loading onto trucks or to warehouse
- De-stuffing of palletized & loose cargo
- Inspection, sorting & segregation
- Strict adherence to safety procedures

05 Container Stuffing — Cargo Loading

LOADING

SPACE OPTIMIZATION

SECURING

Safe, secure, and efficient loading of cargo into shipping containers for domestic and international transportation — every operation planned to maximize container space, maintain proper weight distribution, and protect cargo in transit.

- 20ft, 40ft & high-cube containers
- Weight distribution & load balancing
- Lashing & cargo securing
- Maximum space utilization
- Palletized, loose, heavy & oversized cargo
- Loading supervision & quality checks

06 Transportation Services

FLATBEDS

PICKUPS

DOOR-TO-DOOR

Safe, reliable, and efficient cargo movement for industrial, commercial, and project-based operations — coordinated with precision, from machinery and equipment to palletized goods and general cargo.

- Local cargo transportation
- Project cargo transportation
- Heavy equipment & industrial cargo
- Door-to-door delivery solutions

Our fleet: 40ft flatbed trailers · 7-ton pickups · 3-ton pickups

07 Short-Term Warehousing (Non-DG)

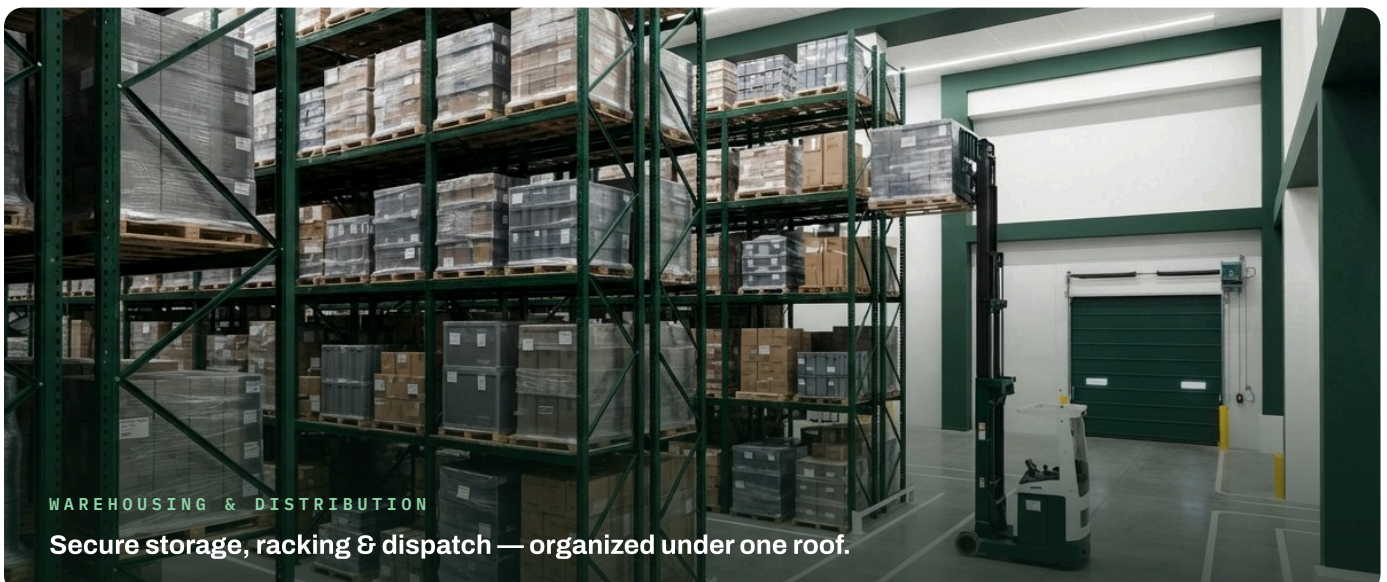

NON-DG CARGO

SHORT-TERM

FLEXIBLE

Secure, flexible, and cost-effective storage for non-dangerous goods — temporary storage before distribution, after container stripping, or during project operations, keeping cargo safe, organized, and readily accessible.

- Secure storage for Non-DG cargo
- Inventory management & cargo tracking
- Loading & dispatch coordination
- Import & export shipment storage
- Cargo inspection & handling
- Flexible storage durations
