# ABOUT US

Established in 2021, Moark is a dynamic general contracting company specializing in delivering high-quality services to the industrial, commercial, and residential sectors across the United Arab Emirates. By harnessing the latest value engineering processes, we ensure excellence in the field of general contracting.

Under the astute supervision of our skilled executive team, Moark has successfully accomplished numerous projects, establishing a reputation for quality and reliability. Over the years, we have built a team of experts with extensive knowledge and experience in providing integrated system engineering solutions, enabling us to maintain our position as a market leader.

At Moark, we have the capacity to take on small to medium-sized projects as the main contractor and provide project management services that effectively coordinate specialist trades for industrial and commercial projects. Additionally, we offer design inputs and engineering solutions to our clients as value-added services, ensuring tailored solutions that meet their unique requirements.

# COMPANY PROFILE

## OUR VISION

Our vision is to be recognized as the leading provider of general contracting, Automation, and cleaning services in the United Arab Emirates, known for our commitment to quality, reliability, and customer satisfaction.

## OUR MISSION

Our mission is to deliver unparalleled general contracting, automation, and cleaning services that consistently exceed our clients' expectations. We achieve this by fostering a culture of excellence, innovation, and integrity in everything we do.

# OUR SERVICES

## GENERAL CONTRACTING

We offer comprehensive general contracting services, including construction management, project planning, and resource allocation to ensure timely delivery of projects within budget and to the highest quality standards.

## FACILITY MANAGEMENT

Moark provides professional facility management services, including maintenance and repair, asset management, and energy management, to ensure optimal functionality, safety, and efficiency of your facilities.

## **CLEANING SERVICES**

We deliver high-quality cleaning services, tailored to your specific needs, ensuring a clean, hygienic, and pleasant environment for your employees and customers.

## **BUILDING MAINTENANCE**

Our building maintenance services include routine inspections, preventive maintenance, and corrective repairs to preserve the structural integrity and functionality of your property, minimizing downtime and costs associated with repairs.

