PROJECTS RACKING

For all your racking requirements
02 553 4044
or email us
info@mks-group.net

Giving you 100% accessibility to all pallets, first in first out principle and extremely dense storage, mobile racking can be the ideal space saving solution. Using 50% of warehouse space compared to conventional racking this can produce significant build cost savings. Particularly cost effective for a cold store environment.

How to get 100% more storage, and make better use of your space

RACK ACCESSORIES

Pallet support bar

Fork entry bar

Shelf panel

Mobile Art Rack Systems

MECHANICAL DRIVE

Mechanical Drive system aisles by rotating ergonomic drive handles. **Basic safety systems are available. Ideal for medium-sized storage systems with higher activity levels, heavier load factors, greater carriage lengths and a** larger number of system ranges.

Call us for full prices and details
02 553 4044

Load Carrying Capacity Each Modular Storage System carriage has a load capacity of 700 lb. (1,050 kg.) per linear foot (meter). Your local Area Contractor can provide weight analyses and offer structural strategies to accommodate system floor loads

Standard Carriage Lengths For mechanical assist, the maximum length of Space saver Modular Mobile Storage System carriages is 15 feet (4.5m). For manual, the maximum length is 9 feet (2.7m). System widths will allow up to six movable carriages

Modular Rail Design The system's modular rail design is engineered to be placed directly on top of existing floors. To insure a proper match with its environment, the system's modular floor can be installed using virtually any type of floor covering

Flexible Rail Options Spacesaver Modular Mobile Storage Systems are available with two extruded rail options. Shown on the left is a levelable rail with modular floor and ramp that includes in-rail anti-tip devices. Shown on the right is a low-profile, floorless rail that provides additional system height clearance

4 **Anti-spill trough shelf fronts**
5 **Plain shelf dividers**
6 **Plinth**
7 **Add-on Bay**
8 **Open frame**
9 **Open fronted plastic storage**
10 **MULTI-STABIL**
11 **Trough bin shelf with dividers**
12 **Fully clad bay**
13 **Back cladding**
14 **Drawer Block top with central locking**
15 **100 mm drawer**
16 **200 mm drawer**
17 **Base for Drawer Block**
18 **Door set**

SYSTEM COMPONENTS

The shelving and small parts storage system for those applications where space utilisation is paramount. Our modular programme allows for easy specifying, quick delivery and a professional installation.
From only two system components (frames and shelves) combined with a comprehensive accessory range we can offer solutions from a simple bay of shelving to a custom built small part store.

RACKING

Solve your storage problems with our flexible, versatile shelving systems

Typical applications are parts stores, industrial, commercial and trade locations or even VMI (Vendor Maintained Inventory) applications where its versatility ensures the most efficient layout can be achieved.

- Individual shelf capacity up to 400 kg udl
- Bay load up to 3700 kg
- Shelves adjustable at 25 mm vertical pitch
- Shelves perforated at 50 mm centres to accept divider accessories
- Stepped beams for flush inlay chipboard decks (perorated for divider accessories at 200 mm centres)
- Shelves S100, MS 230 // and MS 330 // all with safety factor of 2X udl.

Standard frame heights:
2000, 2200, 2500, 3000, 3500, 4000, 4300, 4500 mm

Standard frame depths:
300, 400, 500, 600, 800 mm

Standard widths:
750, 1000, 1250, 1300 mm

Mezzanine Flooring

Mezzanine floors are designed to utilise the headroom available in a building to provide the largest floor space from the smallest foot print and enable expansion without the need to relocate. Should you choose to relocate in the future the advantage with a mezzanine floor is that you can dismantle mezzanines and move them with you

we have 10 years experience of designing and installing mezzanines / raised storage areas to suit many different applications and we always deliver on time and within budget

We also provide CAD designs and simulation

WHEREHOUSE DOORS

FASTRAX® HIGH SPEED, HIGH PERFORMANCE DOORS

Easy is better. Easy to specify.
Easy to operate. Easy to maintain.
And easy to own. With Rite-Hite's FasTrax high performance industrial doors, the choice is easy.

Industry's highest operating speeds
Operating speeds up to 2.5 m/sec (100"/sec) allows fast cycle times that maximize productivity and energy savings

Simple, menu-based
configurability Choose only the features and options you need

TRUE Auto Re-feed™
After an accidental impact, the FasTrax door re-feeds itself on the fly without human intervention, keeping your door closed and

DOORS GRAPHIC USER INTERFACE

Door's unique Graphic User Interface (GUI)
offers the industry's only 7" LCD touch screen operator that provides increased safety by allowing an individual to simply access the control box settings without wearing the necessary PPE often required for accessing a live electrical panel.

1. **Simple and Convenient Controls**
2. **Increased Safety**
3. **Designed for every application**
4. **Clean look**

BARRIER SYSTEMS

LOADING DOCK SAFETY BARRIER

Help prevent loading dock accidents

* Helps prevent fork trucks, pallet jacks, and pedestrians from falling off a loading dock.
*Helps protect the dangerous 4-foot drop off at the loading dock that can result in serious injuries that are sometimes fatal.

BARRIER GLIDER FREEZER DOOR:

The Barrier Glider high speed freezer door for refrigerated warehouses, food manufacturing/processing plants, and grocery distribution centers offers superior environmental separation for cold storage environments.

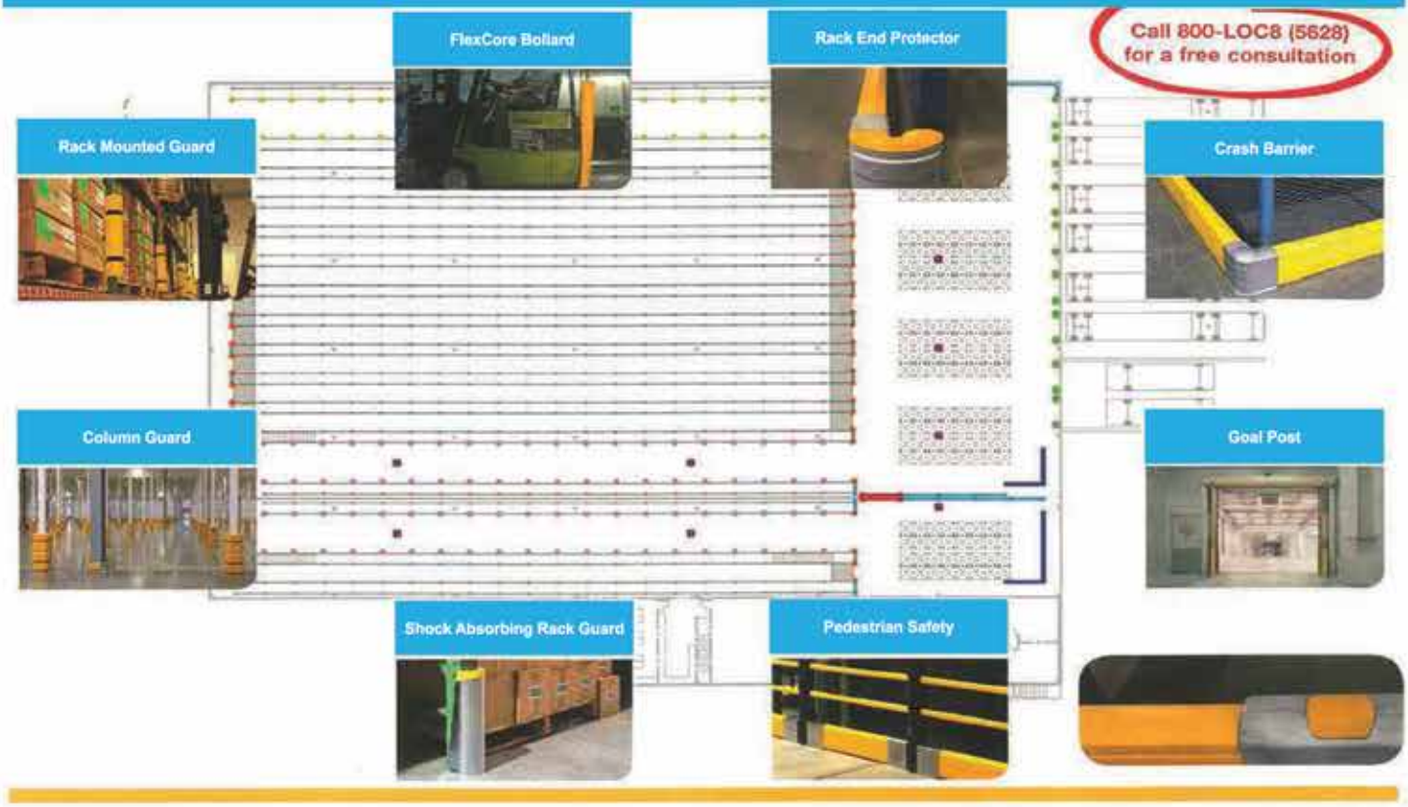

GUARDRITE STEEL

Your plant can be a dangerous place. When it comes to protection, a yellow line painted on the floor just doesn't cut it.

Solutions for every corner of your facility!

As you check out our award winning FlexCore Bollards, modular Crash Barrier systems, Column Guards, Pedestrian Barrier systems, Goal Posts and more, take a look at all the new performance features we have designed into each product.

How often has this happened to you?
Your steel bollard, rail, or angle iron has halted a wayward truck, but now it's broken – and so is your concrete floor, your truck, your driver and your goods.

A New Way to Look at Damage Preventiion

CABINET AND LOCKERS

For the ultimate in storage and protection of hazardous materials, these high quality hazardous materials storage cupboards look attractive and provide security.

These extremely popular cabinets are made from galvanized steel that is tightly welded and fitted to ensure that there is no leakage.

All of the hazardous materials storage cupboards come with a warning symbol so that employees and customers alike will know to take care with the cupboards and their contents.

Welded and reinforced construction ensures a solid, safe and secure cupboard capable of carrying high loads

FIRE RESISTANT SECURITY CUPBOARDS/ SAFES

- Ideal in the office, for the safe keeping of paper documents and valuables.
- Five versatile sizes available, for total flexibility.
- Heavy-duty, 3-way locking mechanism & continuous 'dog bar' to protect hinge edge, for maximum security.
- Standard locking - CEN/VDS approved double bitted 8-lever safe lock & 2 keys.
- Double walled construction filled with fire resistant material to DIN4102 & offering 30-minute protection at 750 degrees.
- Complete with shelve(s), which are adjustable every 25mm.
- Options include: Electronic locking, inner compartments and pull-out frames.
- Not suitable for computer media protection.
- Finish - Light Grey.

MILITARY WEAPONS STORAGE

The Universal™ Weapons Rack (UWR™ storage system) and UWRmini™ storage system is ready for secure military weapons storage for a variety of purposes such as, M16 racks, pistol racks, gear bag cabinets, or optics cabinets all utilizing the same secure cabinet frame. Multiple weapons storage in one weapon cabinet, and doing so without the need to disassemble or zero the weapon is a huge boost to your operational and combat readiness.

Spacesaver weapons racks combine thoughtful design and unmatched features to create a weapons storage system that's thoroughly dependable and instantly deployable under any circumstance. Keeping operational readiness in mind, the Universal Weapons Rack storage system is both versatile and flexible.

WORK BENCHES