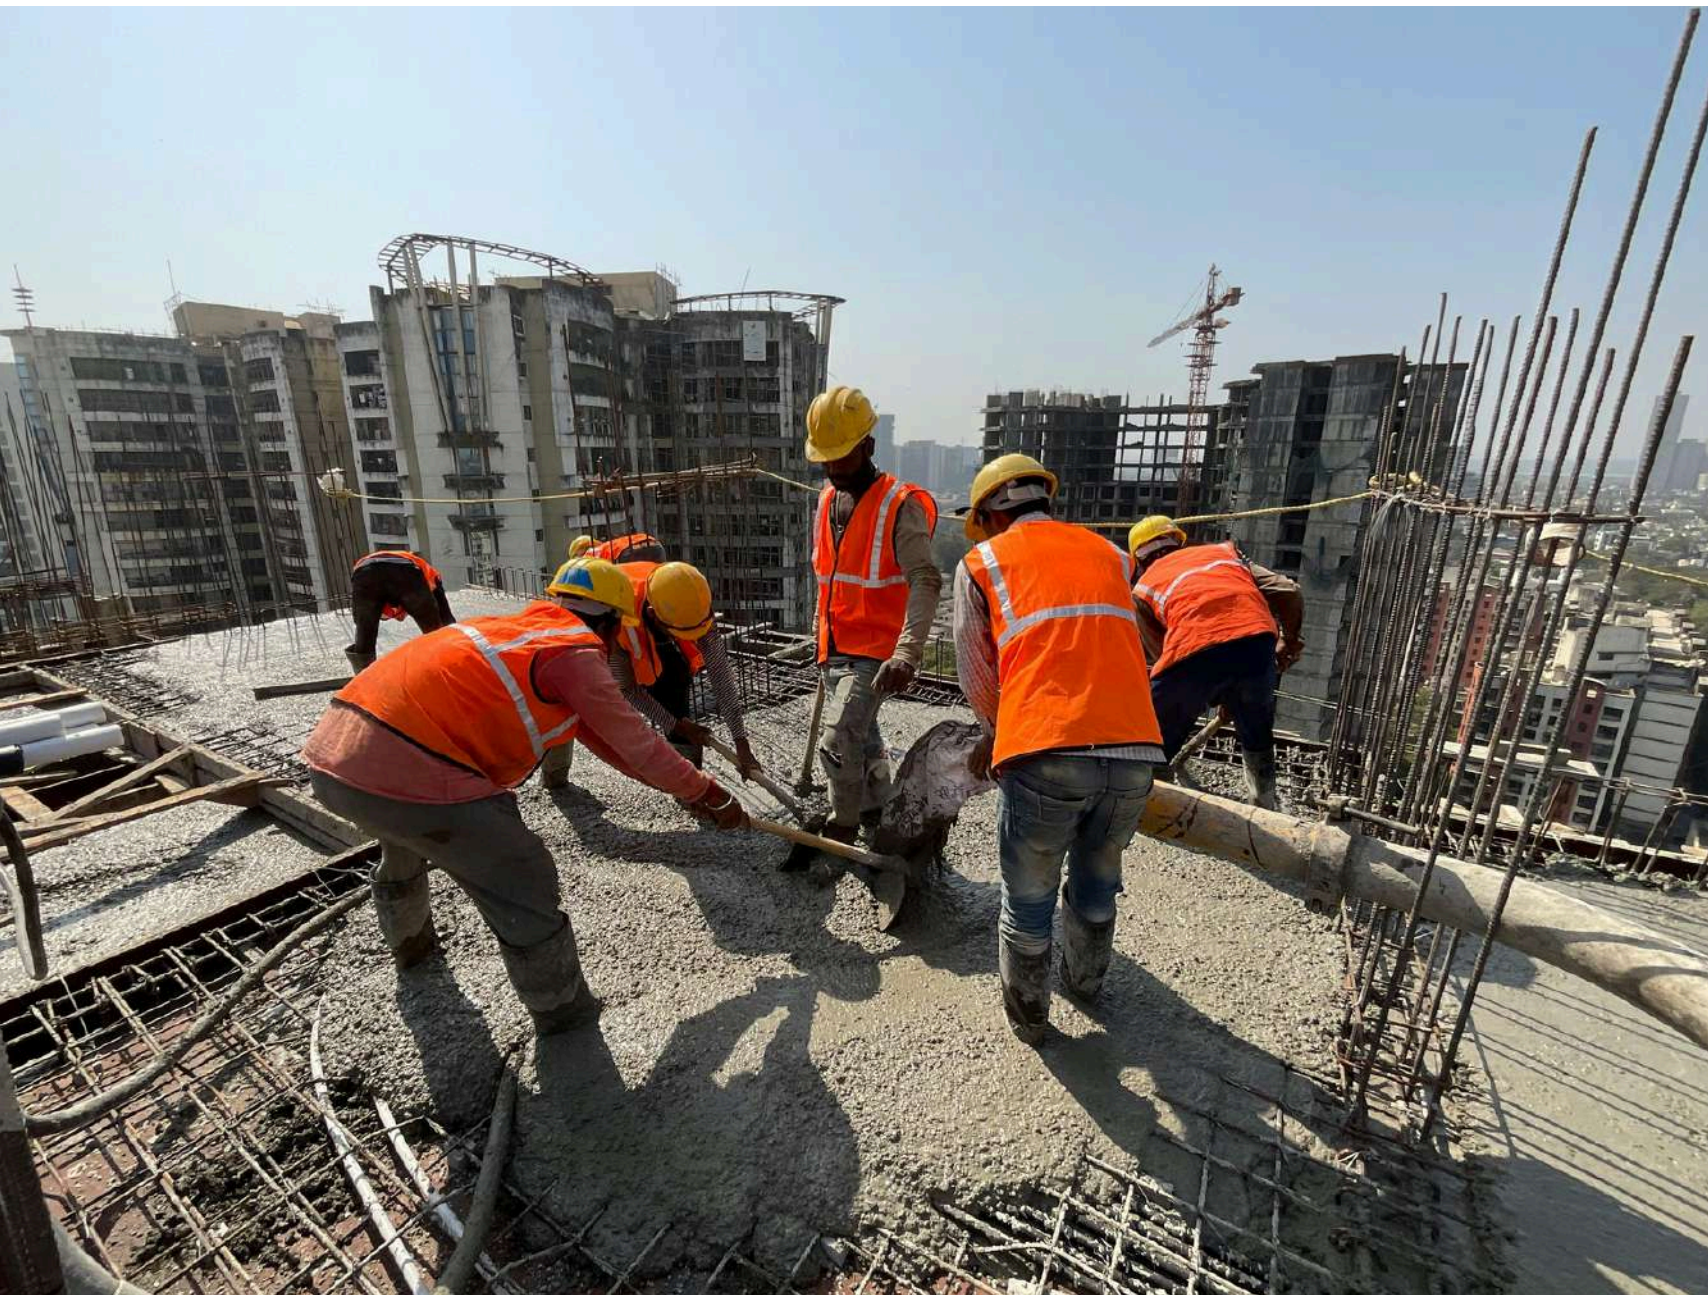

## **LANDSCAPING**

We provide professional landscaping services that transform outdoor spaces into beautiful, functional, and sustainable environments.

Our team of experienced landscape designers, horticulturists, and skilled technicians work closely with clients to create customized designs that reflect their unique preferences and requirements.

# HOW WE WORK

At Moark, our primary focus is to understand our clients' unique needs and provide tailored solutions that exceed their expectations. Our work process is designed to ensure efficiency, transparency, and open communication throughout every stage of the project:

**Consultation:** We begin by conducting a thorough consultation to gain a deep understanding of our clients' requirements, preferences, and objectives. This enables us to devise a tailored project plan that addresses their specific needs.

**Planning and Design:** Our team of experts collaborates closely with the client to develop a detailed project plan, incorporating architectural design, resource allocation, and project timelines. We also take this opportunity to explore innovative solutions and value engineering opportunities that can enhance project outcomes.

**Execution:** During the execution phase, we ensure strict adherence to project plans, quality standards, and safety regulations. Our experienced team closely monitors progress, addressing any challenges that may arise, and ensuring timely delivery of the project.

**Quality Assurance and Control:** We implement rigorous quality assurance and control measures at every stage of the project to guarantee that the final deliverables meet the highest standards of quality, functionality, and safety.

**Ongoing Support:** Even after project completion, we provide ongoing support and maintenance services to ensure the continued optimal performance of your facilities. Our dedicated customer support team is always available to address any concerns or queries you may have.

# OUR PROJECTS

**PROJECT NAME** DISMANTLING, SHIFTING, RE-INSTALLATION, TESTING & COMMISSIONING OF CHILLER AT EXECUJET FACILITY  
**LOCATION** DUBAI  
**YEAR** 2022  
**CONTRACTOR** SOUTH ENERGY DWC-LLC

**ACTIVITIES** Electrical Works, Chillers Disconnecting, Shifting, Re-Installation,  
: Testing & Commissioning of Chiller plant at Execujet MRO + FBO

**SCOPE OF WORKS** :

- Supply & Installation of Air Separator-01 nos
- Supply & Installation of Expansion Tank, with make-up system-01 nos (pressurization unit)
- Supply & Installation of domestic water connection with Flow meter and chamber
- Supply & Installation of Water Tank
- Fire safety as per civil defense requirement
- Supply and installation of 1no manual chemical dosing pot with 1st charge of chemicals

# Safety and Environment (HSE)

At Moark, the health, safety, and well-being of our employees, clients, and the environment are paramount. We are committed to adhering to the highest HSE standards in every aspect of our operations:

We have a dedicated HSE team that ensures compliance with local and international regulations, and implements best practices to mitigate risks and promote a safe working environment.

Our employees receive regular training and updates on HSE procedures and guidelines to ensure they have the knowledge and tools to work safely and efficiently.

We conduct thorough risk assessments for every project, identifying potential hazards and implementing appropriate measures to prevent incidents and protect our people and the environment.

Moark is dedicated to sustainable practices, incorporating eco-friendly materials and techniques in our projects to minimize our environmental footprint.

By prioritizing HSE in our daily operations, we not only ensure the well-being of our employees and clients but also contribute to a safer and more sustainable future.
